

Arrival of the Steamship Canada.

Defeat of the Austrians—King of Prussia declines the Imperial Crown—War in Denmark—The French at Rome—Submission of Sicily to Naples.

The steamship Canada arrived at Halifax on Monday evening, and is expected to reach New York to-morrow. Her news was telegraphed from St. John's, and is one week later. The Canada sailed from Liverpool on the 8th inst. The news is considered, commercially, very favorable.

Canadian affairs had been alluded to in Parliament, but the ministry has carefully avoided giving any information of the views or intentions of the Government relative to the pending quarrel.

HUNGARY.—Official notice of the intervention of Russia in Hungary, has been received at Paris. The men placed at the disposal of the Austrians is 80,000.

The war in Hungary is assuming a serious aspect. The Austrians have been signally defeated.

DENMARK.—The war in Schleswig continues, and the promised peace seems far distant.

ITALY.—The news of the arrival of the French created great sensation at Rome, where it was said Avezzana had not 20,000 under arms to resist them. Another report states the Romans did not await the arrival of the French troops to rise against the Triumvirate, and pronounce for Pius IX.

The French commander proclaims that his mission is rather friendly than otherwise. It is understood that the Pope will be expelled or compelled to grant not only an amnesty, but desirable reforms.

Similar conditions will probably be imposed on the Grand Duke of Tuscany.

It was reported at Paris on the 3d inst., at the Bourse, and generally credited, that the Government had received a telegraphic despatch announcing the entrance of the French into Rome, and the flight of the Republican Government; also that the Tuscan troops had entered Leghorn.

The funds were favorably affected by these reports.

SICILY.—The Sicilians beaten at all points have virtually submitted to the King of Naples and the French Admiral having negotiated successfully for favorable conditions.

INDIA.—Later advices by the overland mail confirm to the fullest extent the previous accounts of the entire termination of the war in Punjab.

Arrest of a Steam Doctor.

A Dr. Cross has been arrested at Stroudsburg, Pa. for manslaughter, charged with causing the death of a patient by improper treatment. The Democrat says:

An "Indian," named Cross, undertook for the consideration of \$5, paid in advance, to cure Mr. Daniel Quinn of a rheumatic pain. He commenced by steaming him, by seating him over a pot of boiling water, and covering him with a blanket. Into the water he dropped at short intervals, hot bricks, to keep up a requisite temperature. After continuing this operation for about three hours, he put the patient to bed, with half a dozen hot bricks close to different parts of his body and limbs, and with a great number of blankets, comfortable and cozy on top of him, covering up his face as well as his whole body. The patient or victim begged for air, but it was almost wholly denied him. The doctor started off on a visit to our town, giving strict orders that the covering should not be removed until his return. As he remained away some three or four hours, Mrs. Quinn found it absolutely necessary to remove a portion of the covering. On Cross's return he poured into a spoon a few drops of a medicine which he called "Indian red drop," and administered a portion of it to Quinn. He had no sooner taken it than he clasped his hands to his head and exclaimed "who struck me?" and in a short time he expired of apoplexy. Cross has attempted the cure of rheumatism upon other subjects frequently, and sometimes with success.

THE NEXT CONGRESS.—Twenty-one States with the exception of three vacancies—one in each of the States of Massachusetts, Rhode Island and Ohio—have chosen all their representatives in the next Congress, and the result is as follows: whigs, 83; locos 70; whig free soil 8; loco free soil 4. In the last Congress, in the same States the whigs had 96, the locos 77, and the independents 3.

Indiana, Maryland, North Carolina, Alabama, Mississippi, Louisiana, Kentucky, Tennessee, and Texas are yet to choose. These, including the three vacancies, the Tribune classifies as follows:—whigs, 33; locos, 13; whig free soil 1. In the last Congress the whigs had 30; the locos 86; and the independents 1. This classification would make the next House stand—whigs, 118; locos, 103; whig free soil, 9; loco free soil 4. In this computation, Wilson and Tuck of New Hampshire, both whigs, are classed among the whig free soilers. This table, however, shows that if the whigs have a majority in the next Congress, it will be very small.

In the last Congress, the whigs numbered 116, the locos 113, and the independents 4.

The Onondaga Standard argues that Congress, under that clause of the Constitution which guarantees to every State a Republican form of Government, ought to require South Carolina forthwith to adopt a Constitution more in accordance with Republican principles, as a pre-requisite to her longer continuance in the Union. Whatever may be the duty of Congress in the premises, there can be no doubt that the Government of the Palmetto State is as far removed from Republicanism in its main features as that of Russia or Austria.

