A Revolutionary Relic.

Doubtless every American has heard of John Champ of the Revolutionary army, and his daring though unsuccessful attempt to deliver the traitor Arnold into the hands of the Americans, that he was detained several months in captivity by the British, and finally made his escape and returned to Gen. Washington, who received him with the highest honors, and at his own request gave him an honorable discharge from the service, to return to the bosom of his family. History also informs us that he moved to Kentucky, where he shortly after died, but at what place his remains now repose I am not informed. Two or three years since, a bill was passed by Congress for the relief of his heirs, in consideration of his services, but to what amount I cannot say, having only seen the title of the bill.

Perhaps few know where the last resting place of the honored widow of Major Champ is; she who was his partner thro' so many toils and dangers. I have this day visited the grave where she sleeps, and where she will sleep until called by her master to join her consort in happier and better realms. Her grave is about seven miles from Columbus, Ohio, on the road to Dublin, Ohio. Her son, John Champ, Esq., a worthy scion of the old stock, now resides I believe in Illinois—he has erected a marble monument to the memory of his mother, which bears the following inscription:

PHEBE,
Wife of Sergeant-Major John Champ, of the
Revolution Army.
Died, May 13th, 1841,
In the 84th year of her age.

Gone from a world of ceaseless care and pain,
The wife, mother, friend, repose here;
But our loss we count her greatest gain,
Her virtue claims the tribute of a tear.

Thinking this might be of interest to your readers, I send an exact copy from the tombstone.—*Cor. Dollar Newspaper.*

Applicants for premiums on grain and potatoes are requested to give the mode of cultivation, and furnish the Society with undoubted proof of the quantity raised. Applicants for premiums on milch cows must state the greatest quantity of milk in any one week during the season, which must be marked on the card which contains the number. Persons presenting agricultural implements, or articles of mechanical ingenuity and utility, are requested to furnish the Secretary with a description of the article, as it is intended to publish a list for the benefit of manufacturers and purchasers. The foregoing premiums will be paid by the Treasurer, on the report of the Judges being declared by the President.

Farmers, their wives, sons and daughters, are invited to attend, and all others who feel an interest in the prosperity of the county. Let them attend these annual Fairs, and each one contribute something to give interest to the Exhibition, which is in promotion of the great cause of Agriculture, and as the Society offers such liberal premiums, it is hoped that all members will settle their small annual subscriptions, and each induce others to come forward in support of the Society, for it only requires a united effort to place Susquehanna in the front rank of agricultural counties in Penn'a.

A plowing and drawing match will take place, of which due notice will be given.

By order of Executive Committee.

Another mother rest
Of what was once a bright, glad babe!
And in her heart there's left
The wretched void which death has made.

Though sad are the living,
And lonely the desolate hearth,
There was joy in giving
The wasted clay to mother Earth.

For, long a mother's eye
Had watched the progress of decay,
And seen the sufferer lie
Tortured with anguish day by day.

And months and years rolled by,
And yet the infant suffered still,
While its low plaintive cry
Our hearts with agony did fill.

But slower through her veins
Moved the warm life-blood from her heart.
And now at length her pains
Have ceased through head and limb to dart.

A sufferer at rest!
A new born angel in the sky!
Another spirit blest,
Another shout of joy on high!

American Repertory of Inventions.

To Mechanics, Inventors, and Manufacturers—Seventh Volume of the

Scientific American.

MESSRS. MUNN & CO. American and Foreign Patent Agents, and publishers of the *Scientific American*, respectfully announce to the publicthat the first number of Volume VII. of this widely circulated and valuable journal will issue on the 20th of September. The new volume will commence with new type, printed upon paper of heavier texture than that used in the preceding volumes. It is the intention of the publishers to illustrate it more fully, by introducing representations of prominent events connected with the advancement of science; besides furnishing the usual amount of engravings of new inventions. It is published weekly in form for binding, and affords at the end of the year a splendid volume of over four hundred pages, with a copious index, and from five to six hundred engravings, together with a vast amount of practical information concerning the progress of invention and discovery throughout the world. There is no subject of importance to the mechanic, inventor, manufacturer and general reader which is not treated in the most able manner; the editors, contributors and correspondents being men of the highest attainments. It is in fact the leading scientific journal of the country.

The inventor will find in it a weekly list of American Patent Claims, reported from the Patent Office, an original feature not found in any other weekly publication.

ÆTNA INSURANCE COMPANY,

OF UTICA, N. Y.

E. H. HOTCHKISS, Agent for the above Company, now offers to insure both real and personal property for the citizens of Susquehanna County against loss or damage by Fire, on as favorable terms, and with as entire safety to the assured as can be effected by them in any other responsible Company whatever. I have obtained a License and am prepared to insure Farmers and others having unexposed risks, at such rates as render it morally certain that I will monopolize the business of the county if those having property to insure will stop to "count the cost." We insure all kinds of property, charging for each a fair proportionate rate for the risk run, and when losses happen, pay promptly. It is useless to insure in mutual companies that charge little or nothing for their policies. When you meet with a loss the pay is of the "same sort," and all the insured gets for his pains is a good bleeding in the form of *assessments* to pay the "losses and expenses" of the company in contesting his claim.

N. B.—We hold ourselves responsible for losses and *damages* by lightning, which is not done by most companies.

The best and cheapest family medicine in the world.

DR. ROBERTS'

COMPOUND SARSAPARILLA PILLS,

An Alterative, Tonic, Diuretic, and mild cathartic.

Price 25 cents per box, containing 50 pills.

Each box contains 50 pills, which makes them as cheap again as any other standard pill, and four times cheaper, and wonderful more effective in the cure of various diseases, as any of the Syrup mixtures sold; besides being a more convenient and proper form for use.

THE astonishing success which has attended the use of Dr. Roberts' Compound Sarsaparilla Pills is proof abundant and conclusive that they are truly

Nature's own Remedies,

and that they will cure all curable diseases more surely and more pleasantly than any other medicine now known. The pills are principally an extract of medicine, (their basis being the solid extract of Sarsaparilla, prepared in a superior manner,) but sufficiently cathartic to gently assist nature, without purging unnecessarily, which makes them particularly adapted to weak and enfeebled persons, invigorating and strengthening the body, purifying the system, and producing new rich blood and a healthy action of the stomach and liver.

They are acknowledged by our best physicians to be not only unexceptionable, but efficacious in the highest degree, and as a general

Family Medicine unequalled.

The Compound Sarsaparilla Pills are used for the permanent cure of those diseases which arise from an impure state of the blood, and vitiated secretions of the stomach and liver, viz. erysipelas, scrofula or kings evil, ulcers, scald head, obstinate cutaneous eruptions, blotches, boils, pimples, sore weak or inflamed eyes, glandular swellings, rheumatic affections, pains in the bones and joints, dropsy, dyspepsia, asthma, diarrhœa and dysentery, coughs, colds, consumption when caused by capillary obstructions of the lungs in persons of scrofulous constitutions, inflammation of the lungs, influenza, indigestion, headache, jaundice, fever and ague, chill fevers, and fevers in general, general and nervous debility, and diseases arising from an injudicious use of mercury, and whenever medicine is required to invigorate the system.

They are a purely vegetable compound, and may be used by persons of all ages. They are pleasant to the palate, and produce no nauseau, uneasiness or griping in their operation. H
