Smoking with Sulphur.

Figland, the fumigation of plants with phur to destroy plant lice, aphides, the ip fly, insects on trees, where the top ild be covered or exposed to the suffocating. mes, has been for some time practised with reat success. To most animals and insects fumes of sulphur are almost instantly The rationale appears to be this:is smoke of sulphur immediately combines ith water when brought in contact with it; nd in this way by combining the smoke of phur, in leaden chambers, with water that ers the floor, and is frequently agitated, sulphuric acid of commerce is formed,is, when the fumes of sulphur are brought o contact with the moist surface of the gs, or breathing vessels of animals or ins sulphurous acid is usually generated, grave. d the lungs refusing to act under such cir mistances, suffocation is produced. Of this y one can easily satisfy himself by experi-

Taking the hint from these facts, it wa osed to attempt the sufficiation or des tion of the wheat fly or grain worm by migation on its first appearance, and we happy to learn it has been tried the sent season with entire success. It is ed in the Amsterdam paper, (a journal the Mohawk, Montgomery county,) that armer in Herkimer has preserved a large eat crop from the worm the past season using brimstone in fumigation liberally, hile all around him, who did not adopt is preventive, had their crops seriously inred or destroyed. The brimstone was pared by melting, and in this strips of woollen cloth were dipped. These fixed sticks, and fixed in different parts of the , were set on fire, generally at evening. he matches were given in the greatest num rs to the windward side of the fields, and offensive and destructive smoke of course iven over every part, droving fatal to the seets that inhale the gas. About one hund pounds of brimstone were used to one indired bushels of sowing, and the presertion was complete; thus proving, in this tance at least a remedy equally cheap and ficacious.-Genesee Farmer.

EABLY-SOWN RYE may be fed with sheep calves during the month of November th great benefit to the stock, and, if the with is large with decided benefit to the op, as a large quantity of herbage, lying the ground in the winter, renders the op liable to be," smothered," as it is called pecially if it is covered long-with snow. injury results from feeding rye with sheep light cattle, any time in winter. except hen the ground is so soft that it would be poaching," and the roots of the rve be broen ; and there is no food better for such anials. We have often seen a young calf or imb so inproved by grazing on rye, late in he fall and early in the winter, that they ot only held their own when returned with he rest, but took the lead in thrift and rowth. Rye is frequently for the purpose being fed by stock, in the southern part f Ohio and in Kentucky. 1t is also the est crop for early soiling. It starts early nd may be cut several times before any arti-

le is far enough advanced for the purpose

placed upon them to distinguish one from the other. The man, in an agony of grief, started in pursuit of the conveyance, and accompanied it to Potter's Field, when he pleaded so hard to be permitted to look once more upon the face of his wife, that permission was given, and the coffins were opened. When the body of the woman was exposed, he seized it frantically in his arms and pressed it fondly to his bosom. For a moment he fancied he felt the beating of her heart

and seizing her wrist, he exclaimed. "My God, 'she lives!" At that moment the wo-man opened her eyes and recognized her husband; she was conveyed home, and is now quite recovered. If this be true-and our informant affirms that it is-what a frightful reflection it conjures up, that perhaps others, bearing only the semblance of death have been prematurely hurried to the

KEEP IT BEFORE THE PEOPLE .- The Mont gomery Ledger takes strong grounds in favor of publishing, at the expense of the State in every newspaper, all laws passed by the Legislature, of a public nature. Such a course, the Germantown Telegraph thinks, would not cost the people one-tenth as much as the present system in paying lawyer, court charges, &c. The people are bound to know the laws that are yearly passed by their legislators-at least so long as the old maxim, "Ignorance of the Law excuseth no man," prevails. If the Press acts on this matter unitedly, as it deserves, we shall have the necessary bill passed by the next Legislature.

GREAT BRITAIN AS A WHEAT MARKET .-A simple fact confounds, very often a vast deal of theory, however cunningly and plausibly set forth; and it may surprise some of the free traders in this country to know that, on the 2d instant, the Chancellor of the British Exchequer stated, in his place in the House of Commons, that, of the nearly 14,-000,000 bushels of wheat imported during the previous eleven months, 4.320,000 buhels came from France, 4,410,000 bushels from Prussia, Holland and Belgium, and only 5,625,000 bushels from the United States.

New Daily Line of Stages.

and the second state of a second diversion

Between Montrose and Great Bend. FOUR horse stage will leave Montrose every

A morning, (Sundays excepted) for Great Bend arriving in time to take the railroad cars, and enabling passengers to reach New York the same eve-Returning, leave Great Bend on the arrival of

the cars from New York.

