"THE WILL OF THE PEOPLE IS THE LEGITIMATE SOURCE, AND THE HAPPINESS OF THE PEOPLE THE TRUE END OF GOVERNMENT."

VOLUME 26---NUMBER 51. MONTROSE, PA., THURSDAY MORNING, DEC. 18, 1851. WHOLE NUMBER, 14[illegible]

The President's Message.

This important document occupies a large part part of our paper this week. We hope that it will illuminate the minds and gladden the hearts of our readers.—We commend it to them as President Fillmore's message to the two Houses of Congress. Most of its principles will receive general assent. We wish however with due reverence to dissent from its doctrines in relation to the Fugitive Slave business.

The Reports of the Secretaries of the different Departments we do not publish at present. But we present our readers with a general synopsis of those which have been published.

Montrose Lyceum.

The meeting of the Lyceum to organize for this winter elected officers for the ensuing and next term. The first public meeting will be on Friday evening of next week. There will be a discussion upon the following question, *"In case of another struggle of Hungary for independence, ought the United States to insist on the non-intervention of Russia?"* and a paper at that meeting. The succeeding meeting being the election meeting, the exercises will be different. An Inaugural by the President elect H. H. Frazier Esq., will be delivered, an orafion by H. H. Jessup, an essay by J. C. Miller and the paper by I. L. Little. The Executive Committee were instructed to invite gentlemen to deliver Addresses before the Lyceum at different times during the winter. There are a number of gentlemen whose services, we presume, can be procured, and thus the members of the Lyceum and the citizens of the vicinity be furnished an opportunity to spend some of the winter evenings pleasantly and with benefit. We will publish the list of appointments as soon as it can be made out.

☞ A VERY CURIOUS REMEDY FOR DYSPEPSIA, is Dr. Houghton's "Pepsin," or preparation of Digestive Fluid, obtained from Rennet, or the stomach of the Ox, which is advertised in our paper. The idea upon which it is based is a very natural and simple one, and yet it required an ingenious mind to make a practical application of it. The crop of the chicken has been used for the care of Dyspepsia, by old women, from time immemorial.

☞ We are under obligations to Hon. H. M. Fuller for an early copy of the President's Message and other important documents.

☞ Mr. Rasselas Searle, whose Mercantile Establishment was burned, goods, building and all at the fire in May, has resumed business on the corner of Turnpike and Chestnut streets. His goods are all new, and the assortment choice. He is anxious that the "Peoples" would visit him.

☞ F. B. Chandler has purchased the interest of B. R. Lyons in the firm of Lyons & Chandler. Mr. Chandler occupies the long store with goods and groceries. Mr. Chandler's chattels and prices are fit subjects of inspection.

Europe at this time.

We select the following passages from an interesting letter in the North American of Tuesday.

LONDON, Nov. 28th, 1851.

England is dull indeed, and all Europe appears perfectly quiet. But trouble is daily anticipated in France, and revolutionary movements are threatened in other countries. The crowned heads of Europe appear to be making active preparations for a long and severe political storm.—Austria and Prussia are endeavoring to negotiate large loans, whilst the Czar of Russia is urging the completion of railways, and thousands of carriages for the conveyance of his troops. Every movement looks ominous. The bloody scenes of '48, it is believed, are about to be re-enacted.

France, as before, will commence the tragedy. Italy will follow, and the people of the different States comprising the Germanic Confederation are expected to watch their opportunity. It is known that a conspiracy exists in Russia, and the volcanic fire once kindled in France, who can predict when and where it will be quenched! Happily, America cannot be disturbed by any of these predicted events, although her regular trade and commerce may suffer somewhat. The Liberty of Peoples will be the universal watchword, and the anticipated strife will undoubtedly be a terrible one; but it will probably be the last great struggle of peoples for independence. Every successive week discloses the means and the men by which the work will be carried on. The liberation of Kossuth has hastened the day for commencing that work. Kossuth is expected to return to England in two or three months from this date, and proceed to Belgium, from whence he will watch the course of events in Austria, Hungary and France. He is well aware that his presence in Europe will exercise an all-powerful influence upon the cause of liberty.

