Butter in Winter.

desired shade of yellow can be given r butter, without in the least injuring e, by grating an Altringham carrot milk and straining into the cream. this kind of carrot because it is ored and consequently less of the quired. A little practice must reg- quantity. The yolk of a fresh egg, n to two quarts of cream, will pro- ame results.

uld add to the above, from the Ru- *Yorker*, that when carrots can be n sufficient quantities, they had ed to the cows than be grated in This will give milk equal in col- or to that made from clover pas- mmer. No food is more appropri- use of the cow than the carrot;— od health, sleek coat, and a plen- of rich milk.

[*Working Farmer.*

AND INDIAN BREAD.—If our lady l comply with the directions given lowing recipe, we will guarantee od bread as ever was broken by To two quarts of fine indian meal g water enough to wet the same; iciently cooled, add one teaspoonful f a pint of yeast, one teaspoonful ts, one half teacup of molasses; and ugh to form into a loaf, (it should eaded hard,) when light bake two a well heated oven, (it should be til brown.)

ANTIDOTES.—For oil of vitriol, or s, give large doses of magnesia and equal parts of soap and water. alic acid, give an emetic of mustard r, afterward mucilages and small audanum. hium or laudanum, give an emetic of and use constant motion, and if pos- stomach pump. enic, doses of magnesia useful, but repared hydrated oxide of iron is

eds taken into the stomach, drink antity of vinegar and salt. rosive sublimate, give the white of d with water until free vomiting ses.

ECKS ON WORKING OXEN.—These when working in wet weather, or with The remedy is, rub with a heal- ction. The preventive is, good application of grease; or a decoc- ite or yellow oak bark applied to d parts. Or, a better preventive is or leather cap to protect the neck om the storm.

UNG CATTLE AND HORSES.—Mix y one part of salt with four parts s, and give the mixture to differ- of stock, summer and winter. It her appetites and tends to keep healthy condition. It is said to nst botts in horses, murrain in ot in sheep.

FRESH FISH.—Never put them at. Let the lard, butter, or oil be d to a degree just short of burning. plunge in the fish—the greater the t, and the quicker the fish are e better they will be, as they give n fat instead of absorbing that in are cooked.

ARE OF THE ORCHARD.—The orch- productive of good, fair fruit, re- fed as much as does a field of e soil of each requires that the abstracted by the crops shall be The soil should be kept clean, and ioorating influence of the sun, e rain, and the air. The bark of uld be kept in a healthful condi- ing, when necessary, and by al- ing.

e gunpowder in a tumbler of has settled pour off the clear remainder is tooth-powder.

AND BEANS.—Mix equal parts of eans and hominy together, and nd you will have an excellent

and lard keep better in tin than are.

The Last Leaf.

BY O. W. HOLMES.

I saw him once before,
As he passed by the door,
And again
The pavement stones resound,
As he totters o'er the ground
With his cane.

They say that in his prime,
Ere the pruning-knife of time
Cut him down,
Not a better man was found
By the crier on his round
Through the town.

But now he walks the streets,
And he looks at all he meets,
Sad and wan,
And he shakes his feeble head,
That it seems as if he said,
"They are gone."

The mossy marble rest
On the lips that he has prest
In their bloom,
And the names he loved to hear
Have been carved for many a year
On the tomb.

My grandmama has said—
Poor old lady, she is dead
Long ago—
That he had a Roman nose,
And his cheek was like a rose
In the snow.

But now his nose is thin,
And it rests upon his chin
Like a staff,
And a crook is in his back,
And a melancholy crack,
In his laugh.

I know it is a sin
For me to sit and grin
At him here;
But the old three-cornered hat,
And the breeches, and all that,
Are so queer!

And if I should live to be
The last leaf on the tree,
In the spring,
Let them smile, as I do now,
At the old forsaken bough,
Where I cling.

Good Advice.

Keep aloof from quarrels, be neither a witness nor a party.

None have less praise than those who hunt for it most.

If a man begin a fool, he is not obliged to persevere.

If your money is your god, it will plague you like the devil.

The heart has its reasons, which reason does not apprehend.

Close thine ears against those that open their mouths against others.

We have very little faith in those who have never been imposed upon.

Lies are hiltless swords, which cut the hands that wield them.

