From the New York Tribune. The News from Europe

Is again of startling import. The Northerr. Autocrat ostentatiously casts his sword into the scale where the destinies of nations hang trembling, confident of his power to crush the rising hope of Freedom. He marches ostensibly against Hungary but re-ally against Germany, Italy, and the free spirit is everywhere awake or awakening thro'out Europe. Despotism decrees that human blood shall flow in rivers that the chains of conturies may be tightened; the wrongs of the millions be doubled, the receding darkness resume her dreary and dismal reign .---No choice is left the Nations but Slavery or Death. Let it be remembered, through the years of carnage now commencing by whom and on whose behalf this dire alternative is presented.

Hungary is the first point of attack .--That Nation is one of the oldest and bravest among the Peoples of modern Europe-long the bulwark of Christendom against the fiery valor of the Moslem hordes before Russia or Austria had an existence-when the latter was at best a petty principality, and the former the domain of savage tribes less enlightened and scarcely more formidable than our Indians. Defeated and her monarch slain on her last great battle-field, Hungary called to her throne the house of Hansburg, not as conquerors but as magistrates, sworn to uphold her independence and adof Austria, but an ally in the great work of a slight cough or cold; you allow business, plea-That end was achieved. From the walls of become hoarse, have pains in the side or chest, exby the gathered might of Eastern Europe- then you find your own foolish neglect has brought hurled back never to return. For three on this complaint. If, then, you value your life or profusely nourished by Hungarian blood .--At length long obsequious Hungary demands of Austria the fulfillment of the guaranties which induced her to yield her crown to an Austrian prince. She asks the correction of certain glairing abuses, the restoration of some portion of the rights which have one by one been filched away from her people .----The Austrian oligarchy answers with the sword, and with the utter abrogation and formak denial of rights to Hungary as a separate nation. Beaten by default at the har of History and Humanity, Austria is doubly discomfitted in her ready appeal to arms. The minions for despotism are at all hope of her subjugation by Austrian force alone is dissipated-abandoned. It is manifest that Vienna is far more in danger of capture than Debreesin. -

Here the Autocrat of all the Russias interposes his colossal strength. In swelling words of blasphemy, he reviles the Hungarians for daring to assert their rights and threatens to crush them by his power. His accusations are lies, and of no account, but his five hundred thousand trained vetrans-plure of thousand trained vetrans-plure Orthography, Reading, Writing, Arithmetic fighting machines without an idea beyond their daily exercise or an aspiration beyond a night's debauch--men who would shoot their mothers at the word of command as mechanically as a saw cuts timber-these are not to be lightly spoken of. Above all, his uncounted millions of hoarded gold are appalling. Give the Hungarians these, and they will waste away his armies; but destitute

INFLUENZA AND, CONSUMPTION. It is indeed a melancholy truth that thousands fall victims to consumption every year from no other cause than neglected colds; yet we find hundreds, nay, thousands, who treat such complaints with the greatest indifference, and let them run on sworn to uphold her independence and ad-minister her laws. Colton's Premium Bee Hive.

On an entirely New Plan. THIS Hive is decided to be the best Hive in and by those who have used it, and by the mast experienced bee-keepers. It has three protections against the bee moth -- lat the bottom is iron, so that the egg will not hatch under it. 2d, it is so constructed that the worm cannot drawl above the bottom box, if the egg should hatch. 3d, the room can be increased or diminished, by removing the drawers arranged inor the sides and turning the bees in upon the centre, sufficient to keep the comb covered with the bees all through the senson, and the bees will protect the comb from the niller. This Five can be used for a swarming or a new

swarming Hive. It is perfectly simple in its construction, and gives the bees ample room for all to work at the same time, so that they will never hay out on the swarming Hive.

outside of the hive. The bees will increase one third more in this than in the other kinds, and make twice the amount of honest

of honey. The old comb can be removed at any time with safety, by taking out the separate drawers of box-es in which it is contained, without distuiting the

work of the bees below. The subscribers having purchased the right for this valuable improvement for Susquehauna county, offer for sale individual and township rights. model of this truly ingenious contrivance may be seen at the store of J. All eves turn, therefore, to FRANCE, as the sheet-anchor of the liberties of the world .----And nobly have her gallant people responded to the mute appeal. The taunt that she is a Republic without Republicaira' falls to public sale at the Court House in Montrose, on pointless. In spite of lamentable popular gnorance and distraction-in spite of all the appliances of corrupt and unworthy fulers-her elections show that the popular pulse beats high with love of Liberty. The returns astound all parties and electrify all who struggle and hope for a better order of things. Two HUNDAED AND FORTY Deputies have been returned by the Socialist Democracyby the party whose Republicanism no man will dispute. They may not be the ruling but they will be the leading party in the new Assembly. They may not form a Ministry, but they will seal the doom of that along said Pickering's land to a piece of land onwhich sent Oudinot on his shameful errand to Rome.