France has within a week narrowly escaped a revolution. It appears that the President of the Republic and his supporters have been unconsciously walking over a volcano. M. Cassaquac published an alarming article in the *Constitutionnel*, which occupied some half dozen columns. It is a remarkable document. It gives the secret history of a formidable combination which existed in Paris amongst the higher ranks of society, and professes to give the exact programme of intended revolutionary movements. It is stated that if the recent proposition of the questors, to place the military powers of the capital in the hands of the National Assembly, had been carried, then, according to the Cassaquac manifesto, Ministers were to have been arrested, and the President of the Republic was to have been removed to Vincennes, if he had not been shot in the streets! But France escaped as by a miracle the horrors of a civil war.

The vote of the Assembly turned the conspiracy against the conspirators at the last moment, and prevented a great disaster. But it is said that the scheme is only postponed, not destroyed. It is said that the Orleanist and Legitimist chiefs, although divided amongst themselves, are united in their hatred against Louis Napoleon, and that they are determined to get rid of him at all risks. Their object, as avowed by Cassaquac, is to create a Dictatorship; and the Dictator to be chosen by them is CHANGARNIER! It is said that the National Assembly will make another attempt to snatch the command of the army from the hands in which it is now constitutionally placed, and give it to General Changarnier. A collision between President Louis Napoleon and the Assembly is hourly threatened; but the President has the army and the people with him, besides which he has right on his side. If he should be defeated within the walls of the Assembly, and the defeat should be carried beyond those walls, the President would most surely resort to desparate measures, for he has told the Assembly so. The Minister of the Interior, in his reply to interpellations, addressed to the ministry concerning this plot, said, "*If proofs of the existence of this conspiracy had been in our possession, be assured, that whoever had been concerned in it, we should have performed our duty without stopping at any consideration.*" The *Moniteur* gave two versions of this reply, but their purport is the same. What will be the next move on the political board in France nobody pretends to predict.

The result of the recent elections in the United States has caused no surprise amongst those leading politicians in England who are known as free traders. *They contributed money liberally to bring about such a result.* This is no secret. Large contributions were made in England, for the sole purpose of influencing our elections. The result was predicted months ago. It was foretold here in London. A leading protectionist London journal warned you to look out for the influence of British gold. Yes, here, in England, where politicians know so well how much money to pay for votes—here, where whole boroughs are purchased for so many bags of British sovereigns—as at St. Albans—here money was raised to corrupt the American ballot-box, and turn the elections in favor of the Democratic party! The grand object, of course, was to prevent the possibility of a high protective tariff in the United States, so that English manufacturers could send their goods to our markets under a low tariff, and consequently enrich themselves at the expense of American manufactures! I seldom meddle with great political questions of the day, but such a mortifying fact as this should be printed in capitals, and sent with a warning voice through the length and breadth of the land. Has it really come to such a pass, that Americans can be bought in the market at so much per head, and that, too, by John Bull! It appears utterly impossible; nevertheless, facts are stubborn things.

Summary of Foreign Items.

The *Cologne Gazette* states, that at present the cabinets of Berlin and St. Petersburg are perfectly agreed on the Danish question.

The most important and it is to be hoped, the last of the State prosecutions of Naples, namely that of "the 15th of May," is now appointed to commence in open court on the 2d of next month.—The number of the accused is 89, though if previous accounts were to be believed at least 100 were undergoing the hard severity of the law. The Earl of Shrewsbury saw the King but was not afforded an opportunity of holding any political conversation.

The *Friuli* a paper published at Udine, in the Venetian territory has been prohibited, because it reported Kossuth's speeches in England and gave only a favorable coloring to those demonstrations.

The last note of Lord Palmerston to the Greek government, which contains severe reproaches, has produced great sensation at Athens. The Cabinet having differed as to the answer which ought to be returned, a ministerial crisis has ensued which was likely to end in the the triumph of the Russian party. M. Metaxa was expected to be charged with the formation of the New Cabinet.

Accounts from Toulouse of the 24th ult., announce that Marshal Soult's health is so much improved as to enable him to leave his bed.

