FARMERS' DEPARTMENT.

JULY 8, 1850.

Curing Clover Hay.

Clover makes a most desirable and nutritive hay, provided it be cut in season, and properly cured. As a general rule it is not advisable to permit it to remain standing much after the period of inflorescence, as the ripening of the seed in the field exposes it to a certain degree of deterioration which considerably diminishes its value as a feed for stock, besides insuring a certain degree of actual and unavoidable loss in handling it, as those leaves and heads which have become dry, are easily detached from the stock during the process of raking and pitching, even when these operations are performed with the most consumate care.

My plan of operation in curing clover, is as follows,—As soon as the heads are all fully blown, I commence mowing, care being had to lay the swarths as *closely* as possible, and to leave no scattering grass between them if it can be helped. About four o'clock in the afternoon, provided the weather during the day has been clear and warm, I have the swarths turned carefully over with a fork, and in this position they are allowed to remain till four o'clock the next day. I then, with a pitchfork, commence cocking the swarths—pitching the half made grass in flakes as much as possible, and making my cocks compact but small—say about eighty pounds uncured hay to the cock. They are then neatly raked off, the "scatterings" cleaned up and cocks pe[illegible] to remain unopened and wholly und[illegible] till dry.

Sh[illegible] the weather prove favorable, the making will proceed rapidly, and in two days from the time the grass is cocked the hay will be fit to mow. This insures the entire preservation of the tops and foliage, confers a beautiful green color to the hay, and prevents the stalks from assuming that dry, hard, ligneous character, which they are sure to possess when made by exposure to a hot sun. Clover made in this way is never mouldy, and even should the weather prove unfavorable, or even *wet* after cocking, the compactness of the cocks will prevent their becoming saturated, and a few hours, sunning will render them fit to mow. I have known hay cocked in this manner to remain out a week or ten days, and still retain all its original greenness and fragrance perfectly unimpaired.

Making hay in this manner, is a practice not yet in much favor with American farmers: but in England, Scotland and other European countries, the "grass-cock system" of curing, has now nearly superseded every other, not only in the management of clover, but all other grasses, even the finest when cut for hiay, or as a dry feed for domestic stock. In the case of clover which usually grows thick and rank, the fork should always take the place of the rake, which is not required.

A PRACTICAL FARMER.

Bald Eagle Earn, May 29, 1850.

July Work to be done.

Buckwheat may be sown safely until the 20th of July.

Ruta Baga turnips may be sown this month—Ground bones and salt are good manure for this crop, the proportion of salt as compared to the bones must be small, and should be applied at the time sowing the seed. The salt will be found equally vigorous in its destructive power upon the insects, and much more so as a manure, by being previously treated with lime, plaster may also be used judiciously with this crop.

We do not wish to be understood that these manures alone are the most judicious for raising Ruta Bagas on land not in fine heart for they are rank feeders, and capable of appropriating, large quantities of strong and fermentable manure, but as such manures as ordinarily prepared to give rise to many classes of insects destructive to the turnip, those above recommended may be used with advantage. For modes of cultivation of this crop, see our article on carrots in former number.

This is also a proper season for planting the White Globe turnip, which will yield a larger crop than the Ruta Baga, and is therefore equally profitable for soiling, but does not [illegible] as well in dry seasons.

As a comparative value for fattening cattle, the carrot is to be preferred to all other roots, for in addition to its high nutritive properties it contains large portions of petric acid, which has the power of gelatinizing the fluids of the animal, thus rendering the nutriment more readily available and more easily digested. The crop is easily kept during the winter, and is preferred by cattle to all other roots. Of the sort known as Belgian Carrots, nine hundred bushels may be readily raised per acre, and they will be found to take the place of oats for the use of horses.

Weeding and cultivating [illegible] crops should now be strictly adhered to, for which well constructed cultivators may be used with more economy than small plows; for if the rows be straightly planted, and equal distance apart, the improved cultivators may be run as closely to the plants as the hand-hoe could be used, and with one twentieth of the expenditure of time. Those cultivators should be preferred, the teeth of which do not all point towards the clevis, as it is difficult to run these straight, while those with curved teeth, with each tooth pointing strait towards the line of travel, are not inclined to scratch, and therefore they neither cut off the plants, nor do they throw the earth towards them.

Destruction of weeds should be carefully attended to.

Many can talk during the summer, after, than before the 4th of July, and therefore the farmer should take this into consideration in making his [illegible].

☞ Of all excellencies that make conversation good peace, and good nature are the most necessary, humor the most pleasant.

To Dairy-men and Farmers.

Valuable Property for Sale.

