FARMERS' DEPARTMENT.

AUGUST 22, 1850.

The Tomato.

This plant or vegetable, sometimes called Love Apple or Jerusalem Apple, which belongs to the same genus with the potato, was first found in South America. The use of this fruit for a food is said to have been derived from the Spaniards. It has also long been used by the French and Italians. The date of its introduction into this country is unknown. It is said that the tomato has been used in some parts of Illinois for more than fifty years. Its introduction on our tables as a culinary vegetable is of recent date. Thirty years ago it was hardly known but as an ornament to the flower garden and for pickling. It is now cultivated in all parts of the country, and found either in a cooked or raw state on most tables. It is now used in various parts of the country in soups and sauces; and is also stewed and dressed in various ways very much admired, and many people consider it a luxury. We often hear it said that a relish for this vegetable is an acquired one, scarcely any person at first liking it. It has, indeed, within a few years come into very general use, and is considered a particularly healthy article. A learned medical professor in the West pronounces the tomato a very wholesome food in various ways, and advises the daily use of it. He says it is very salutary in dyspepsia and indigestion, and is a good antidote in bilious disorders, to which persons are liable in going from a northern to a warmer climate. He recommends the use of it also in diarrhea, and thinks it preferable to calomel. The tomato is a tender, herbaceous plant, of rank growth, but weak, fœtid and glutinous. The leaves resemble those of the potato, but the flowers are yellow and arranged in large, divided branches. The fruit is of a light yellow and bright red color, pendulous and formed like the large squash-shaped pepper. There are smaller varieties, one pear-shaped variety, and also red and yellow. The red are best for cooking—the yellow for slicing like cucumbers, seasoned with pepper, salt and vinegar, and eaten raw. The seed should be sown in the early part of March, in a slight hot-bed, and the plants set out in the open ground in May. To keep the plant erect and the fruit from the ground, is to drive down four stakes. These will keep the vines from falling, and expose the fruit nicely to the sun for ripening. They will bear till frost.—*Journal of Agriculture.*

Ripe fruit for Dysentery.

A pernicious prejudice with which people are too generally imbued, is, that fruits are injurious in the dysentery, that they produce and increase it. There is not perhaps, a more false prejudice. Bad fruit, and that which is imperfectly ripened, may occasion colics, and sometimes diarrhœa, but *never* epidemic dysentery. Ripe fruits of all kinds, especially in the summer, are the true preservatives against this malady. The greatest injury they can do, is in dissolving humors, and particularly the bile, of which they are the true solvents, and occasion a diarrhœa. But even this diarrhœa is a protection against the dysentery. Whenever the dysentery has prevailed, I have eaten less animal food and more fruit, and never had the slightest attack. I have seen eleven patients in one house; nine were obedient to the directions given, and ate fruit: they recovered. The grandmother, and a child she was most partial to, died. She prescribed for the child burnt brandy and oil, powerful aromatics, and forbade the use of fruit. She followed the same course herself, and met the like fate. A minister attacked with dysentery, ate three pounds of red currants between seven o'clock in the morning and nine in the evening: next day he was entirely cured.—*Tissot.*

WHEAT CROP IN MICHIGAN.—The Detroit Free Press says:—The wheat crop of the State this year will be by far the largest of any crop ever raised in the State. On account of the failures for the past two years, more than the usual quantity was sown this year, and the yield being much greater, makes a vast difference in favor of this over any other season.

A correspondent of the Detroit Daily Tribune writing from Rome, Michigan, states that Ira Phillips, of Bruce, Macomber county, last week harvested and thrashed from two acres of ground, one hundred and twenty-four bushels of wheat. The wheat crop of Macomber county, and indeed of all Michigan, will be unprecedentedly large.

STATE FAIR.—Preparations are in progress for this great festival of the farmers of New York, at Syracuse this fall. About 30 acres are to be enclosed, and buildings are erected to accommodate the multitude of exhibitors who will be in attendance. Stalls for at least 600 head of cattle, and for horses in abundance, will be provided, and in every department the committee design to have everything in as complete order as has ever been witnessed at any State fair in the country.

