Clover—Time for Sowing. To the Editar of the Ohio Cultivator. The great consideration of the farmer should be to keep up and increase the strength and farility of his land. If this is properly attended to it will constitute a deposit upon which he can freely draw without danger of having il drats protested. But this grand object soft sight of by a great portion of our farmers and consequently each succeeding crop taken from the land leaves it worthless to the wher with the certainty of yielding a more

they return to the tiller.
Where the cultivation of grain is the prinpal object of the farmer, without a corresding amount of stock being kept, to proice manure sufficient to keep up the soil, it poines indispensably necessary to clover largely, and turn down a heavy coat of vertable matter. As a fertilizer, no crop is bet adapted to a variety of soils than clover and timothy. Land not intended for the plow for a season, should invariably be well set with clover. I have never known a farm run down that was regularly seeded in clo-

In regard to the best time of sowing clover there is some diversity of opinion and differ-Twist, and all sorts of notions.

Hard Ware-Nails, Door and Window-Blind the beason, and a time that may succeed best n one season may utterly fail in another. I have practised fall sowing with the most complete success; and in order to guard against contingences would prefer sowing with a full crop in September, or as early as the 5th of &c. too numerous to mention. October, but not later as it requires a warm ann in order to grow, and become well set to protect it from the winter. There is no danger of its being hoven up when small, that ever occurs until the roots become large. Fall sowing has this advantage, it gives the clover a better start in the spring before beclover a better start in the spring before be-coming shaded by the growing crop, and if it Pink, Black Brialt, curcuma, Red Saunders, Sugar

A For spring sowing I consider the two last weeks, in March the best time. If sown too early it may sprout immediately, and be killed by the cold weather that follows; if sown late it is frequently killed by draught. The best sign to sow in, is when the ground is hower up, so as to allow the seed to settle in the openings. I have generally found from seven to eight pounds of seed to the acre sufficient

Intimately connected with clover is the use of plaster, upon which I may give my experience and observations hereafter.

Decay of Peach Trees.

.A single fact, and one worthy of being recorded was mentioned a few days since, by Mr. Alexander Duke of Albemarle. He stated that while on a visit to his neighbor, his affection was called to a large orchard, every tree in which had been totally destroyed by the ravages of the worm with the exception of three, and these three were probably the most thrifty and flourishing peach trees he ever saw.

When his trees were about a year old, he had selected three of them, and driven a tenpenny nail through the body, as near the ground as possible: while the balance of the orchard had gradually failed, and finally yielded to the ravages of the worms, these three trees selected at random treated precisely in the same manner, with the exception of the nailing, had always been vigorous and stc., and cases long and short.

Steel Goods.—Steel Beads, bag and purse clasps, purse Rings, Tassels, Slides, etc. the greatest profusion of the most luscious fruit. It is supposed that the salt of iron afforded by the nail is offensive to the worm. while it is harmless or even beneficial to the iree. Southern Planter.

SAVING GOOD SEED.—There is nothing on which the farmer's success depends more than in having good seed; and there is no branch the best assortment ever introduced into the council to a wholesale and retail; also, Violin Bows, triator to improve his seeds by a judicious sevial strings, bridges, pegs, tail pieces and rosin; Bass viol strings and bows, Fifes, Flutes, Picelos, clari lection and he can do it with convenience and with pleasure too, if he will enter into the business with proper spirit and zeal.

By selecting a few excellent seeds and managing them with care, an abundance will soon be obtained, which will suffice for the whole farm and perhaps some spare at a good price. One car of superior wheat, corn, or ther grain, or one potato or other root would with proper management, soon produce suffigient seed for whole acres. This view of the Subject shows how cheap improvements may be made in the same way.

FARNERS MAKE YOUR OWN CARDIER Taxe twelve ounces of alum to every ten spounds of tallow, dissolve it in water before the tallow is put in, and then melt the tallow in the alum water, with frequent stirring, and Lar will clarify and harden the tallow, so as to make a most beautiful article for either win-If the wick be dipped in spirits of turpending the candles will reflect a much more brilliant light.

The above is from the American Farmer and appears to be a good receipt.

(Sci. American.

CURE FOR RINGSONE SPAVIN &C. Take the oil of originum and the oil of turpentine equal portions, and apply it to the part effected three times a day by means of a feather until it gets very sore then let it heal up, and at the disease is not entirely killed, proceed in the same way again. A young horse or colt fiorse needs more severe treatment. Sometimes it is necessary to keep at it for three months before the cure is perfected in an old rediorse, yet I never knew an instance where it

IN EACH BOTTLE-One Tablemoonful a do Twenty-Que Days.

Price \$1.00 per Bottle, or Six Bottles for \$5.00. BRANCES PURIFYING EXTRACT

Is now put up in QUART BOTTLES, and is of the same medical strength and efficiery as that in the small bottles.

