FARMERS' DEPARTMENT.

From Mapes' American Farmer. Good News for Agriculturists.

Since writing our article on the Home de rtment of our Government, lately estabshed at Washington, and after it was in Pe, we learned from a friend just returned m Washington that the President had exressed similar views to those set forth in that article. Should this Department associate will it a bureau on agriculture, we may hope that the best interests of a majority of our tizens may at least receive a passing notice from the legislative councils of the nation .--May we not hope that such a bureau would angreat to Congress that premiums should implements-that lectures should be delivered on agriculture and its importance, duing the sessions of Congress, in the Smithnian Institute-that premiums should be mered for the best essays on agriculturethat our foreign consuls should be instructed make arrangements for international ex- produces from \$500 to \$750 worth of apples anges of seeds, grafts, &c. de_-that pubformation-that a portion of the public ands should be given to each of the States. ected with agriculture, which might be colated by the Home Department. With uch a source for the dissemination of useful icts, we should cease to hear of the perpetation of stupid errors in culture, prostrating nation's strength, and rendering half the

alueless. We understand that General Taylor is ashington, which have escaped after legistion, at least considered, if not 'adopted ; iould wish to see this Home Department irried to its legitimate use.

tion of improved farms for the supply of improvement. arkets of our Pacific States.

Pure Water the best for Drink.

There is no axiom of health more just in that "men never have a true appetite they eat with relish any ordinary food." is told of John Bailes, who lived to the is some hundred and twenty eight, that boys employed in making shoes, 2,458; of food for the most part consisted of brown cad and cheese, and his drink water and ilk. He had buried the town of Northipton twenty times over, excepting three four; and it is said strong drink killed em all, Water manifestly is the natural verage of all animals; whole nations, as Mahometans and the Hindoos, use it ne as a beverage; and unlike other drink. will not sate the appetite, but the contrary; need it was observed by Hippocrates, above been correspondingly great. But it should generally keen appetites. It is a fluid at requires no digestion, for it is not necesy that it should undergo any changes; it the natural menstrum that holds in solun both what is essential for the healthy ictions of the body, and what has become efuse, after serving its destined office and ention in the animal kingdom. Water refore, from its congenial qualities, can Fver much disturb the system ; and when it it is speedily expelled by its natural lets the skin and kidneys. It is told of rd Heathfield, so well known for his hardy its of discipling and watchfulness, that food was vegetables and his drink water, er indulging himself in animal food or And Sir John Sinclair in his work t she preferred water to any other drink. MPROVEMENT IN MAKING FLOUR .-- Mr. Bonall, of Tecumsel, Michigan, has ntly made an improvement in the proof manufacturing Flour, which is claimed be valuable. The Indiana State Journal dishes the following extracts from a letter tten by Mr. B. in reply to inquiries made him in reference to the inprovement: ty "improved process of milling" concists separating the starch part of the wheat the glutinous matter, and submitting un from 300 to 400 revolutions per minn and perfect by a very simple combinaof machinerv. After the "offal" is thus ground or severescoured, it is then passed into the lower a: or dusters, when the flour is taken out superfine flour, and the remainder sep-

About Orchards. MANAGEMENT OF YOUNG APPLE ORCH-

ARDS.-The following mode of treatment of a young apple orchard, transplanted in the spring of 1848, by which all lived and made vigorous growth, has been furnished by TALCOTT, of Rome, N. Y.

Last year the ground was planted with potatoes; in the fail, after the crop was off, had a heavy top dressing of horse manure drawn from the village and plowed under. The trees were earthed up to protect them from mice. This spring, the ground was cross ployed, and it is now sown to carrots. parsnips, onions, and some beans planted among them; the ground has been forked around the trees for a circle of about five feet. They are making a fine growth. The stems have been washed with diluted soft soap.

A PROFITABLE ORCHARD.—The American Agriculturist says; "A gentleman within our knowledge has a small orchard on the Hudson river, of less than seven acres which annually. This is not one year of plenty, c fairs should be held annually, at or near | and another or two of famine, but is a regue seat of Government, for the purpose of lar, stendy, average yield. All this is secured mulation and interchange of agricultural by the simplest process, viz : good management."

ANOTHER.-An old orchard of four acres or the purpose of establishing an agricultu- had not been plowed for nearly thirty years, al college and experimental farm-that seeds | and was regarded by the neighbors as worthnd scions should be sent by mail at news- less. It did not yield more than eight baraper postage-and finally that liberal appro- rels a year. It was well plowed, and thorflations be made for publishing facts con- oughly manured for three successive years, and cultivated with crops. - It then produced two hundred and eighty barrels af apples.