TO CLEAN CARPETS.—Carpets may be cleaned by pounding them in soft soap suds, and then washing them well out of the soap. The suds must be very strong and cold. This is done by cutting down the hard soap and dissolving it in warm water. The suds should feel slippery between the fingers.

BEADSTEADS should receive a complete scrubbing with soap and water; and should not be put up until perfectly dry. The seams and holes should then be anointed with corrosive sublimate dissolved in alcohol, or sulphur mixed with camphine, or a solution of chloride of lime.

POZZOLANA AS A MANURE.—The St. Vincent's Royal Gazette mentions that a quanity of Pozzolana was recently sent from that island to England to be used as a cement; and it has been pronounced by the chemist who examined it the best manure yet discovered, and far preferable to guano. Very satisfactory to St. Vincents, if true; but somewhat doubtful, notwithstanding.

SOMETHING NEW.—An ingenious Yankee down East has invented a machine for milking cows. The editor of the Maine Farmer, has seen it, and given it a trial. He says it empties the udder very freely and easily at the rate of about a quart per minute.

Thirty-nine Deputy Marshals have been appointed in Lancaster county.

New Goods.

ABEL TURRELL

IS now receiving his *Fall* and *Winter* supply of Goods (embracing nearly every thing wanted in this market,) which will be sold *extremely LOW* for *cash* or *ready pay*. My assortment may be classed in part as follows:

Just Received,

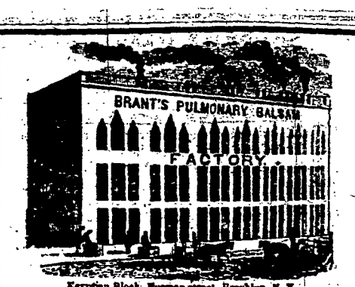
A new lot of Brooms, Rakes, Scythes and Sticks, Hoes, &c., by J. LYONS & SON.

June 18, 1850.

PITCH FORK Handles for sale by J. LYONS & SON.

Montrose, July 10, 1850.

PALM-LEAF Hats, Bonnets and trimmings, a new lot at LYONS & SON's.



Egyptian Block Furman street, Brooklyn, N. Y.

64 DOSES

IN EACH BOTTLE—ONE *Tablespoonful is dose*—THREE *Doses* a day—ONE *bottle* containing 64 doses lasts **Twenty-One Days.**

Price $1.00 *per Bottle, or Six Bottles for* $5.00.

BRANT'S PURIFYING EXTRACT

Is now put up in **QUART BOTTLES,** and is of the same *medical strength* and *efficacy* as that in the *small bottles*.

The *great superiority* of THIS PURIFIER *over* SARSAPARILLA and all other similar medicines, may in some measure be understood from the following facts: FIRST—because it not only possesses, as *portions* of its medication, the PURE ESSENCE OF

Sarsaparilla, Yellow Dock, Cherry and Sassafras Barks,

more strongly, more *powerfully concentrated*, and *larger quantities* of each of these *purifiers* in *each bottle* of it than can be found in *any* bottle of medicine, called *Extract of Sarsaparilla*:

But, SECONDLY—because **This Purifier** *also* possesses the medical *efficacy* and *healing virtues of several other*

Roots, Barks, and Vegetables,

the PURIFYING *properties* of which are *greatly* SUPERIOR to *Sarsaparilla*, and, when *these* are compounded with *Sarsaparilla, Yellow Dock, Cherry, and Sassafras*, they make *this medicine* the most *certain* and *active* **Purifier of the Blood** *in the world*. So true is this, that to have *every desired medical effect*, the DOSE is

Only **One Tablespoonful,** *three times a Day.*

But it is not so with Extract of *Sarsaparilla*, for in consequence of its *medication (in large bottles)* being so much weakened and **reduced** the DOSE of Sarsaparilla has to be **Two, Three,** or **More** *Tablespoonfuls*—THREE, FOUR, or MORE *times a Day*, to have *any medical* effect; and as a bottle of Sarsaparilla only holds *sixty-four spoonfuls*, therefore, *so many* spoonfuls at a *dose*, and so *many* doses a day, will use up a bottle of it in