The great superiority of This Punpiler over Sansarantles stood from the following facts: First—because It soot possesses, as portions of its medication, the Punc Espect of

Sarsaparilla, Yellow Dock,

Cherry and Sassafras Barks, more strongly, more powerfully concentrated, and larger quanti-tics of each of these purifiers in orch boild of it than can be found in any bothe of medicine, called Krivati of Sarangarilla: But, Skcomm.v—because This Purifier also poweres the medical effects and healing virtues of secretio other Roots, Burks, and Vegetables,

the Purifying properties of which are greatly superior to Saraparilla, and when the greatly superior to Saraparilla, and subset there are, compounded with Saraparilla, Vilno Dock Cherry, and Sanafra, they make this median the most certain and active Purifier of the Blood in the world. So true is this, that to have every desired medical effect, the Dost is

the Dose is

Only One Tablespeenful, three times a Day.

But it is not so with Extract of Sarasparilla, for in consequence of its medication (in large bottles) being so much wenkened and reduced the Dose of Sarasparilla has to be Two.

Three, or More Tublesponfuls—Three, Four, or More times a Day, to have any medical effect; and as a bottle of Sarasparilla only holds sixty-four spoonfuls, therefore, so many spoonfuls at a dose, and so many doses a day, will use up a bottle of it in

Four, Five, or Six Days, Which show that a bottle of Brant's Purifier, will last from Twelve to Sixteen Days longer than a bottle of Sixteen parilla; and if its daily medical efficacy (in small dose.) be as Portyfing and Healthe as the daily flarge dose; of Sarsaparilla, then it Proves that One bottle of this Portyfers is worth Three, Four, or Five times more than a bottle of Sarsanarilla.

parilla.

The above comparison does not yet abow the great difference in rathe between the medical efficacy of Brant's Purific and Satsaparilla. This will appear by the certificates of cures in Frant's Pamphlets, showing that ONE BOTTLE OF BRANT'S PURIFIER

nas more efficacy, and cures more impure blood disease, than TEN Bottles of Sarsaparilla.
If, then, One Bottles of Pusifies sells for One Dollar, One Bottle of Sarsaparilla should sell for Ten Ocats.

CANCEROUS SCROFULA Mr. J. B. HASKIN of Rome, Oneida Go., N. Y., who was cired of Serofula in 1818, swore to the facts as related below, in an action in the Surgeme Court in the City of New York, on the Saith of December, 1849, under the following circumstances: action in the SUPREME COURT in the CHY of New Logs, Online 22th of December, 1849, under the following circumstances:—
A person in the City of New York had manufactured and wended a surriour article of medicine, cailing it Brann's Indian Medicine, in imitation of the genuine medicine. He was prosecuted to obtain damages, in the Supreme Court of the City of New York, and the case was referred by the Court to J. S. Boswoni, Esq., 51 Liberty street, an eminent Lawyer, as Refere to take the testimony. The defendant pleaded in antipation of damages, that the Proprietors of Brant's Medicine had in come cases published False Statements of cure, and thus had committed a frand on the public, and, therefore, was not entitled to damages. The case of Mr. Haskin was selected as being false, and Hisskins was stoorn as a witness in regard, to the False as published, and his testimony store than Sustained the publication.

the Facts as published, and his testimony stores than sustained to the publication.

Mr. HASKIN sad, I am well acquainted with Brant's Purifying Extract—have used it for Set falls. About three years since, I was very saily affacted by it. I was strength by several doctors—they all raid-me I could not have—that no medicine could cure me. In consequence of the could not have—that no medicine could cure me. In consequence of the could not have—that no medicine could cure me. In consequence of the could be lifted up out of the place, or are not so eaten not round it, that it could be lifted up out of the place, or are not so eaten not round it, that it could be lifted up out of the place, or are not so eaten not round it, that it could be lifted up out of the place, or are not me to the property of the place, or are not mentioned and and out at the bole; an ulcer was on my shoulder as large, insued adjusted the second of the place of the place

Mr. Z. S. Terry, merchant, Byron, Genesce County, N. Y., wrote, Aug. 24. 1846: Hrant's Medicine is doing wonders here—it has cured a man of Consumption, that all the physicians had said must die. When he commented taking Brant's Medicine, he could not reise his had to his head; he bird at the lungs, and every symptom seemed to indicate that he must die; but, astonishing to all, he is now able to labor and rides all over the county. He was only fine bottles. I will also show you, when I visit the city of New York in the spring, what great things Brant has done for me. It has also cured a young lady of Consumption in Orleans county, which her father says no doctor could cure.

RAISED FROM THE GRAVE. Messrs. Fratt & Foster, merchants of West Cornwall, Conn., called on us at New York, April 21st, 1847, and said Brant's Balson had effected codes of such hapless cases of Consumption in their town, that now no other cough medicine could be sold there; that it had roised some as if from the grave—some that physicians and all the friends said must die. One gentleman, in particular, was so far gone that his physician told him it was success to take any more medicine. He then, when no hope was lift, began to take Brant's Balsam—got well—and is now as well as he ever was.

Doctors could give no Help.