Planting Chesnuts.

At a late Farmers' meeting in New York, Mr. BICE, speaking of planting for Chesnut essings showered upon us by Providence timber remarked, that he plowed up a tract of unproductive hill-side, several years ago, and planted it with chesnuts, in rows four **nxious to have all the recommendations of feet apart every way.** The first sprouts coming up rather crooked and scrubby, he went over the field and cut them down close nd therefore we are not surprised that he to the ground, which caused new sprouts to shoot up straight and vigorous. The trees are very thrifty, completely shade the Had agriculture received the attention it ground, and grow more and more rapidly as served since the days of Washington, and the soil becomes strengthened by the annual en fostered as recommended by him, we deposit of leaves. So well satisfied is he uld now have welcomed strangers to our with the experiment, that he is now placing estern shores, to have assisted in the culti- other worthless lands in a similar course of

Shoe Business in Lynn Mass.

The shoel business is the life of Lynn .---Only women's, misses', and children's shoes are made here. Engaged in the business there are of manufacturers, or men who "carry on the business" 78; cutters, or men Lever and Lepine Watches, Quartiers, dc., from 7 who "cut out" the shoes. 175; of men and to 80 dollars, silver Table and Tea Spoons, Gold who "cut out" the shoes, 175; of men and men and boys so employed, but living out of town, DOO; women and girls employed n binding shoes, 4,925; of the same so employed and living out of town, 1600; making of employees an aggregate of 10.058. The number of men and boys employed in making shoes is more than seventy per cent larger now than it was in 1842. The increase in the number of women and girls employed in binding shoes has, we presume o thousand years ago, that water-drinkers be stated that the shoe business in 1842 was unusually depressed : that much less of it was done during last, than will probably be done during the present year. The number of pairs of shoes made during the last year was 3,199,000; the number purchased from other towns 350,000, making in all 3,540,000 pairs. The cost of the material of these was \$1,435,545; that of making them \$957,030; making the cost of the 3,54,000 pairs of shoes to have been \$2302, 575. The cost of making shoes is now about one-sixth less than it was a dozen years ago.-Lynn Examiner.

New Goods ABEL TURRELL HAS just returned from the city of New York with a well-selected and desirable assortment of Goods, comprising a greater variety than is usuor cooas, comprising a greater variety than is usu-ally kept in a country store, bought exclusively for caste down at the *lowest rates*, for the quality of goods, and will be sold as *cherp* as the *cheapest*. The best quality of Sugar at 6 d. per pound to be found in Susquehanna county. Fine flavored

Tens, a good variety. Molasses, good and cheap. Coffee of the best kind. Spices of every descrip-tion. Saleratus, Raisins, Rice, Fish, and all other kinds of Groceries, good and cheap. Crockery and Glass.

TE have received a large addition to our stock of Crockery and Glass Ware, which will be sold at extremely low prices many articles same as New York whole ale process, and some even less. A large lot of Printed covered Dishes at 44 cents

Village Lots for Sale. THE subscriber offers lots for sale in the town-chip of Great Bend in the village of Grean-

ville, and directly opposite the village of Great Bend, located on the Depot of the New York and Erie milroad, and the Great Bend and Cochecton Turnpike, in the valley of the Susquelianna river. The railroad crossing the said turnpike, thence running in a curved line nearly parallel with the same at the distance of a few hundred feet, with the grounds gradually rising above railroad and turnpike, overlooking the river and the beautiful valpike, overlooking the river and the occurrent val-ley, compared with its healthy climate, renders it a most desirable location for building purposes.— The depot ground of the railroad company being located in the centre of a rich and extensive agriges combined, afford every advantage to a business An Extensive Water Power

lishments, or any machinery required. L GREEN. Great Bend, 52yl

N. Y. & E. Railroad Freight Line. Stephens and Thompson's Forwarding Line from Great Bend-Capt. J. W. Thompson

STEPHENS & THOMPSON will forward freight from Great Bend to New York by Railroad every Tuesday and Thursday

by the regular freight lino which leaves Great Bend every morning at 8 o'clock and 30 minutes: George W. Stephens will remain at Great Bend and forward all produce entrusted to this Company and pay the returns for the same at the railroad office. Capt. J. W. Thompson will remain in New York and give his personal attention to the sales and make returns as soon as the produce is dispo-sed of. This company flatter themselves by hav-ing a salesman in New York who has been in the frieghting business for a number of years from Or-ange county, that they can give as good satisfac-tion as any on the railroad. A liberal advance will be made on freight delivered at the depot if desi-GEO, W. STEPHENS, Great Bend,