Four, FIVE, or SIX **Days,**

which show that a *bottle of* **Brant's Purifier,** will last from **Twelve** to **Sixteen Days** *longer* than a bottle of Sarsaparilla; and if its daily medical efficacy (in *small doses*,) be as PURIFYING and HEALING as the daily *(large dose)* of Sarsaparilla, then it PROVES that ONE bottle of *this* PURIFIER is worth *Three, Four,* or *Five times* more than a bottle of Sarsaparilla.

The above comparison does not yet show the *great difference* in value between the *medical efficacy* of BRANT'S PURIFIER and SARSAPARILLA. This will appear by the certificates of cures in *Brant's Pamphlets*, showing that

ONE BOTTLE OF BRANT'S PURIFIER

was more efficacy, and *cures more impure blood disease*, than

TEN Bottles of Sarsaparilla.

If, then, ONE BOTTLE OF PURIFIER sells for ONE DOLLAR, *One Bottle of Sarsaparilla* should sell for **Ten Cents.**

CANCEROUS SCROFULA.

Mr. J. B. HASKIN of *Rome*, Oneida Co., N. Y., who was *cured* of SCROFULA in 1846, swears to the *facts* as related below, in an action in the SUPREME COURT in the city of *New York* on the *25th of December*, 1849, under the following circumstances:—

A person in the *City of New York* had manufactured and vended a *spurious* article of medicine, calling it BRANT'S INDIAN MEDICINES, in *imitation of the genuine medicine*. He was *prosecuted* to obtain damages, in the Supreme Court of the City of New York, and the case was *referred by the Court* to J. S. Bosworth, Esq., 51 Liberty street, an eminent Lawyer, as *Referee* to take the testimony. The defendant pleaded in *mitigation of damages*, that the Proprietors of Brant's Medicine had *in some cases* published FALSE STATEMENTS of *cures*, and thus had committed a *fraud on the public*, and, therefore, was not entitled to damages. The case of Mr. *Haskin* was selected as *being false*, and the testimony was *sworn to before* in regard to the FACTS as published, and *his testimony* MORE THAN SUSTAINED *the publication*.

Mr. HASKIN said, I am well acquainted with Brant's Purifying Extract; have used it for a *long time*. About three years since, I was very badly afflicted by it; I was attended by several doctors—they all told me I could not live—that no medicine could cure me. In consequence of such information, for *two months* before I used *Brant's Purifier*, I took no medicine. About 3 months after I commenced using the *Purifier* I had become reduced to my bed a long time; I could not raise my hand to my head; my neck was one sore; in front it was one sore; one ear was so eaten out round it, that it could be taken up out of its place, it only hung by a piece at the top; a hole was *eaten through* my *windpipe*, so that my breath passed in and out at the hole; an ulcer was on my shoulder as large as my hand, another was as large on arm equally as large, which had eaten the sinew my side, so that my body could be looked into; an ulcer on my arm, extended from my shoulder to my elbow which had eaten to the bone; I had several other ulcers also. I used *Brant's Purifier* in *small bottles*, the *first* bottle lasted me *seven days*. I was so weak I only took *one third* of a spoonful at a dose; that bottle so strengthened me, as to enable me to get out of bed, the *second* bottle I took the full dose (a spoonful), which so strengthened me, that I could dress my sores, so that I was able to walk into the drug-store of Hissel & Leonard, at Rome Centre, where I got the *third* bottle; this bottle HEALED ALL MY ULCERS but *three small sores* about as large as the end of my thumb, and I then worked some at *chopping wood*. I used *Six Bottles* in all, which made a PERFECT CURE, and restored me to *good health*. *FOR FULL PARTICULARS, SEE BRANT'S PAMPHLETS.*

Mr. Z. S. TERRY, merchant, Byron, Genesee County, N. Y., wrote, Aug. 24, 1846: *Brant's Medicine* is doing wonders here—it has cured a man of *Consumption*, that *all the physicians had said must die*. When he commenced taking Brant's Medicine, *he could not raise his hand* to his head; he *bled at the lungs*, and every symptom seemed to indicate that he must die; but, astonishing to all, he is now able to labor and rides all over the county. *He used only five bottles*. I will also show you, when I visit the city of New York in the spring, what *great things Brant has done for me*. It has also *cured a young lady of Consumption* in Orleans county, which her father says *no doctor could cure*.