THE following Real and Personal Estate, as hereinafter described, situate in New Milford, Susquehanna County, Pennsylvania, will be sold at a great bargain to any one who may choose to purchase. The real estate consists of seven hundred acres, five hundred of which are under improvement, and on which are four dwelling houses and seven barns. The farm is well designed for a Dairy, and is capable of feeding one hundred Cows during summer and winter, and every part of it well watered with springs and streams. The buildings and land are in good condition, and on the premises are about five miles of good Stone Wall, and the other fences are also good, and on the woodland are large quantities of Chestnut Timber, which will supply the farm for many years to come, and which will also be valuable for building the Railroad which is soon to be built up Martin's Creek.—Said farm has a very pleasant and desirable location about seven miles from Great Bend, through which the New York & Erie Railroad passes, and about one mile from the probable Depot on the Martin's Creek Railroad, which will lead from the Lackawanna Coal and Iron Mines to intersect the New York & Erie Railroad at the Great Bend. It can be very advantageously divided into five farms, on four of which would be the necessary Dwellings and Out-houses, Fruit Trees, &c.

With the above will be sold a very large stock of Cattle, Horses, &c., including Durham Cows, Working Oxen and young Cattle, and also all necessary implements of husbandry for carrying on said farm or farms.

The Terms of Sale will be as follows:—One-fourth of the purchase money for the Real estate will be required at the time of purchase, and for Stock, Farming Utensils, &c., half down and the residue to be paid in equal annual instalments, with interest annually on the whole sum unpaid, to be computed from the full delivery of possession, the first instalment payable in three years from the delivery of possession, and the whole amount to be paid within ten years from the sale, to be secured by Bond and Mortgage. Full possession to be given on the first day of April, 1851, with the privilege of putting in crops next Fall if desired. A good and indisputable title given.

The above described property belongs to the estate of S. MEYLERT, late of said county, deceased, and a more desirable property has not at any time, in this section of country, been offered for sale; and no greater inducements offered to purchasers. Persons wishing to invest moneys in Real Estate and in good Stock, cannot do better than to call and examine for themselves. Other tracts or lots of land lying in said county, are also offered for sale. Applications can be made to M. Meylert at New Milford, or to B. S. Bentley at Montrose, in said county, and any further particulars that may be required will be given.

BRANT'S INDIAN PULMONARY BALSAM,

Has cured without the least shadow of doubt, *very many* of the *most strongly* developed cases of *ulcerated* and *diseased lungs*—such cases as were never cured by any other medicines—and which were so *utterly hopeless*, that the diseased persons were pronounced by physicians and friends, to be ACTUALLY DYING.

This Balsam is a VEGETABLE compound, which never injures any person when it is used for the cure of *Chronic diseases*. It possesses *strong, active*, PURIFYING and ALTERATIVE properties, and such *other medications* as are ESSENTIALLY NECESSARY to cure all Coughs, and *to cure* that *very identical* COUGH DISEASE, which is called by physicians and others, and is really considered to be, without the least doubt,

Pulmonary Consumption.

This Balsam heals and *cures ulcers* in the *Lungs*, and elsewhere *internally*, as *certainly* and *easily* as that other medicine which we call "BRANT'S PURIFYING EXTRACT," *cures* and *heals* ulcers *externally*. *This* BALSAM will cure *Nine* cases of *Cough* and *Consumption* out of *Ten*, after all other remedies have failed to cure.

THOUSANDS OF CONSUMPTIONS

and *Coughs* having been cured by it, testify and prove its *unfailing efficacy* in *all* diseases of the LUNGS, THROAT, and BREAST.

We are fully aware of the very strong and positive assertions which we have made above, and we would not have asserted, had we not also been confident that the respectable testimony annexed, of some of the numerous cures said to have been effected by this BALSAM, *fully sustain and support us, in all we have asserted*—*and we* CHALLENGE THE PROPRIETOR *of any other remedy, to produce as respectable testimony of cures of as many* HOPELESS DYING PERSONS, *as we publish.*

BRANT'S PULMONARY BALSAM cures *CONSUMPTION, Coughs, Colds, Spitting of Blood, Bleeding at the Lungs, Pain in the Breast* and *Side, Night-Sweats, Nervous Complaints, Palpitation of the Heart, Female Weaknesses* and *Complaints, Cholera Infantum, Dysentery*, and *Summer Complaints.*

A DYING WOMAN SAVED.

We publish this cure of *Consumption*, it being one out of the many which can be adduced, to prove the magical power to save life, which this *Balsam possesses*—even after the person is considered by physicians and friends, to be in the *very last stages* of the disease—ACTUALLY DYING—and in this case, so *far gone*, that her friends had *bought the cloth for her shroud* and *other burial clothes*. This cure was effected on *Mrs. Ziba Dykeman*, the wife of a respectable man residing at *Ballston Spa, Saratoga county, N. Y.*

Mr. Dykeman swore to the facts, before *Thos. G. Young, Esq.* Justice of the peace, and editor of a paper at Ballston, who certifies to the good character of Mr. Dykeman, for veracity and respectable standing. *Mr. John Watt*, merchant at the same place, also certifies that he *knows all the facts* as stated; and that Mr. Dykeman's *character is good* For the full particulars of this cure, SEE OUR PAMPHLETS

BELIEVED IMPOSSIBLE TO LIVE.