The General of the French Army has concentrated, at Rome, all the garrisons of the neighborhood, and harranged the troops, declaring that whatever happens it will always be the duty of the French troops to protect the person of the Pope.

The Post Ampt Gazette, of Frankfort, States on authority of a letter from Vienna, of the 18th ult., that German Catholicism is to be forbidden in Austria.

One of the most gigantic engineering operations ever effected took place says Galignini, near Weschmetz, in the Italian Tyrol. A quantity of stone being required for the construction of viaducts and bridges for a railway it was resolved to use a huge rock, 360 feet high and 85 feet wide, which rose like a wall. In two places only was this rock connected with the chain of Alps. First of all it was entirely separated from the mountain, a very difficult operation, which occupied 800 workmen for some time; then seven or eight large openings were effected at the base, so that the immense mass was supported on columns; and then trains of gunpowder were placed in each opening. Everything having been prepared, fire was set to the trains. In eleven minutes a frightful explosion took place, and the mass came down. The fall shook the earth for a distance of nearly two leagues and the pieces of rock spread over nearly ten acres.

A letter from Palermo, of the 2d ult., states that the Neapoliton government intends to increase the export duties on sulphur and oil.

The committee for centralising German emigration, has published a notification which refutes the idle reports of a free passage to America from the ports of Hamburg and Bremen, reports which had seduced a number of poor peasants in Pomerania to leave their homes.

It is stated that the English public, show an increasing disposition to avail themselves of submarine telegraph. Messages both from London and Liverpool have been transmitted on the same day to Paris, Havre, Vienna, Trieste, Hamburg and Ostend, and in one instance a communication was forwarded to Cracow, to be despatched thence by mail to Odessa.

The two reputed sons of the late Lord Aldborough are banished forever from the Tuscan States.

The Assembly of Citizens of Bremen have resolved to send, in the name of that city, a stone with a suitable inscription, for the monument about to be erected at Washington in honor of Washington.

The *Hampshire Independent* states as a positive fact, that Kossuth so entirely disregarded all personal considerations and comfort, that having brought a small fund to England for his personal necessities, he has, in consequence of the disappointment in promised subscriptions in England to the Kossuth fund, devoted the whole of those resources to the patriotic objects above alluded to, and left England with literally only £10 in his pocket.

The marriage of General Cavaignac will take place at the end of the year. The General is to marry M'dlle Odier, daughter of M. Odier, formerly peer of France, regent of the Bank of France, and deputy of Paris for many years.

DENTAL SURGERY.

C. D. VIRGIL, tenders his professional services to the citizens of Montrose and vicinity, designing a permanent location among them. An exclusive devotion of several years to the study and practice of Dentistry, encourages the hope of giving entire satisfaction in every department of this highly useful and popular art. Probably the amount of individual and aggregate suffering arising from decayed teeth is much greater than from any other cause, and persons whose teeth are becoming carious, should be admonished to have them attended to in season. Nine tenths of the anguish distracting, which rends the nerves amid the tossings and writhings of a sleepless night, might have been prevented by seasonable precaution. Although a method has long since been discovered by which a tooth that has been a long time painful may be filled and saved, for, doubtless, a number of years, yet it is much the wiser course to get it plugged before it has ached. Dr. V. respectfully urges attention to these facts and considerations, and for the comfort of the afflicted would further say, that he is in possession of a secret by which TEETH THAT HAVE ACHED MAY BE FILLED AND SAVED without any pain to the patient. If you doubt it, make the trial. Give me a call friends, and be assured neither high prices, nor any other conceivable obstacle shall prevent a bargain.

Wyoming Seminary,

KINGSTON, LUZERNE CO. PA.

THIS Institution has one of the most desirable locations in Northern Pennsylvania. Kingston is a quiet, pleasant and salubrious village, one mile West of Wilkesbarre, and accessible by daily stages from all parts of the country. The school has now been in operation seven years, during which its patronage has been liberal and constantly increasing.

Through the munificence of Wm. Swetland, Esq. an additional Seminary building 40 by 40 feet, and three stories high, has just been completed, and by the liberality of Hon. Ziba Bennett, the school is now furnished with a valuable and extensive library, entirely new. The Chemical, Philosophical and Astronomical Apparatus of the Institutirn is regarded, by all who have knowledge of it, as of a high order and ample for full experiments in Natural Science.