RAISED FROM THE GRAVE.

Messrs. Pratt & Foster, merchants of West Cornwall, Conn., called on us at New York, April 21st, 1847, and said *Brant's Balsam* had *effected cures* of such *hopeless cases of Consumption* in their town, that now no other cough medicine could be sold there; that it had *raised some as if from the grave*—some that physicians and all the friends said must die. One gentleman, in particular, was so far gone that his physician told him it *was useless* to take any more medicine. He then, *when no hope was left*, began to take *Brant's Balsam*—got well—and is now as well as he ever was.

Doctors could give no Help.

Mr. Wm. D. Jennings, a merchant at *Pierpont Centre*, Ashtabula co., Ohio, wrote to us, October 2d, 1848, and stated a cure of CONSUMPTION which the use of BRANT'S INDIAN PULMONARY BALSAM had effected in Mr. *William Crocket* of an adjoining town. Mr. Crocket had sought relief from the best physicians and numerous medicines, but found none, for the fatal hand of that unrelenting monster *Consumption*, had taken fast hold on his vitals, and was so destroying and debilitating his body that he was a mere *skeleton*. He was *given up* by his physician, and all friends as one who would *soon inhabit a grave*. But even in this last extremity, strange and marvellous as it may seem, yet it is true, that the use of *only five bottles* of BRANT'S INDIAN PULMONARY BALSAM has unclinched the hand of the destroyer, and restored Mr. Crocket to health, and he is now a HEALTHY, HEARTY, RUGGED MAN.

BLEEDING AT THE LUNGS.

Mr. W. Chapman, merchant, Middlebury, state of Vermont, stated to us that his son was afflicted with *bleeding at the lungs*, and after all other remedies failed, and his physicians *said he would die*, he made use of *Brant's Indian Pulmonary Balsam*, which soon *restored him to health*.

SHE COULD NOT SLEEP IN BED.

Mr. James Irvine, a merchant and miller of Kirkland, Lake Co., Ohio, wrote, Sept. 18th, 1848, that BRANT'S PULMONARY BALSAM was effecting some astonishing cures in that vicinity; one case in particular, was the wife of his head miller. She had been diseased for *fourteen years*, and her husband had spent almost all his earnings in paying doctors, and in trying all kinds of medicines but to no purpose. She had not *laid or slept in her bed for several years*, in consequence of her disease; but now after using a *few bottles* of *Brant's Pulmonary Balsam*, she could lie and *enjoy sleep* in her bed as well as ever she could.

FEMALE WEAKNESSES AND COMPLAINTS.

No remedy offered to the public has ever been half as *certain* and *effectual* in *restoring ALL* the incidental *weaknesses* and *irregularities* of the SEX, as BRANT'S PULMONARY BALSAM. It makes no difference whether the derangement be *suppression, excess*, or other *weakness*—it REGULATES ALL, by *strengthening* the system, *equalizing* the *circulation*, and SOOTHING and ALLAYING NERVOUS IRRITABILITY. *See Pamphlets.*

CHANGE OF LIFE.

From the *Girl* to the *Woman*, and the *Woman* at *middle age*—the one case is *accelerated*, and the other so *gradually suppressed*, as to prevent any of the *fatal diseases* that frequently arise in consequence of such change.

Nervous Diseases and Derangements

Cured without fail. DYSENTERY and SUMMER COMPLAINT, in *children* and *adults*—and

CHOLERA INFANTUM.

No mother need ever mourn the death of her child by Cholera Infantum, while teething, if **BRANT'S PULMONARY BALSAM** be administered. It should be, for such cases, given in larger than the ordinary doses.