A Hog was recently butchered in Broome County, which weighed 2,000 lbs. The skin was preserved, and is to be sent to New York City to be stuffed for exhibition, as a rare curiosity.

Opinions of the Press.

Upon the late improvement of the Register and the duty of the Whigs of this county to sustain it.

From the Montrose Democrat.
"SPURRED UP."—The Register last week made its appearance in a brand-new dress, in which it looked spruce enough. * * * If the Whigs of Susquehanna do not respond heartily to his enterprise and give his new paper a liberal support, the fault will be their own.

From the Carbondale Journal.
GLAD TO SEE IT.—The Susquehanna Register has put on a new dress, and comes to us in an enlarged form. With this change too, the editor seems to have brushed off the rust, (seemingly engendered by his long contact with those "same old type") and judging from the last number, his paper hereafter will be creditable to the party, and we trust profitable to himself. The Register is associated with our earliest recollections: it was the first newspaper we ever read, and it seems as if but yesterday we were watching the mail-boy on the Wyalusing, to get a glimpse at it: for it was our first type, when a school-boy, and whether in the swamps of Louisiana or nearer home, has been cherished as a friend. We heartily congratulate friend Chapman upon his improvement.

From the Wyoming Whig.
The Susquehanna Register, has been enlarged and improved. The first number of the improved sheet came to hand yesterday, and it presents, indeed, a beautiful appearance. We have always prized the Register highly, but now we can truly say that it is not surpassed by any paper of its size in the State.

Friend Chapman, we wish you the enlarged success, which your increased efforts to do good in our sister county, so richly deserves.

From the Binghamton Democrat.
The Susquehanna Register comes to us dressed in New type throughout, and somewhat enlarged. It now looks as neat as a new pin. CHAPMAN has every reason to "crow."

From the Mauch Chunk Gazette.
The Susquehanna Register, has been very much improved by a dress of new type, throughout. If the citizens of that county do not encourage that "Chap." by paying up and sending in the names and cash of new subscribers, they deserve the visitation of a short crop of Maple Sugar, the Potato rot, and free trade principles for Products.

From the Philadelphia Daily News.
The Susquehanna Register, one of the best Whig papers in Northern Pennsylvania, comes to us enlarged and printed on new and beautiful type. We congratulate friend Chapman upon this evidence of his increasing prosperity.

From the Bradford Reporter.
"THE SUSQUEHANNA REGISTER" comes to us decked with new materials throughout. It is now one of the neatest of our exchanges. Our friend CHAPMAN has published it long enough to be entitled to the hearty support of the Whigs of Susquehanna.

From the Bradford Argus.
THE SUSQUEHANNA REGISTER.—This excellent paper comes to us much enlarged, and in an entire new and beautiful dress. It is now one of the neatest appearing papers we know of. The Whigs of Susquehanna County owe it to themselves, as well as to Mr. CHAPMAN, the enterprising editor of the Register, to give their organ a good living support.

From the Sussex (N. J.) Register.
The Susquehanna (Pa.) Register, enlarged in its dimensions, and beautified by type completely new, made its appearance on our table a few days ago. We hardly recognized our ancient friend in his rejuvenated habiliments, but we found the old "Chap" was still there; with the same kindly nature—the same vigor and intelligence which have ever characterized him. Success to him. May lots of subscribers rally round him, and his purse grow plenteous from the proceeds of cash advertisements.

From the Miltonian.
The Susquehanna Register, published at Montrose, Pa., comes to us this week in an enlarged and improved appearance. The Register is a well conducted Whig paper, and we hope the efforts of friend CHAPMAN—not Chapman of crowing notoriety—will be sustained by a corresponding increase of patronage.

From the Owego Advertiser.
THE SUSQUEHANNA REGISTER.—This sterling Whig paper, published in Montrose, Pa., and edited by J. W. CHAPMAN, Esq., comes to us this week in an enlarged form, and printed on new type, presenting a clear and beautiful appearance. We rejoice to learn that the public spirit of the editor has been so promptly seconded by the Whigs of Susquehanna, that this valuable service is so well appreciated. Long may Chapman's paper be thus sustained; and long may he live to crow over the dispersed hosts of Locofocoism.

*This and similar remarks express rather what ought to be than what is.

