

**Arrival of the Niagara.**  
**Two Weeks Later from Europe.**

The steamship Niagara reached Boston at 3 o'clock Thursday afternoon, and we received the following additional intelligence:  
France.

An aide-camp of General Berengery De Hilliers has just reached Paris with important dispatches, the nature of which has in part transpired. It would seem that there is little likelihood of an understanding being come to between the gallant general and the government of the Cardinals, owing to the manifest jealousy of French influence entertained by the latter. While the Cardinals are for placing the Pope under the protection of a mixed garrison of Austrians and Italians, Gen. de Hilliers insists upon leaving a French force of 12,000 men in the city of Rome. This proposition has been met by the Cardinals with a decided refusal and affairs are as far as ever from being arranged.

The French funds continue to rise. The Five per Cents have reached 94.55.

**Austria.**  
The Breslau Gazette of the 6th. says that the public mind in Vienna is much taken up with reports of a coup d'etat - reports which are even current in military circles. The day named for putting it into effect was the 6th or 7th instant. The military measures are really formidable. Within a circle of six miles around Vienna, the houses are full of soldiers. There are at least 50,000 men in Vienna, and 50,000 more could be poured in by the rail-ways in the course of three or four days.

The reply of the Austrian Cabinet to a note from Prussia on the subject of the Erfurt assembly is as follows:—The Austrian Cabinet is very sorry to find that its former communication, instead of producing the desired effect upon Prussia, has elicited replies which, though evasive, are full of significance. In its former remonstrances, the Austrian Cabinet fully stated its view of the question and of the consequences of the step which Prussia was taking. Since these remonstrances were unheeded Austria will not condescend to wage a war of words with the Prussian Cabinet, but reserving all other objections, protests and rights till a further opportunity, she wishes to be understood that she is not to be construed into an acquiescence with the Prussian project nor with a dereliction of her rights.

General Count Wilma who commanded the imperialists when they were defeated at Raab by the Hungarians has committed suicide at Verona.

The typhus fever was raging fearfully at Verona on the 20th ult. No less than thirty medical men had been seized with it from visiting their patients.

**Prussia.**  
BERLIN, Jan. 7.—It is understood that the ministerial crisis was over, and that on this day the Chambers would receive a royal message proposing the oath to be taken to the Constitution, and accepting the same with some slight amendment.

**Turkey.**  
The correspondent of the London Times, under date of Dec. 19th, says:—A courier has arrived here from St. Petersburg with the Emperor's answer to the last communication made to his imperial highness by the Sublime Porte, with regard to the question of the Polish and Hungarian refugees.

In a former letter I told you that the Turkish Ministers were willing to consent to the expulsion of the Poles who had been concerned in the late Hungarian insurrection, but they objected to the expulsion of the Polish refugees who were resident in Turkey previous to that event, and who were provided with French and other passports. The Emperor has agreed to the terms proposed by the Porte, and Dembinski and the other Poles who served in Hungary are to be expelled. Their countrymen resident in Turkey who were not concerned in that insurrection are to remain unmolested, if however any one without reference to the country under whose protection he may be, shall, while resident in the Ottoman Empire be guilty of any act hostile to the Government of the Emperor Nicholas, he shall at the demand of the Russian Envoy be expelled from the Sultan's dominions.

Kossuth & the Hungarian Refugees are to be confined in a fortified tower in the interior. They are not to be close prisoners, but their place of residence will be under the constant surveillance of the Turkish authorities.

The correspondent of the morning Herald, however, writing on the same day, asserts that the Emperor of Russia has refused to accept the Sultan's guaranty for the conduct of the Poles, and that the matter is as far from being settled as ever.

**GEN. PILLOW AND THE CAMARGO DITCHES.**  
—This gentleman has written a letter to the editor of the North American Review in defence of the fortifications erected at Camargo during the Mexican war, which were so much ridiculed at the time.

The objections made to these military works we remember, were that the ditches were made inside of the works, and not outside, as is usually the case, and it was said that their whole effect was not to keep invaders out of the town, but rather to keep those in possession of it already in. General Pillow was therefore laughed at for having made a great blunder. But he now replies that these arrangements were not intended for defensive works at all; that the American army was not within the town; and that their whole object was to catch and hold those Mexican depredators who had a "proclivity for horse-stealing." When they were once inside of the enclosure, it was impossible for them to get out again. Gen. Pillow contends that they were admirably adapted to their purpose.

He however goes further than this in his defence, for he says that whether the works were well or ill designed, he had nothing to do with them, the whole having been planned and carried into effect by Gen. Patterson, who was the officer in command, and by

whose orders everything was done. Gen. Pillow adds, that he was not even consulted in regard to them by his superior officer.

**THE PRESENT YEAR.**—A German newspaper has recently published a prophecy by a Benedictine monk, who died in 1847, the purport of which is that the present year 1850, will be one of unusual prosperity. The different sects of Christianity will in that year accord. The Sultan will be poisoned (Abdul Medjid had best take care), and his empire will become christian. Russia will suffer much from a war-like nation of the east. A German Prince will be found in an Eastern empire. Grain, fruit, lentils and other vegetables will be so plentiful that the bars will be unable to contain them. The disease of the potato will every where cease, and old men will not remember such a year of fruitfulness. The wise of this year will surpass that of the year of the comet.

**DISCOVERY OF A NORTHWEST PASSAGE.**—A letter in the Courier and Enquirer, dated Mazatlan, Nov. 23d, states that the British frigate Amphitrite, sloop-of-war Hecate, and the Thames yacht club, schooner Nancy Dawson, arrived on the 19th inst from the North Pacific Ocean. The writer affirms that they have discovered a northwest passage in lat. 73 and lon. about 30, having gone one degree and a half further north than any vessel had previously been. He also says that they discovered a new continent, but on account of ice could not approach nearer than fifteen miles to land. They did not find Sir John Franklin and on account of ice were forced to leave.

**GETTING RICH IN A HURRY.**—Some time ago a young man named Fisher left Schuylkill county, Pa., for California, under an attack of the gold fever. He died at San Francisco, and the intelligence came to his widowed mother that he had left her some property. Another of her sons started out to settle the estate and collect the property. He reports that the deceased brother had owned 11 lots in San Francisco, one of which had lately sold for \$6,000. He thinks the property which his brother had acquired may be worth \$21,000, and sends a remittance of \$5,000 to his mother. She was poor heretofore.

**A TREATY WITH BRAZIL.**—The Washington papers publish a Treaty between our Government and Brazil which has just been ratified at Washington. It provides that our Government shall become responsible for all the claims of U. S. citizens against Brazil, in consideration of which that Government agrees to pay to the United States the sum of \$80,000,000 as soon as the ratification shall be made known at that capital. The amount is to bear interest at 6 per cent from the 1st of July last to the time of payment.

**DIFFICULTY SETTLED.**—The legislature of Ohio, after being in session seven weeks at length fully organized on the 18th inst. Mr. Blake the speaker of the Senate, resigned his office, in consequence of the difficulty his election had occasioned and Charles C. Converse, Whig, was elected, receiving 25 votes. The message of Gov. Ford, was delivered on the afternoon of the 18th.—Daily News.

**CONSUMPTION.**—Why are the poetical productions of the immortal Bard and his poetical, signed Henry Harley, alias T. F. D. (noticed in another column), like a half-smoked pipe of tobacco? Because they've been puff'd.

**ANNUAL MEETING**  
Of the Subquehana County Agricultural Society.

The Society met and elected the following named gentlemen officers for the ensuing year:  
Hon. WM. JESSUP, President.  
Chas. TINGLEY, 1st Vice President.
