

Latest from California.
The steamer Tennessee arrived at Panama on the 19th of February, and the Republic on the 20th—the latter with 200 passengers and one million of gold. The Panama arrived at Panama on the 21st with 50 passengers and one million in dust.

The scarcity of rain has very materially embarrassed operations in the Dry Diggings. Miners thus far have occupied themselves in throwing up dirt ready to take advantage of the first rain that visits them. It is a few days rain would enable them to get an immense amount of gold, which is immediately thrown into the hands of speculators, would give credit to the miners for some time, and have the effect of once reviving business throughout the country.

A large number of men are engaged with success in the country adjoining the small river, especially in Scott's and Soliman Creeks and its tributaries. The gold bluff excitement still continues, all of its intensity. The accounts published, supported by affidavits of those who have been upon the spot, and watched the recent appearances of the beach at different seasons of the year, have stirred up a sort of adventure to an extent hardly credited. Vessels of every description are carrying crews to the El Dorado. The Alta California expresses its belief that there is more reason in the reports concerning the richness of these sands than in those which have led most of the adventurers originally to California. The same paper says that "a great many quartz veins have been kept secret by persons who have been some time acquainted with their localities, in order to see what will be the action of Congress with regard to them, and avail themselves of the earliest information to secure the possession of the fruits of nature."

The San Francisco News says: We learn from our San Jose correspondent, that late on Sunday evening last, an express from the Mariposa reached the Governor, bringing the news of a disastrous engagement with the Indians at night. Mr. Savage attacked them one afternoon early last week, and had killed about thirty of their number with the loss of only two of his men. The party then encamped on the field, and during the night they were attacked by the Indians, with the loss of about sixty or seventy of their number.

The action of the government will no doubt be prompt and energetic; and thus alone the evil can be stayed.

The News has seen the richest and most wonderful specimen of Gold Quartz that has yet been discovered in California. The quartz was some 2 inches thick and over half foot in length. Large grains of pure gold covered it while on one side of a crystal formation, which seemed to ooze from the quartz presented the main feature of the specimen. This remarkable specimen was found in the Mariposa Mines, and is said to be of immense value.

The major Downer took out a lump of gold of the size of the Yuba, in the region of Grass Valley, valued at \$1,600. In about 5 weeks he dug out of the same hole between \$5,000 and \$8,000.

No U. S. Senator has yet been chosen for California. The choice of Senator lay between Fremont and Butler King. The election was to take place in 2 or 3 days. It was thought Fremont was gaining ground.

A bill to remove the capital of the State from San Jose to Vallejo, had passed the Senate, it had yet to be acted on in the House. The citizens of Santa Clara had offered to give the State \$50,000 worth of land provided the capital was retained at San Jose.

Temperance Meeting.

BIRAN ALLEN.
Forest Lake March 11th, 1851.

Ladies and Gentlemen:
I WISH to call your attention to the arrangements I have made, which is intended for your benefit as well as my own. On account of the increase in watch repairing I am unable to do it all myself, and as I intend to spend more of my time in trade, I have engaged a workman of the first in New York to spend his time with me, after a long stay of the first of April. In speaking of his capabilities I cannot say that he has worked in London, but his dancing class are ever and he is obliged to go into the country and do jobs at half price in order to get a living, but I can say that he comes recommended by the first workmen in our own country, and for his good operating I alone am responsible, so let us hear from you whenever there is occasion and you shall be satisfied to see if your wants are as numerous as the sands on the shore.
N. B. I shall soon be on hand with a fresh lot of goods, a description of which you shall have in due time.
Wm. W. TRICE
Montrose, March 10, 1851. 11c-1
