THE SPEAKERSHIP AGAIN.

The Patriot very justly denounces the talk of an attempt of the administration to elect a Republican speaker of the house of Representatives at Washington.

It is incredible that any Democratic Congressman will be found perfidious enough to cast his vote for a Republican candidate for the speakership.

A recent decision of the Supreme Court of Pennsylvania, in the case of HUCKENSTEIN vs. HERMANN, is of interest to the business community.

FALL ELECTIONS.

The first elections of the year will be held on the 6th of August in Kentucky and Alabama to choose legislatures.

DISINTERESTED VIRTUE.

The Burlington Hawkeys is noted for its editorial witticisms, but in the following it rather excels itself.

Chamberlain calls Hayes "a usurper without a shadow of legal right or semblance of lawful authority."

The cause in the falling off in the exportation of fresh beef from New York to England, is not in whole or in part, according to the World, ascribed to the warm weather.

IMPORTANT DECISION.

A circular has been issued to the different building associations, by the State Treasurer notifying them that a tax of one quarter of one per cent.

A practice has become current of late among the money lenders of our State to insert in the body of a promissory note a clause binding the maker to pay all fees for collection.

The New York Times shows that the Republican party in that city spends every year fifty thousand dollars for what it calls "legitimate election expenses."

The Baltimore Sun is of the opinion that "no finding of the Louisiana courts can disturb Mr. Hayes's title or make it better or worse than it is now."

NEW LIGHT. A new means of producing artificial light has been discovered which will likely work a great change in social and industrial life.

CAUSE OF GREELEY'S DEATH.

The New York Sun devotes some space to demonstrating that Mr. Greeley's insanity and death did not result from mortification at his defeat in the Presidential contest of 1872.

The gossips at the political clubs in New York, according to the correspondent of the Philadelphia Ledger, "affect to see the hidden hand of Mr. Tilden in the indictment and arrest of the Louisiana Returning Board."

The manufacture of flour barrels from paper is a growing industry. One firm in Wisconsin is largely engaged in the new manufacture, and another firm at Syracuse, N. Y., is following in their footsteps.

A Philadelphia paper states as a matter of fact that the Supreme court of this state has overruled itself no less than four hundred and forty times by actual account!

The Baltimore Sun is of the opinion that "no finding of the Louisiana courts can disturb Mr. Hayes's title or make it better or worse than it is now."

Seven hundred Mormon recruits arrived a few days since from Europe.