Messrs. E. B. Caldwell & Co., of *East Oswego, Oswego Co., N. Y.*, respectable druggists, wrote to us, May 18, 1848, we have just heard through Mr. Whitman, a respectable citizen of this place, of an important cure of *Consumption*, which BRANT'S INDIAN PULMONARY BALSAM has effected on the wife of an acquaintance of his, who resides in the town of Palermo in this county. She had been long confined to her bed, and was so *dangerously diseased* that her friends *believed it impossible for her to live*

MORE THAN ONE DAY LONGER.

but, when *all other hope utterly failed*; she commenced taking *Brant's Pulmonary Balsam*, and its medical efficacy has raised her *from a dying bed*, so that she is now going about and attending to her domestic household affairs and duties She acknowledges, and it is very evident, that she is indebted to *Brant's Balsam* for her recovery from a long, severe, and dangerous sickness; and her friends and neighbors consider that medicine invaluable.

HIS LUNGS BLED—HE MUST DIE.

Mr. Z. S. Terry, merchant, Byron, Genesee County, N. Y., wrote, Aug. 24, 1846: *Brant's Medicine* is doing wonders here—it has *cured* a man of *Consumption*, that *all the physicians had said* he *must die*. When he commenced taking Brant's Medicine, *he could not raise his hand* to his head; he *bled at the lungs*, and every symptom seemed to indicate that he must die; but, astonishing to all, he is now able to labor and rides all over the county. *He used only five bottles*. I will also show you, when I visit the city of New York in the spring, what *great things Brant has done for me*. It has also *cured a young lady of Consumption* in Orleans county, which her father says *no doctor could cure*.

RAISED FROM THE GRAVE.

Messrs. Pratt & Foster, merchants of West Cornwall, Conn., called on us at New York, April 21st, 1847, and said *Brant's Balsam* had *effected cures* of such *hopeless cases* of *Consumption* in their town, that now no other cough medicine could be sold there; that it had *raised some as if from the grave*—some that physicians and all the friends said must die. One gentleman, in particular, was so far gone that his physician told him it was *useless* to take any more medicine. He then, *when no hope was left*, began to take *Brant's Balsam*—got well—and is now as well as he ever was.

Doctors could give no Help.

Mr. Wm. D. Jennings, a merchant at *Pierpont Centre, Ashtabula co., Ohio*, wrote to us, October 2d, 1848, and stated a case of CONSUMPTION which the use of BRANT'S INDIAN PULMONARY BALSAM had effected in *Mr. William Crocket* of an adjoining town. Mr. Crocket had sought relief from the best physicians and numerous medicines, but found none, for the fatal hand of that unrelenting monster *Consumption*, had taken fast hold on his vitals, and was so destroying and debilitating his body that he was a *mere skeleton*. He was *given up* by his physician, and all friends as one who would *soon inhabit a grave*. But even in this last extremity, strange and marvellous as it may seem, yet it is true, that the use of *only five bottles* of BRANT'S INDIAN PULMONARY BALSAM has unclinched the hand of the destroyer, and restored Mr. Crocket to health, and he is now a HEALTHY, HEARTY, RUGGED MAN.

BLEEDING AT THE LUNGS.

Mr. W. Chapman, merchant, Middlebury, state of Vermont, stated to us that his son was afflicted with *bleeding at the lungs*, and after all other remedies failed, and his physicians *said he would die*, he made use of *Brant's Indian Pulmonary Balsam*, which soon *restored him to health*.

SHE COULD NOT SLEEP IN BED.

Mr. James Irins, a merchant and miller of Kirkland, Lake Co., Ohio, wrote, Sept. 18th, 1848, that BRANT'S PULMONARY BALSAM was effecting some astonishing cures in that vicinity; one case in particular, was the wife of his head miller. She had been diseased for *fourteen years*, and her husband had spent almost all his earnings in paying doctors, and in trying all kinds of medicines but to no purpose. She had not *laid or slept in her bed for several years*, in consequence of her disease; but now after using a *few bottles of Brant's Pulmonary Balsam*, she could lie and *enjoy sleep* in her bed as well as ever she could.

FEMALE WEAKNESSES AND COMPLAINTS.

No remedy offered to the public has ever been *half so certain* and *effectual* in *restoring ALL* the incidental *weaknesses* and *irregularities* of the sex, as BRANT'S PULMONARY BALSAM. It makes no difference whether the derangement be *suppression, excess*, or other *weakness*—it REGULATES ALL, by *strengthening* the system, *equalizing* the *circulation*, and SOOTHING and ALLAYING NERVOUS IRRITABILITY. *See Pamphlets.*

CHANGE OF LIFE.