Few have been taught to any purpose who have not been greatly their own teachers.

A life of full and constant employment is the only safe and happy one.

Many a man has lost being a great man, by splitting into two middling ones.

The reason why so few marriages are happy is, because young ladies spend their time in making nets, and not making cages.

In an article on the Australian gold mines, in the London *Review*, the writer gave a rich and ludicrous account of the practical equality which the abundance of gold mines makes between masters and servants. The following is an illustration:

One stockmaster, whose hands had deserted him, went to the diggings to induce them to return and shear his flocks, and made up his mind to submit to their own terms.

"Well, mastsr," said the fellows, "we'll return and do the job, provided"—

"Yes, yes," interrupted the master joyfully, "I agree,"—

"*Provided we have the wool!*"

As he was turning away, they offered their old master *fifteen shillings* per day to stay and be their *cook*

TEMPERANCE LECTURE.—You're a clever enough kind of little fellow, sonny; but you ain't been eddicated to the law as I have;—so I'll give you a lecture. Justice winks at vot it can't see, and lets off all vot it can't catch. When you wnat to brek it, you must dodge. You may do what you like in your own house, and the law don't know nothing about the matter. But never go thumping and bumping about the streets, when you are primed and snapped. That's intemperance, and the other's temperance.

☞ NEGRO ELOQUENCE.—A Boston dandy black, stepped into a provision store in that city to buy some potatoes; before purchasing, he gave the following truly eloquent description of their nature:—"De tater is inevitably bad, or inwaribly good. Dare is no mediocrity in the combination ob de tater.—De exterior may indeed appear remarkably exemplary and beautisome while de interior is totally negative, but, sir, if you wend the article on your own recommendation, knowing you to be a man of probability in all your translations, why, sir without furder circumocution I take a bushel."

DIDN'T KNOW HIS OWN SON.—There is a good story told of Jarvis; the celebrated painter. Starting out one day, with two or three companions for a spree, the ever observing eye of the painter was attracted by some boys actively engaged at play, and particularly by one of those geniuses born to rule, who was leading on their evolutions. "Come here my man," cried Jarvis, 'what is your name?' 'My name is John, and I am not your man,' quickly answered the boy. 'John! why that is my name,' said Jarvis, 'what is your other name?' 'Westley.' 'John Westley! that is my name too: any more names?' 'Jarvis,' said the boy. 'Jarvis? John Westley Jarvis? Why who was your father?' was the earnest inquiry. He's Jarvis, the painter; and mother says he's a very bad man, too.'

☞ My young friend,' said a minister to a boy at camp meeting, 'do you ever think of a future state?' 'No, I never meddle with State affairs, tho' my brother John is a polititioner.' 'Do you ever think of dying?' 'No but I guess our Sally did when she had the measles, for she turned all sorts of colors.'—Whose boy are you?' When any body axes you that, tell 'you don't know.'

☞ Two sons of Erin were moralizing over the late election.

'Bad news, Pat, says Mike.

'Faith an' you're right there,' responded Pat.

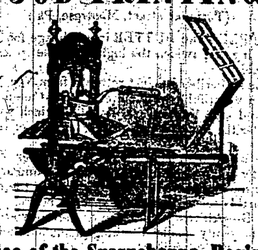
'What would old Ginerral Taylor say to this if he was alive now?' ejaculated Mike.

'Be gorra,' replied Pat, 'he'd say he was glad he was dead!'

IMPORTANT.—It is said the devil has many imps—we presume that the following are among the number: Imp-perfection, Impetuosity, Imperlinence, Imp-lacability, Impudence, Imp-urity and Imp-iety.

Great calamities teach us many beautiful lessons, and reveal to us much we should never have seen from the common level of life.

JOB PRINTING



Office of the Susquehanna Register.

HAVING recently added to our assortment of JOB TYPE several new and beautiful fonts new *RULES, BORDERS, ORNAMENTS,* &c we are now prepared to execute every kind of

LETTER-PRESS

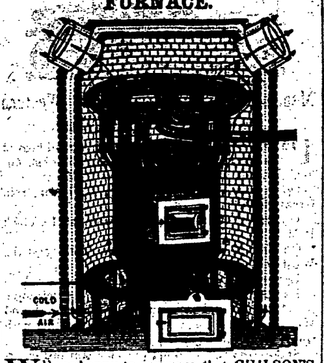
Montrose, October 20.