Careful and accommodating drivers and first rate teams are employed on this route-and the propri-etors pledge themselves to use every exertion to make their line pleasant and expeditious.

For sents apply at Searle's Hotel, in Montrose. A. MORGAN & CO. j29

Village Lots for Sale.

T HE subscriber offers lots for sale in the town-ship of Great Bend in the village of Green rille; and directly opposite the village of Great Bend, located on the Depot of the New York and Erie railroad, and the Great Bend and Cochecton Turnpike, in the valley of the Susquehanna river. The railroad crossing the said turnpike, thence run-ning in a curved line nearly parafiel with the same grounds gradually rising above failroad and turnpike overlooking the river and the beautiful val-ley, compared with its healthy climate, renders it a most desirable location for building purposes.— The depot ground of the railroad company being located in the centre of a rich and extensive agri-cultural district, surrounding, it or every side with

ges combined, afford every advantage to a business population. An Extensive Water Power can be brought from the Susquehanna river, ad-joining the depot grounds of the said rail road, sufficient for the erection of all manufacturing estab-

lishments, or any machinery required. Great Bend, 52yl L L. GREEN

N. Y. & E. Railroad Freight Line. Stephens and Thompson's Forengeding Line from Great Bend—Capt. J. W. Thompson.

S TEPHENS & THOMPSON will forward freight from Great Bend to New York by Railroad every.

Tuesday and Thursday

by the regular freight line which leaves Great Bond every morning at 8 o'clock and 30 minutes. George W. Stephens will remain at Great Bend und forward all produce entrusted to this Company and pay the returns for the same at the railroad office. Capt. J. W. Thompson will remain in New York and give his personal attention to the salesand make returns as soon as the produce is disposed of. This company flatter themselves by having a salesman in New York who has been in the frieghting business for a number of years from Crange county, that they can give as good satisfac-tion as any on the railroad. `A liberal advance.will be made on freight delivered at the depot if desi-red GEO. W. STEPHENS, Great Bend, J. W. THOMPSON, New York,

New Hat and Cap Store.

THE citizens of Montrose and vicinity are respectfully informed that the subscribers have ced the manufacture of Hats and Caps, two doors below the Farmer's Store, where they keep constantly on hand and for sale a general assort ment of Hais and Caps of every variety and price. All who wish to purchase a first rate article in our fine, are particularly invited to give us a call before purchasing elsewhere. Our stock consists of Beaver, Nutria, Brush, Moleskin, Slik, Muskrat and Coney Hats; also, California, Sporting, Wool, Leg-horn, Straw and Palmleaf Hats, icc. dc., besides a great variety of Men and Boys' Cloth and Glazed Caps, children fancy do, we det in short, a large

assortment of almost every article in our line. By a sirict attention to business and a desire to please, we hope to merit and receive a liberal support and assure those in want of Hats and Caps that every effort will be made to get up the neat-

est and best kind of an article. May 1, 1849. ELDRED & NEWCOMB.

Gold this side of California! TO BE SAVED BY TRADING CHEAP.

Grocery, Confectionary and Oyster Saloon, THE railroad being completed, I now have, and keep a general assortment of groceries cheap -such as sugars, molasses, rice, coffee and tens, of prices and quality such as will please. Also, nuts, raisins, candy and all kinds of fruit the market can furnish my buyers to suit. Also, fresh clams and ovsters received in the shell, fresh fish too, this weather-they keep very well-I shall get by the railroad a weekly supply—to please all my custo-mers' tastes I shall try. Good ovsters on hand, by the keg or the dish—served up either raw or cookded, as you wish. All needed refreshments prepa-red at a wink—call in, all ve hungry, and plank down the *chink*. WM. F. BRADLEY. Great Bend, Feb. 13.

Les Eventraopy Read This. Constructive There is a Saraparilla for sale in the different towns called S. P. Townsend's Suraparilla. It is advertised as the ORIGI-NAL, GENUINE, and all that "This Townse called S. P. Townsend's Suraparilla. It is advertised as the ORIGI-NAL, GENUINE, and all that "This Townse called S. P. Townsend's Suraparilla. It is advertised as the ORIGI-NAL, GENUINE, and all that "This Townse called S. P. and percy was; but was formosily a worker on railroads, ca-mals, and the like-yet he assures the little of Doctor for the purpose, of gaining crédit for what he isnot. He says "the has attended two medical schools, and practiced for fifteen years !!" Now the truth is. An over practiced medicine a day in his life! Such worked in srepresentation looks bail to the character and veracity of the man. I wish most sincerely, the had never made those statements of him-self or of me. When will men learn to be hottest and truth-ful'in all their dealings and intercourse with their fellow men ! He applied to one Ruel Clap to assist him in man-ifacturing his mixture, stating the large sums he would make, as an inducement to embark in the beines. These men have been insulting and libelling me in, all possible form, in order to impress the public with the belief that the Old Doctor's Sarsaparilla was not he genuine, original Sursoprilla, made from the Old Doctor's Original Reci-pic. This S. P. Townsond says I have sold the use of my name for 67 a week. I will give him sciol' if he will pro-duce one single solitary proof of thi. His statements of falsehoods, simply made to deceive the public, and keep the truth down in regard to his sourchas, fermaning com-pound. This is to caution the public to purchase none but Old Doctor's likeness, his faringly Oral of Arms, and his signatureacross the Coat of Arms. Principal Office, 102 Nassent streed N. Y. City.