Similar compliments might be quoted from several other papers if we had room.

CHOLERA prevails extensively at the West. In the Western papers received by mail yesterday we have note of the following: At Versailles, Ky., two deaths; at Georgetown, Ky., one death; on the steamer St. Paul on the Missouri river, eleven deaths; on the Algonia, four; at Maysville, Ky., 21 deaths in the city and surrounding country during 23 hours, ending the afternoon of the 10th; on the steamer Bell Ky from New Orleans, five deaths on the voyage, four; on the America, 18; on the Nemoe, several; at Shepherdsville, Ky., 3; on the Kentucky river, 4; at New Albany, 2; in Washington, Ky., 2; at Yazoo City, several; in Madison county, Ky., twelve cases and six deaths; in Charleston Bottom, several; at Rock Island, one. At Louisville, the disease appears to be preva-

ling, but the papers of the place talk vaguely, and from their statements there are no deaths although cases are constantly occurring. We have already had statements by telegraph of the ravages of the disease, at St. Louis and Cincinnati. At St. Louis it had been carried into the Orphans' Home by infection, and four deaths had occurred. At Fort Smith it was prevailing, and five deaths from it had occurred in one emigrant company. The ravages of the disease at Maysville, as will be seen above, have increased alarmingly.

SICK HEADACHE.—Wright's Indian Vegetable Pills are a certain cure for every description of headache, because they cleanse the body from those morbid humors, which, if confined in the stomach, are the cause of nausea and sickness, want of appetite, disagreeable taste in the mouth, bad breath, wasting of the gums, decayed teeth, and many other distressing complaints; and when taken into the circulation, and thrown upon the various parts of the body, give rise to every malady incident to man. Four or five of Wright's Indian Vegetable Pills, taken once in twenty-four hours, will in a short time put a complete stop to Sick Headache; at the same time the digestive organs will be restored to a healthy tone.

Beware of Counterfeits and Imitations.—Remember that the original and only genuine Vegetable Pills have the written signature, William Wright on the label of each box.

Ten—Small profits, and ready pay for short credits. GEO. FULLER.

Montrose, May 9, 1849.

Colton's Premium Bee Hive.

On an entirely New Plan.

THIS Hive is decided to be the best Hive in use, by those who have used it, and by the most experienced bee-keepers.

It has three protections against the bee moth.—1st, the bottom is iron, so that the egg will not hatch under it. 2d, it is so constructed that the worm cannot crawl above the bottom box, if the egg should hatch. 3d, the worm can be retained by a mesh of wire, by removing the drawers arranged upon the sides, and turning the bees in upon the centre, sufficient to keep the comb covered with the bees all through the season, and the bees will protect the comb from the miller.

This Hive can be used for a swarming or a non swarming Hive.

It is perfectly adapted to its construction, and gives the bees ample room for all to work at the same time, so that they will never lay out on the outside of the hive.

The bees will increase one third more in this than in the other kinds, and make twice the amount of honey.

The old comb can be removed at any time with safety, by taking out the separate drawers or boxes in which it is contained, without disturbing the work of the bees below.

The subscribers having purchased the right for this valuable improvement for Susquehanna county, offer for sale individual and township rights.

A model of this truly ingenious and valuable article may be seen at the store of J. Eldridge in Montrose, who will explain its advantages, and is authorized to make contracts for the sale of rights.

WM. F. BRADLEY & CO.,
Great Bend, May 9, 1849.

New Hat and Cap Store.

THE citizens of Montrose and vicinity are respectfully informed that the subscribers have commenced the manufacture of Hats and Caps, two doors below the Farmer's Store, where they keep constantly on hand and for sale a general assortment of Hats and Caps of every variety and price.

All who wish to purchase a first rate article in our line, are particularly invited to give us a call before purchasing elsewhere. Our stock consists of Beaver, Nutria, Brush, Molesteria, Silk, Muskrat, and Coney Hats; also, California, Sporting, Wool, Leghorn, Straw and Palmleaf Hats, &c., &c., besides a great variety of Men and Boys' Cloth and Glazed Caps, children's funny do, &c., &c. in short, a large assortment of almost every article in our line.

By a strict attention to business and a desire to please, we hope to merit and receive a liberal patronage, and assure those in want of Hats and Caps that every effort will be made to get up the neatest and best kind of an article.

May 4, 1849. ELDRÉD & NEWCOMB.
