Old Dr. Jacob Townsend THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla. Old Dr. Townsend is now about To years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARILLA." Being poor, he was compelled to limit us manufacture, by which means it has been kept out of market, and the sales circumscribed to there only who had proved its worth, and known its railur. It had reached the ears of many, nevertheizes, as those persons who had been heated of sere diseases, and saved from death, ore aimed its worderful.

HEALING DOWNER

This GRAND AND UNEQUALLED PREPARATION to manufactured on the largest scale, and is called for throughout the length and breadth of the laid, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes but for a hotter; because it is prepared on scientific principles by a scientific main. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sanapprilla. The Sansaparilla root, it is well known to medical main, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it, for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sanaiprilla are so volatite that they emirely evaporateland are lors in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these volatite principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which give to it all fix value.

Any person can boil or sieve the voca till they get a dark colored liquid, which is more from the coloring matter in the root than from anything else; they can then strain this insipid or vapid diquid, awheren who some molasses, and then call it "SarsafarRilla." EXTRACT or SYRUP."

But such is mot the article known as the GENUINE OLD DR JACOB TO WNSEND'S HEALING POWER. But such is not the erticle known as the GENUINE OLD DR JACOB TOWNSEND'S

SARSAPARILLA.

This is so prejuded that all the hert properties of the Sarsaparilla root are first removed, everything expands of becoming acid or fermentation, is extracted and rejected; then every partirle of medical virtue is sourced in a pure and concentrated form; and thus it is repelered incapable of losing any of its valuable and lieating properties. Prepared in this way, it is made the most powerful agent in the Cure of lanuamorable Diseases.

Hence the reason why we hear commentations on every side in its favor by men, women, and children. We find it doing wonders in the cure of SARSAPARILLA.
