DEATH OF A WELL KNOWN MAN.

Binghamton papers of last Saturday of Col. Martin Stone, of that city, who was well known to the business men of this county. His death occurred at his

several months but until recently no dang ger of a fatal termination of his disease. had been anticipated. A few weeks since he visited New York City for treatment, which not having the desired effect he returned home, reaching Binghamton on-Christmas eyening, in a delirious condition. Since that time he rapidly grew worse until released by death. His disof the brain.

Martin Stone was born in the town of

Chenango, Broome Co., N. Y., on a farm now owned and occupied by his brother, Aaron Stone, five miles north of Binghamton, in 1817. He remained upon this farm until between twenty and thirty years of age, the death of his father when he was a mere boy left him yirtually at the head of the family. He taught school for several years, both in the neighborhood of Binghamton and at Cincinnati, Ohio.

Shortly after his marriage to Miss Rebecca McKinney, daughter of John Mc-Kinney, of Great Bend, he removed to Binghamton and went at once into the real estate business, in which he has remained continuously since, probably owning at the time of his death a larger number of dwellings than any other resident of that city.

By judicious investments, the advance in real estate alone soon laid the foundation of the ample fortune which he has since accumulated and leaves to his family, which consists of his wife and five

Mr. Stone was the son of parents in very humble circumstances, and fought his way steadily against adverse circumstances. He was early recognized among the business men of that city as a man of superior judgement, and it was quite common for leading business men to seek his judgement when contemplating the purchase of real estate. He was a man of quick perceptions, good at repartee, and his remarks were often repeated and laughed over among his friends. In social affairs he was very genial, and drew around him many warm friends who will miss him sadly.

OFFICIAL PERJURY.

THE TABLES TURNED .- At the lust election Jacob L. Steinmitz, Democrat, was elected to the Legislature from Lancaster county, defeating - Johnson, Republican. The latter contested the election on the ground that illegal votes, on account of non-payment of the taxes, had been cast for Steinmitz. The case come on for a hearing before commissioners appointed by the court and the tax collector, A. R. Warfel, was the first witness. 'The ballets for Steinmitz were identified by their numbers, and it was proven by the tax collector Warfel that a good number of persons who cast them had not paid State or county tax within two years, as the law requires. This is the first instance in which we have seen the numbering of the votes utilized. 'After this part of the evidence had peen concluded, Warfel was cross-examined. The story he told, convicting himself of perjury and the illegal issue of tax receipts is richness itself. Briefly he testified, that on the 6th of October, S. H. Levan, Treasurer of the Republican Committee, paid him \$500, and from that time up to and including election day, he issued tax receipts, ante-dating them back to October 6, to persons designated by the Repub lican Committee. Here are some points of the testimony, which we find reported in full in the Lancaster Intelligencer:

Question-Did you ever date a receipt as of any other date than the date of which it was issued. (After a long pause and painful silence)
—I did. The money was paid to me, and the receipts furnished afterwards.

Q. What was the largest sum of money you ever received in that way and when and from whom? A. Five hundred dollars, October 6. 1876, from S. H. Levan, treasurer of the Republican county committee.

[The witness then testified to that names of Republican politicians of Lancaster who gave the names of persons to whom tax receipts

Q. Do I understand that between October 7, 1876, and November 7,1876, as these men would furnish you lists of names you would issue tax receipts according to those lists of names and date them back to October 6th or 7th, 1876?— Yes sir!

Q. Did you issue any on the day of the election? A. I did.

Q. How many receipts of the nature did you issue between October 7 and November 7, 876, and in whose names were they issued ?— That would be very difficult for me to answer. I have no notes with me. I have a memorandum et them at home.

This was enough. The counsel for the Republican contestant abandoned the case. The result of the inquiry was to increase the macontained the announcement of the death, jority of Steinmitz, the Democratic candidate, several hundred votes. The best of the joke is that the contest was based on an affidavit by Col. Stone had been in ill health for in Hiestand's printing office, on election day making out tax receipts and dating them back to October 6th.

Norming.—One of the hardest words to define in this world is—"nothing." Out of a hundred answers to the query as to what "nothing" means, no two will agree. A careful housekeeper will say, that "nothing" is the thinnest. end of five cents' worth of the corner grocery man's cheese; and a mischievous boy will tell you that "nothing" is what he was doing when ease was said to be sub-scute inflamation his mother slapped him. A young wife will say that "nothing" is what she was crying about when her husband came home for the first time a little how-come-ye-so; and a reluctant wit ness defines "nothing" as what he knows about a police court case in which he is subprensed. corporation by the Odd Fellows Hall Association of Rush. The character and object is for King Lear says that "nothing" comes to "nothing;" but that throws very little light on the meaning of the word. A punster will argue that "nothing" is better than Heaven; but that is only a comparative definition, and argues either little for the celestial comforts or an impossibility to realize the glories of "nothing." There are several ways of doing "nothing," however. Some people do "nothing" right; others do "nothing" wrong; though it or any of the disputed States. This is posi-would seem that it "nothing" is a good thing tively efficial and if you do not feel satisfied to do, one had better do it right than wrong.— None of these logical deductions somehow get at the real meaning of the word. The only way to realize an acurate conception of the term is by corroborative testimony; and when 900 persons contend for the same definition, then it is presumedly a correct one. "Nothing" is what every convict in prison is confined for; and "nothing is, therefore, a prison offense. This article is not the first instance on record of a journalist making a living by having "nothing" to write about.
