Spary, the leader of the Linta Band of Towanda, is a famous fisherman. It is said that he will throw a fly so accurately that even across a street as broad as Lake street, he will put it into a key-hole nine times in ten. The size of the key-hole is of no account. Husbands who stay out late at night at their clubs should practice a little in this, their night-keys being substituted for a fly.—Advertiser.

The Wilkes-Barre correspondent of the Republican, in writing upon the social evil in that city, says that "Wilkes-Barre is to-day the most lecherous city of its size to be found anywhere." The Record of the Times denies the truth of such humiliating assertion, but the testimony of those informed on the matter sustains the Republican's statement. The Mayor is making strenuous efforts to check and eradicate the evil.

The Oneida Union is authority for the statement that the Chenango Canal will not be opened until appropriations are made therefor. It is about time that some action was taken in the matter for the relief of the people living on its borders. As it is now left a mass of mud to be generated that will surely prove detrimental to the health of the villages through which it passes. What has become of the \$6,000? We now learn that it is to be opened June 1st.—Scherburne News.

We are pained to announce the death of Mrs. E. A. Parsons, wife of the proprietor of the Bradford Argus. Some weeks since she was suddenly taken down with a severe attack of pneumonia; after lingering in a critical condition for several days, she apparently revived, and her family felt encouraged that she would ultimately regain her health. On Saturday, however, her symptoms suddenly became alarming, and she soon sank into a stupor, from which she never recovered, but was relieved by death on Monday morning.—Towanda Reporter.

A collision occurred at about 5 o'clock Sunday morning, on the Erie, at a point between Adrian and Canisteo, between third extra freight train 43 going west and extra 36 coming east. At the point where the collision occurred there is but a single track. One of the trains was loaded with oil, and the most badly wrecked cars, fifteen in number, caught fire and burned with startling rapidity. Engine 145 of the westward bound train was a total wreck; engine 435 of the eastward bound train, was considered damaged, but being the heavier of the two, received less important injuries. The cause of the accident and the responsibility for it have not been learned. The engineers and firemen escaped by jumping from their engines. Train No. 8 was delayed over six hours at the scene of the wreck; train 3 was also detained.—Binghamton Times.

MAY.

TO ALL, PARTICULARLY INVALIDS, spring is a trying season. Indications of sickness should at once be attended to. Fatal disease may be caused by allowing the bowels to become constipated and the system to remain in a disordered condition, until the disorder has time to develop itself. An ounce of prevention is worth a pound of cure, is an old and truthful saying. Therefore, we advise all who are troubled with the complaints now very prevalent—headache, indigestion, disordered liver, want of appetite, nausea, or feverish skin, to take, without delay, Schenck's Mandrake Pills. We know of no remedy so harmless and decisive in its action. It at once strikes at the root of the disease and produces a healthy tone to the system. People never need suffer from any disease arising from a disordered condition of the liver if they would take this excellent medicine when they feel the first indications of the malady. Families leaving home for the summer months should take three or four boxes of these pills with them. They will relieve the patient of headache in one or two hours, and will rapidly cleanse the liver of surrounding bile, and will effectually prevent a bilious attack. They are sold by all druggists.