CHILSON'S PATENT!

World's Fair Prize-Medal FURNACE.



WE are happy to announce that CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented, is declared by high and reliable authority to be the

Best Furnace in the World.

Not only is this furnace and our system of Ventilation proved and declared to be the best mode of Warming and Ventilating DWELLINGS, CHURCHES, ACADEMIES, SCHOOL HOUSES, COURT AND STATE HOUSES, HOSPITALS, STORES, &c., in nearly all the cities and towns in the United States, but is meeting with equal favor in the Canadas, England, Russia, and other Foreign Countries. It has been awarded at the recent Fairs in this country GOLD AND SILVER MEDALS, FIRST PREMIUMS, and lastly, the GREAT PRIZE MEDAL at the WORLD'S FAIR, LONDON. It has been subjected to the most rigid investigation & severe practical tests, and unanimously declared the best. (See the printed reports of the Fairs, also City and State public Committees on Public Buildings.) We have more than twenty-five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common frail hot-air furnaces seven years since, under the settled conviction that red-hot iron furnaces burn the oxygen out of the air, producing an unhealthy, scorching, disagreeable odor, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots which permits the poisonous gases to escape and mingle with the air; and then the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his efforts to secure a HEALTHY, ECONOMICAL and DURABLE APPARATUS, for thoroughly Warming and Ventilating buildings, has been entirely successful. They possess the following advantages: purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals or wood, all equally well—flues easily cleared out—great durability of furnace, not liable to repairs for a life-time; perfect safety against setting buildings on fire in which they are located; may be set in low cellars. Sizes for all classes of buildings. Also four sizes of new and superior PORTABLE FURNACES.—Dr. Clark's Improved BOSTON SCHOOL STOVE.

REGISTERS, of all descriptions; HOT-AIR GRATES; ROOM VENTILATORS, &c.

Emerson's celebrated VENTILATORS for Roofs of Buildings and smoky chimneys, &c. COOKING RANGES, with or without Bath Boilers and Hot-Air Fixtures. All sizes and styles of those beautiful

MIRROR MARBLE MANTELS, Parlor & Chamber Frame Grates,

Of rich European and American styles. Also a splendid article of LIVERPOOL SOFT COAL GRATES, for Parlors, &c.

Architects, Builders, and the public generally, please examine our extensive assortment. Personal attention given to warming and ventilating buildings in any part of the country.

GEORGE FULLER.

Montrose, November 11, 1852.

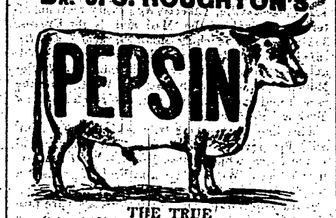
1851, by J. S. HOUGHTON, M. D., in the Clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S



THE TRUE

DIGESTIVE FLUID,

OR, GASTRIC JUICE.

Prepared from *RENNET,* or the fourth *STOMACH OF THE OX,* after directions of *BARON LIEBIG,* the great Physiological Chemist, by *J. S. HOUGHTON, M. D.* Philadelphia, *Pa.*

This a truly wonderful remedy for *INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION,* and *DEBILITY,* Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of *Pepsin,* infused in water, will digest or dissolve, *Five pounds of Roast Beef in about two hours,* out of the stomach.

Pepsin is the chief element, or Great Digesting Principle of the Gastric Juice—the *Solvent of the Food, the Purifying, Preserving, and Stimulating* agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an *artificial digestive fluid,* precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of *Indigestion* and *Dyspepsia* are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing case sof *Debility, Emaciation, Nervous Decline,* and *Dyspeptic Consumption,* supposed to be on the verge to the grave. The Scientific Evidence upon which it is based, is in the highest degree *curious* and *remarkable.*

Scientific Evidence.

BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membiane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would be in the human stomach."

☞ Call on the agent and get a descriptive Circular, gratis, giving a large amount of scientific evidence similar to the above, together with reports of remarkable cures, from all parts of the United States.