Continue Townsend Sarsaparina. Old Dr. Townsend is now about 30 years of as, and has long been known as the AUTHOR and DISCOVERER. of the GENUINE ORIGINAL "TOWNSEND SARSAPARILLA" Being poor, he was compelled to tunit its manufacture, by which means it has been kept out, of market, and the sales circumserfield to those longly who had proved its worth, and known its value. It had reached the ears of many, novertheless, as those persons who had been haded of sore diseases, and saved from death, trov c and dis wonderful HEALING POWER. J. W. THOMPSON, New York. Great Bend, a3 .

New Hat and Cap Store.

THE citizens of Montrose and vicinity are re-spectfully informed that the subscribers have commenced the manufacture of Mats and Caps, two doors below the Farmer's Store, where they keep constantly on hand and for sale a general assort ment of Hats and Caps of every variety and price. All who wish to purchase a first rate article in our fine, are particularly invited to give us a call before purchasing elsewhere. Our stock consists of Bea-ver, Nutria, Brush, Moleskin, Silk, Muskrat and Coney Hats; also, California, Sporting, Wool, Leg-horn, Straw and Palmless Hats, ac. de., besides a

red.

great variety of Men and Boys' Cloth and Glazed ort, and assure those in want of Hats and Caps that every effort will be made to get up the neatest and best kind of an article.

c aimed its wonderful HEALING POWER. This GRANDIAND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for through-out the length and breadth of the land, especially as it is found incapatile of degeneration or deteritoration. Unlike young S. P. Townsend's, it improves with age, and never changes but for 'the better because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the intext discoveries of the arr, have all been brought into requisition in the manufac-ture of the Old Dr's Sarsaparilla. The Sarsaparilla root, ure of the Old Dr's Sarsaparilla or the science of the properties, which if retained in preparalla group, and others, which if retained in preparalla group, pre-duce fermentations and accd, which is injurious to the sys-tem. Sorme of file properties of Sarsaparilla group, ro-duce fermentations and area, which is injurious to the sys-tem. Some of the properties of Sarsaparilla group, ro-duce fermentations and area, which is injurious to the sys-tem on of the properties of Sarsaparilla group rolations, if they are notpriserved by Rescentific process, known on-ly to those experienced in its manufacture. Moreover, these rolatile principles, which its of its value. Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from anything cles; they can then strain this insipid or vapid liquid, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or STRUP." But such is not the article known as the. CENTINE OF DUP LAGOR TOWNSEND'S May 1, 1849. ELDRED & NEWCOMB. Sold this side of California!

TO BE SAVED BY TRADING CHEAP. Grocery, Confectionary and Quster Saloon.

But such is not the article known as the. GENUINE OLD DR JACOB TOWNSEND'S GENUINE OLD DR JACOB TOWNSEND'S BARSAPARILLA. This is opprepared, that all the ident properties of the Sarsaparilla root are first removed, everything capable of becoming acid or fermentation is extracted and rejected; then every particle of medical virtud is secured in a pure and concentrated form; and thus it is rendered incapable of losing iny of its valuable and heading properties. Pre-pared in this way, it is made the most powerful agent in the **Cure of innumerable Discases** Hence, the reason will we hear commendations on every ride in its favor by men, women, and ichildren. We find it CONSUMPTION, DYSPEPSIA, and LITER-CONSUMPTION, DYSPEPSIA, and LITER-CONSUMPTION, PISPEPSIA, and LITER-CONSUMPTION, PISPEPSIA, and CUTANE-ULA, PILES, COSTIVENESS, all CUTANE-OUS ERUPTIONS, PIMPLES, BLOTCHES and all adjections arising from 'HE railroad being completed I now have, and keep a general assertment of grocerics cheap -such as sugars, molasses, rice, doffee and teas, o prices and quality such as will please. Also, nuts, raisins, candy and all kinds of fruit the market can furnish my buyers to suit. Also, fresh clams and oysters received in the shell, fresh fish too, this weather-they keep very well-I shall get by the ful and ornamental articles, which will be sold very for and end small profits is my motto. cd, as you wish. All needed refreshments prepa-red at a wink—call in, all ye hupsry, and plank down the *chink*. WM.F. BRADLEY. IMPURITY OF THE BLOOD.