From the *Girl* to the *Woman*, and the *Woman* at *middle age*—the one case is *accelerated*, and the other so *gradually suppressed*, as to prevent any of the *fatal diseases* that frequently arise in consequence of such change.

Nervous Diseases and Derangements

Cured without fail. DYSENTERY and SUMMER COMPLAINT, in *children* and *adults*—and

CHOLERA INFANTUM.

No mother need ever mourn the death of her child by Cholera Infantum, while teething, if BRANT'S PULMONARY BALSAM be administered. It should be, for such cases, given in larger than the ordinary doses.

Blacksmithing.

Ye people all, of every trade, who want good things of iron made—by one sworn not to "take a drop"—know ye that I have taken the shop near-hand the steam-mill, in Montrose, where, through this twelve-month, I propose to act the Blacksmith—you know I can as well as any other man. And despite them all, I'll go before 'em, in fixing prices *ad valorem*. In Blacksmith work some people think no smith can equal JABEZ FRINK.

TRICKS OF QUACKS.

LET EVERYBODY READ THIS CAREFULLY. There is a Sarsaparilla for sale in the different towns, called S. P. Townsend's Sarsaparilla. It is advertised as the ORIGINAL, GENUINE, and all that. This Townsend is no doctor, and never was; but was formerly a worker on railroads, and the like—yet he assumes the title of Doctor for the purpose of gaining credit for what he is not. He says he has attended two medical schools, and practiced for fifteen years!!! Now the truth is, he never practiced medicine a day in his life! Such *willful, wicked* misrepresentation looks bad to the character and veracity of the man. I wish most sincerely, he had never made those statements of himself or of me. When will men learn to be honest and truthful in all their dealings and intercourse with their fellow men! He applied to one Reel Clapp to assist him in manufacturing his mixture, stating the large profits he would make, as an inducement to embark in the business. Those men have been insulting and libelling me, in all possible forms, in order to impress the public with the belief that the Old Doctor's Sarsaparilla was not the *genuine, original Sarsaparilla*, made from the *Old Doctor's Original Recipe*. This S. P. Townsend says I have sold the use of my name for $7 a week. I will give him $50 if he will produce one single solitary proof of this. His statements of Thompson, Skilliman & Co., are nothing but a tissue of falsehoods, simply made to deceive the public, and keep the truth down in regard to his *scouring, fermenting, compound*. This is to caution the public to purchase none but Old Dr. JACOB Townsend's Sarsaparilla, having on it the Old Doctor's likeness, his *family Coat of Arms*, and his signature across the Coat of Arms.

JACOB TOWNSEND

Old Dr. Jacob Townsend,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr. Townsend is now about 70 years of age, and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL "TOWNSEND SARSAPARILLA."* Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its wonderful

HEALING POWER.

This GRAND AND UNEQUALLED PREPARATION manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes but for the better; because it is prepared on *scientific principles* by a *scientific man*. The highest knowledge of Chemistry, and the latest discoveries in the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce *fermentation* and *acids*, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile that they entirely evaporate and are lost in the preparation, if they are not preserved by a *scientific process*, known only to those experienced in its manufacture. Moreover, these *volatile principles*, which fly off in vapor, or as an exhalation, under heat, are the very *essential medical properties* of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter of the root than from anything else; they can then strain the insipid or vapid liquid, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or SYRUP" But such is not the article known as the

GENUINE OLD DR JACOB TOWNSENDS SARSAPARILLA.

This is so prepared that all the inert properties of the Sarsaparilla root are first removed, everything capable of becoming acid or fermentation is extracted and rejected: then every particle of medicinal virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the

Cure of Innumerable Diseases.

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of

CONSUMPTION, DYSPEPSIA, and *LIVER-COMPLAINT*, and in *RHEUMATISM, SCROFULA, PILES, COSTIVENESS*, all *CUTANEOUS ERUPTIONS, PIMPLES, BLOTCHES* and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from *Indigestion*, from *Acidity of the Stomach*, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flushes over the body. It has not its equal in *Colds* and *Coughs*, and promotes easy expectoration and gentle perspiration, relaxing strictures of the lungs, throat and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Fluor Albus* or *White*, *Falling of the Womb*, *Obstructed*, *Suppressed*, or *Painful Menses*, *Irregularity* of the menstrual periods, and the like; and is effectual in curing all the forms of *Kidney Diseases*.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of

Nervous Diseases and Debility,

and thus prevents or relieves a great variety of other maladies, as *Spinal irritation, Neuralgia, St. Vitus' Dance, Sreezing, Epilept