Mr. Wim. D. Jennings, a merchant at Pierpont Centre, Ashtabula co., Ohio, wrote to us, October 2d. 1846, and stated a cure of Consumerton which the use of Brant's Indian Pulmonary Balsam had effected in Mr. William Crocket of an adjoining town. Mr. Crocket had sought relief from the best physicians and numerous medicines, but found none, for the tatal hand of that unrelenting monster Consumption, had taken fast hold on his vitala, and was so destroying and debilitating his body that he was a more skeleton. He was given up by his physician, and all friends as one who would soon inhabit a grave. But even institis is true, that the ties of only five buttles of Brant's 'Indian Pulmonary Balsam has unclinched the hand of the destroyer, and restored Mr. Crocket to health, and he is now a healthy, healty, sugged ham.

BLEEDING AT THE LUNGS. Mr. W. Chapman, merchang Middlebury, state of Vermont, stated to us that his son was afflicted with bleeding at the lungs, and after ital other remedies failed, and his physicians said he would die, he made pas of Renat's Indian Pulmonary Balsam, which soon restored him to health.

SHE COULD NOT SLEEP IN BED. Mr. James Ivins, a merchant and miller of Kirkland, Lake Co., Ohio, wrote. Sept. 18th, 1848, that Brant's Pulmonary Balsam was effecting some astonishing cures in that vicinity; one case in particular, was the wile of his head miller. She had been diseased for fourteen years, and her husband had spent almost all his earnings in paying doctors, and in trying all kinds of inedicines but to no purpose. She had not taid or slept in her bed for several years, in consequence of her distance has been diseased as well as the policy sleep in the bed for the paying as the policy sleep in the bed of the distance of the distan

FEMALE WEAKNESSES AND COMPLAINTS. No remedy offered to the public has ever been hely as certain and effectivel in restoring ALL the incidental weaknesses and wregularities of the sex, as Brant's Pulmonary Ballen. It makes no difference whether the derangement be suppression, excess, or other weakness—it REGULATES ALL, by strengthening the system, equalizing the carculation, and SOOTHING sind ALLAYING NERVOUS IRRITABIL TY. See Pamphietts.

CHANGE OF LIFE From the Girl to the Wessen, and the Wessen at middle age—the one case is accelerated, and the other so gradually suppressed as to prevent any of the fatal diseases that frequently arise in consequence of such change.

Nervous Diseases and Deraugements Cured without fall. DYSENTERY and SUMMER COM-PLAINT, in children and adults—and CHOLERA INFANTUM

No mother need ever mourn the death of her child by Cholera Infantum, while teething, if BRANT'S PUL-MONARY BALSAM he administered. It should be for such cases, given in larger than the ordinary doses.

Old Dr. Jacob Townsend THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla

Old Dr. Townsend is now about Toylears of are, and had long-been known as the AUTHOR and DISCOVERER of the GENVINE ORIGINAL "TOWNSEND SARSAPARILLA". Being jood, he was compelled to himit the manufacture, by which means it has been kepton of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed jo sore diseases, and eaved from death, trocamed its wonderful caimed its wonderful
HEALING POWER.

This GRAND AND UNEQUALLEUPREPARATIONs manufactured on the largest chale, and is called for throughout the length and breadth of the land, especially as it is found meapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the intest discoveres of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla foot, it is well known to medical men, contains many methods properties, and some properties which are iner or usaless, and others, which it retained in preparing a for wee, produce fermentation and acrd, which is injurious to the sratem. Some of the properties of Sarsaparilla are so viadile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreou, these volatile principles, which if you fin vapor, et as an enhalation, unlich heat, are the very essential medical properties of the root, which give to it all its value.

Any person can boil or siew the root till they get a dark colored liquid, which is more from the coloring mater to the root than from anything elec; they can then stain the insipid or vapid liquid, where we with sour molasses, and then call it "Sarsaparilla. EXTRAPARILLA. EXTRACT or SYRUP" But such is not the article known as the GENUINE OLD DR JACOB TOWNSENDS

SARSAPARILLA.

This is so prepared that all the inert properties of the sarticle of medical virtue is secured in a pure and concentrated form; and this is its rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the Cure of Innumerable Diseases.

Hence the reason buly we hear commendations on every stain.

Cure of Innaumerable Diseases.

Hence the reason why we hear commendations of ever side in its favor by men, women, and children. We find doing wonders in the cure of CONSUMPTION, DYSPEPSIA, and LUCENCOMPLIATIONAL AND COMPLIATIONAL AND CONTRACTOR OF THE NEWS AND CONTRACTOR OF THE PROPERTY OF THE PROPE

IMPURITY OF THE BLOOD. It passesses a may vellous efficacy in all compiants and sing from Indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, palpitation of the heart, cold clue et and hands, cold cluis and hot flashes over the body. It has not us equal in Colds and Coughs; and promotes easy expectoration and gentle per spiration, relaxing strictures of the lungs, throat and every other part.

But in nothing is its excellence more manifestly seen and

ecknowledged than in all kinds and stages of FEMALE COMPLAINTS. It works wonders in cases of Fluor Albus Falling of the Womb, Chistructed, Suppressed rating of the Womb, Chistructed, Suppressed, or Paints Menses, Irregularity of the mensional periods, and the like and is effectually rearing all the forms of Kidney Discour.