As a Dyspepsia Curer

Dr. Houghton's *Pepsin* has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement, but authenticated certificates have been given of more than two hundred remarkable cures in Philadelphia, New York and Boston alone These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to bilious disorder, liver complaint, fever and ague, and the evil effects of quinine, mercury, and other drugs upon the Digestive Organs, after a long sickness. Also for excess in eating, and the too free use of ardent spirits. It also reconciles Health with Intemperance.

Dr. Houghton's *Pepsin* is prepared in powder and fluid form—and in prescription vials for the use of physicians.

Private Circulars for the use of Physicians may be obtained of Dr. Houghton or his agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a secret remedy, no objection can be raised against its use by physicians in respectable standing and regular practice *Price,* ONE DOLLAR per bottle.

☞ OBSERVE THIS.—Every bottle of the genuine *Pepsin* bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, *Philadelphia, Pa.* Copy-right and Trade-mark secured.

☞ Sold by all Druggists and Dealers in Medicines. ABEL TURRELL, Druggist, &c.

Montrose, Agent for Susquehanna County

Heed, and be Wise.

INDEPENDENT of *drummers, boasters,* or the *few disaffected* who I am obliged to call on to pay debts of *long* standing, I have a handsome stock of GOODS on hand, among which may be found super and common Broadcloths, Cassimeres, Satinets, Carpeting, Sheetings, Batting, Buffalo Robes, Beautiful delains, Silk, Plush and other Caps, Fresh Teas, Oils, Paints, Fluid, School Books Iron, Nails, Steel, Molasses, Syrup, Crockery, &c. &c. which I will sell as cheap at least as the same qualities for the same pay can be had about these diggins, or elsewhere among the nations.

Fall & Winter Arrangements for 1852—3.

Union Hall Wholesale & Retail

Clothing Warehouse,

Corner of Fulton and Nassau streets, New York

(Established A. D. 1830.)

THIS immense establishment, which occupies three large six story buildings, combines six leading distinct departments, sub-divided into various minor branches, each having its separate corps of salesmen. These departments are distributed over six floors, and the system upon which they are conducted insures prompt and satisfactory attention to the wants and wishes of every purchaser. The stock of Ready Made Clothing is the most comprehensive, varied, and fashionable in the United States, and the apparel made to measure cannot be surpassed in style, workmanship or material, by any house in New York, while as regards cheapness, in every department, comparison is invited, and competition defied.

Organization of the Establishment.

The entire system of the concern is under the general superintendance of Mr. J. Souder, whose long experience and thorough knowledge of the various branches qualify him admirably for the situation of manager. The first floors are devoted wholly to the Retail business, and are stocked with an unsurpassed assortment of Fashionable & seasonable clothing for gentlemen and boys. S. H. Noe, Director of the gent's department. The boy's department comprises a complete assortment of the most tasteful and elegantly cut suits for boys ever offered in this city.—W. K. Taylor, superintendant. The second floor is the Custom Department, where all styles of fashionable and serviceable goods are kept, and gentlemen's and boy's Clothing made to measure by the best artists.—None but Cutters of the very first class are employed. Managers—James T. Barry and William Helon. The third and fourth floors are appropriated to the wholesale branch. Buyers will here have an opportunity of selecting from a stock, the extent and variety, the beauty and cheapness of which must be seen to be appreciated. This department is under the direction of A. Phillips, with several assistants. The fifth and sixth floors form the manufacturing portion of the establishment—superintendent, J. C. Parr. Purchaser of Trimmings, Fancy Goods, &c., T. Scoles.—P. L. Rogers purchaser of Cloths, Cassimeres, Vestings, &c.

☞ No advertisement can convey an adequate idea of the vast business done at Union Hall, of its extensive stock; its order and regularity, and the cheap prices which laid the foundation of its popularity, and continue to sustain and increase it. The Proprietor, under whose own eye the whole system works so satisfactorily, respectfully invites buyers and the public generally, to come and see for themselves.

P. L. ROGERS, Proprietor.
J. SOUDER, Superintendent.

Nov. 11, 1852. 3m.

PLOW SHOP.

NEW ESTABLISHMENT.

M. & E. MOTT would respectfully inform the public that they are manufacturing Blatchley's Celebrated Plows. They also keep constantly on hand:

Side Hill, Wayne county, and Idea Plows, Cultivators, Dog Churns, Sleigh & Cutter Shoes, Plow Points

of various patterns too numerous