Freight and Comission Line. Via. New York and Eric Rail Road. NAPT. L.O. Tiffany and Walter Follet have

C formed a partnership for the transportation of freight and produce of all kinds, between Great Bend and New York by the Railroad, by the regular Freight line, which leaves Great Bond every morning at 81 o'clock.

inferior article 1 This young man's liquid is not to be COMPARED WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAPA-BLE of DETERIORATION, and NEVER SPOILS, while the other DOES: souring, fermienting, and blowing the bottles containing it into fragments : the sour, acid liquid explosing; and damaging other goods! Must not this horrible compound be poisonous to the system 1--What! put acid into a system alrady diseased with acid 1 What causes Dyspepsia but acid 1. Do wo not all know that when-food sours in our stomachs, what mischief it produces 1-flatutence, heartburt, pulpitation of the heart, liver, com-plaint, diarrhea, dyscatery, colic, and corruption of, the blood 1 What is Scoluta but an acid humor in the body 7 What produces all the humors which bring on Eruptions of the Swellings, Fever, Sores, and all ulcerations internal and ex-ternal 7 It is nothing under heaven but an acid substance, which tours, and this spoils all the fluids of the body, more or less. What quies Rheumanism, but a, sour and acid fluid which insting and inflaming the delicate tissues upon which actor? So for revous diseased of imporing of funder, more or less. What quies of nervous diseased of imporing of which insting and inflaming the delicate tissues upon which and So of nervous diseased of imporing of which and the tradition, and nearly all the ailments which astifts of nervous diseased of imporing of which and the provide the make and sell, and infinitely worse to use this SOURING, FEILMENTING, ACID "COMPOUND". OP Captain Tiffany, who has been for a number of years engaged in the purchase and sale of produce in the New York markets, will remain in New York and give his personal attention to the disposal of all property committed to our care, and make returns as soon as the property is disposed of. Mr. Follet will be at Montrose and Great Bend

alternately. Orders for the transportation of Freight, may be sent to him at either place, and will receive prompt attention. Our charges over the regular freight will be a small commission. Montrose, May 9, '49. L. O. TIFFANY. WALTER FOLLET.

L sive stock of Groceries,

blood, of deranged circulation, and nearly all the allments which afficit humaniature. Now is it not horrible to make and sell, and infinitely worze to use this SOURING. FEILMENTING, ACID "COMPOUND". OP S P TOWNSEND and yet he would fair have it understood that Old Dr. Ja-cob Townsend's Genuine Original Satesparilla, is an IM-ITATION of his inferior preparation 1 Heaven forbid that we should deal in an article which would hear the most distint resemblance to S. P. Town-end's article? We wish it understood, because it is the absolute Iraik, that S. P. Townsend's article and old Dr. Jacob Townsend's article? We wish it understood, because it is the absolute Iraik, that S. P. Townsend's article and old Dr. Jacob Townsend's sarsparilla are hearen-tritle apart, and infinitely dissim-itar; that they are unlike in every particular, having not one single thing in common. As S. P. Townsend is no doctor, and never was it no chemist, no pharimetrist-knows no more of medicated discuss than any other common, unscientific, unprofessional man, what guarantee time hubble heave that they are ye-ceiving a genuine scientific medicine, containing all the vir-tues of the articles used in preparing it and which are in-capable of changes which might render them the AGENTS of Discass instead of health ? Hut what elsa achould be depocted from one who knows nothing geomparatively of medicine or discase 3- it requires a person of some experiment to cook ad a evre up are yet also an extensive knowledge of the various discasses which affect the human system, and how to dath of trendles to these discases? It is to arrest fraude upon the unfortunate, to pour best intowounded hymnity, to kindle hope in the despiring bosom, to restore health, and bloom, and vigor for the erreshed and broken, and to bank infirmity that JLD DR. JACOB TOWNSEND has SOUGHT and TOUND Hes se-portunity and means to bring his Grassit University is SOUGHT and TOUND Hes se-portunity and means to bring his Grassit University is SOUGHT and TOUND Hes se-portunity nsisting of Teas, Sugars, Molasses, Coffee, Tobacco, Rice, Ground Spices and Pepper, Starch, Cloves, Saleratus, Ginger, Nutmegs, Indigo, Cigars, Choco-late, Sperm and tallow Candles, Codfish, Mackerel by the barrel, half and quarter barrel and kits, Herring by the box, Raisins by the box or pound, Salt by the sack or barrel, Clocks, stone Ware, Willow Ware, Flour, Pork, dc. dc. kc.