Old Dr. Jacob Townsend, THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla. Cremultine Townsend sparsaparilita. Old Dr. Townsend is now about 30 perso furce, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL. "TOWNSEND SARSAPARILLA" Being poor, he was compelied to limit us manufacture, by which means it has been kept out of market, and the seles circlumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertholess, as these persons who had been healed of sore diseases, and asyed from death, pro c-asmed its worderful LEE ALINC DOWNED

HEALING POWER.

This GRAND AND UNEQUALLED PREPARATION I

HEALING POWER. This GRAND AND UNEQUALLED PREPARATICN is manufactured on the largest scale, and is called for through-out the length and breadth's of the light capacity as it in found incapable of degeneration or deterioration. Unlike young: S. P. Townsend's, it improves with age and never changes but for 'hs better: because it is prepared on scientific principles by a cientific man. The highest knowledge of Chemistry, and the taskst discoveries of the art, have all theen brought into requirition in the manufac-ture of the Old D's Saraparilla. The Europarilla root, it is well known to medical mon, contains many medicinal properties, and some properties which are increased to useless, and others, which if rotained in preparing it for useless, and others, which if rotained in preparing it to use pro-tive of the Old D's Saraparilla to the the preparation. If they are not preserved by a scientific process, known on-by to those experiment in its manufacture. Moreover, house experiments of its manufacture. Moreover, how entirely evaporate and are his value. Any person can boil or stew the rot till they greet a dark colored light, which its nor from the coloring matter in the root than from anything else; they can thea strain this misind or vapid liquid, sweeten with some molasses, and then call it "SARSAPARILLA EXTRACT or SYRUP." Rut such is not the article known as the GENUINE OLD DP JACOB TOWNSEND'S 1.1 SARSAPARILLA. This is so prepared that all the isert properties of the Sarsharilla root are first framoved, very thing caysble of becoming acid or formenation is securited and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is renieted incapable of losing any off its valuela and healing properties. Pre-pared it mis may reis manuela chemical biols on every dive womens in the euror of CONNELMENT OF THES BLOOD. Crockery and Glass.

asparent vessel, with the eternal air exclued than when exposed to its influence.---Mr. Leeds, druggist, corner of Atlantic and Jourt Streets, Brooklyn, has a monthly rose i a large glass jar, planted in the usual soil This jar is hremetrically sealed, and yet the plant has flourished, its leaves being of a healthy green; and it grows faster and bloscoms earlier, than any similar plant exposed to the atmosphere. It has been kept more han two vears in this state, having been opened only twice to clean out the grass, which grows, also more rapidly than from the pots exposed.-Mr. Patridge.

TDEAD ANIMALS .- All animals which die on a farm should be covered with mold or earth of any kind. Each dead horse or any animal thus treated, would throw out gas enough to impregnate five loads of earth with its fertilizing properties, To promote the speedy decomposition of animal bodies, s few, bushels of lime should be thrown on them previous to being covered with earth or mold. After the decomposition of the flesh, the bones should be broken up and placed in the soil, where they prove an efficient and lasting munure.

KINDS OF FRUIT FOR CULTIVATION .--- We advise our friends to try their orchards with a variety of fruit trees, whether of apple pear, or peaches, and after determining which are best adapted to the soil, let those of the best quality that are found suitable to the exclusion of the others. There is a wide difference in the production of different trees, and it is in the nice adaptation of each to its most suitable locality, the profit of fruit-growing will be found to consist.

STARTLING RESUMPECTION !- The N.Y. Mirror relates the followng instance of a wernan prematurely hurried to the grave some time since under the impression that the had died of cholers, and rescued by her husband. Who can tell how many have this been burried alive and left to die without a discovery of the revolting fact A poor man, residing in the upper part of the city left home at the usual hour some days since, to preform his daily labor ; and on returning in the afternoon, found that his with had been seized with cholera during the forenoon and conveyed to the Hospital in 13th street. He immediately want there and as he entered the place, 9 coffins were carried out to be conveyed to Potter's Field. The poor man proceeded to the room and enquired for his wife, when he was told that she was dead, and that one of the col-

will receive prompt attention. Our changes over the regular freight will be a small commission. L. O. TIFFANY. Montrose, May 9, 49 WALTER FOLLET.