The Board of Instruction for the ensuing year is as follows, viz:

REV. REUBEN NELSON, A. M. Principal.
REV. YOUNG C. SMITH, A. M. Teacher of Ancient Languages.
PHILIP T. MYERS, A. B., Teacher of Mathematics.
Rev. C. H. HARVEY, Teacher of Natural Science.
JAMES W. WESTLAKE, Assistant Pupil.
Miss MARY DIETZ, Preceptress and Teacher of Modern Languages.
Miss ESTHER PATRICK, Assistant Teacher of Modern Languages.
Mrs. JANE S. NELSON, Teacher of Drawing and Painting.
Mrs. S. A. GARDNER, Teacher of Music.

All of the above teachers are employed in that school the whole of each day, except the Teacher of Drawing, and Mr. Westlake. The former devotes such a portion of each day to her class as may be necessary, and the latter teaches on half of each day. The public will perceive that by this arrangement the school is under the supervision and instruction of a very full board of teachers, and the trustees confidently believe that no pains will be spared to promote the most thorough improvement of all the pupils.

The necessary expenses at this Institution are moderate. Tuition exclusive of the ornamental branches, from $3 to $5,50 per quarter. Board $1,50 per week, washing 37 1-2 per dozen, and fuel $2,50 per annum.

The discipline of the Institution combines mildness with firmness, inculcating sound, moral and religious principles, persevering industry, strict order and correct deportment.

The present term of this school will continue till the 23d of Dec. next. Students are admitted at any time, but the most suitable time for entering is the beginning or the middle of each term. Those who may wish to attend the school, through the remainder of the Fall, and throughout the winter, would do well to enter as soon as the 20th or 23d inst. There will be a vacation of two weeks at the close of the present term. The next term consists of thirteen weeks, commencing January 7th, and closing April 7, 1852.

Catalogues of the Seminary, and any information relative to it, can be obtained by addressing the Principal or either of the undersigned.

D. A. SHEPARD, President.

The Latest News by Express!

THE subscribers would inform their friends and the public in general, that they have just returned from New York with a large and well assorted stock of GOODS, embracing every [illegible]

BOOT & SHOE LAST

that is called for in this market, and have made arrangements with the manufacturers for such additional supplies, whenever wanted, and at such prices as will enable us to sell more cheaply than ever before sold in Montrose. Being practical boot and shoe makers, our opinion is that we know what will please the people better than those who are not in the business. We would therefore deem it unnecessary to say, instead of giving a list of what we have, that

Competition is defied.
Inspection solicited.
And satisfaction guaranteed.

Important to Shoemakers.

We keep also on hand hemlock leather; French and American Calf Skins, Linings, Bindings, Shoe-nails, Tacks, Shoe-knives, Peg-floats, Hammers, Pincers, Tacks, Kit and French Shoe Tools of every description, Boot Crimps, Wax, Shoe-thread, Shoe-Heel-ball, Blacking, &c.

Shoemakers are respectfully solicited to examine our stock before purchasing, as our findings are all selected by one who knows the business. Store directly opposite the Hotel. Don't forget the place.

A. MERRITT,
G. W. PARTRIDGE.

The subscriber would also thank his friends for the liberal patronage he has received for the last four years, hoping that by strict attention to merit a share of their patronage may be given him. He will keep his Eating Saloon and Oyster Room open as usual.

Sept. 18, '51—tf A. MERRITT.

WATCH REPAIRING

AT THE OLD STAND AGAIN.

THE subscribers, having resumed the [illegible] named business under the name of [illegible] Mr. Alfred Sayre, respectfully solicit [illegible] customers in that line, a return of their favors. Mr. S. is an experienced and skilful workman, having learned his business and [illegible] worked in some of the best shops in New York city, is competent to do any kind of work that may be entrusted to him. *Promptness, moderate charges*, and the *guaranty* of all good Watches, sold by him, will secure a full share of patronage.

Gold Rings made to order, and all kinds of jewelry repaired.