CANDLES at 14 cants per pound for sale by J. LYONS.

It works wonders in cases of Filor Albus at Whites, Palling's the Wond, Obstructed, Stepfressed, or Painful Mensed, Dirightarity of the menstrum periods, and the like; and is effectual in curing all the forms of Kidney Disauers. By removing obstructions, and "reutating the general vestimation of the structure and the state of the sector vestimation of the structure of the structure of the state vestimation of the structure of the structure of the state vestimation of the structure of the structure of the struc-and the prevents or releves a great variety of other mal-adres, as Spinal irritation, Neuration, St. Vitus Dance, Swooning, Epuleptic Fils, Camulakans, fc. It cleaness the blood, excites the fiver to be the stomach, and gives good digestion, relieves the bowels of torpor and constitution, allays inflammation, pu-rifies the stomach, and gives good digestion, relieves the bowels of torpor and constitution of the blood, pro-ducing gentle warmth equally all over the bood, and the meansable perspirations, relaves stridures and the interner system. Is and these things be raid of S. P. Townsend's inferior article 1. This your pre-ominently need f But can any of these things be raid of S. P. Townsend's inferior article 1. This your grading the curit of S. COMPARED WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAFA.

inlettor article 3 This young man's liquid is not to be COMPARED WITH THE OLD DR'S, because of one GRAND FACT, that the one-is INCAPA-BLE of DETERIORATION, and NEVER SPOILS, while the other DOES: souring, fermenting, and blowing the bottles containing it, into frequential, and blowing the bottles contained by poisson use and discover which when food sours in our stourchs, what mischief it, produces 1-faruilenes, hearthum, palpitation of the heart, liver com-plaint, diarthes, dysentery, colic, hash corruption, of the blood. What is Storbing under, hearch liver com-plaint, source all the humins which bring on Eruptions of the Skin, Scald Head, Stit Hheum, Erreptets, White Swellings, Fever Sores, and all ulcerations internal and ex-ternally. It is nothing under, heaven hut an acid substance, which haven read thus spoits all the fullias of the body, more or less. - What causes the heaven internal and ele-which hich invinues theel between the igints and else when in a so of nervous discases, of impurity of the blood, of derariged circulation, and nearly all the allments which hillet horman nature. "Now is it not horrible, to make and solt, and infinitely, worse to use this SOURING, FERMENTING, ACID, "COMPOUND" OF

Now 15 it not notrible to make and soil, and infinitely, icorse to use this SOURING, FEILMENTING, ACID * COMPOUND" OF 5 S. P. TOWNSEND, and, yei he would fain have it understood that old Dr. Ja-cob Thunsend's Genuine Original Screepartila, is an IM-ITATION of his haterior preparailed 11 Heaven forbil that we should deat in an while which would bear the most distant resemblance to S. P. Town-send's article 11 We wish it understool, because it is the absolute truth.

scaling article " We wish it understoot, because it is the absolute truth, that S.P. Townsend's article and old Dr. Jacob Townsend's Sansaharilla are keaven wide apart, and infinitely dustin-flar; that they are unlike in overy particular, having not

Satisaharilla arb keaten tride opart, and infinitely dissim-itar; that they into unlike in overy particular, having not one single thing in common. As S. P. Townsend is no dector and never was, is no chemic, an opharmaceutist-knows ho more of medicine or discase than any other common, unclendlic, anprofessional ma, what supermice can the public have that they are re-ceiving a genome scientific medicine, containing all the vir-tures of the articles used in preparing it, and which are in-capable of changes which might render, them the AGENTS of Disease instand of health? But what else should be expected from one who knows pothing complicatively of medicine or disease 1. It requires a person of some experience to code and serve up server, a common decent medic. How much more important is it that the persons who manufacture medicine designed for WEAK STOMACHS AND ENTREELED STREELS should know well the medical prophytics of plants, the best maner of securing and concentrating their healing withins also an extensive knowledge of the various diseases which affect into human system, and how to adapt remedies to these diseases!

JACUB TOWNSEND has SOUGHA and routers of pertonity and means to bring his i head of the Grand, Universal Conscentrated Remedy wishin the reach, and to the knowledge of all who need it that they may learn and knows by popular water see in the they may learn and knows by popular to Heads ABEL TURRELL, Agent Sy, Susquehanna Co
