

News and Nations

Mrs. Stow has met with a very enthusiastic reception at Glasgow, Scotland. Coal has been discovered in the Rocky Mountains, in ample quantities for future use.

The Baptists are erecting a new college at Fairfax, Franklin county, Va. A Professorship of Agriculture is to be established therein, with an endowment of \$20,000.

The Austin (Texas) State Gazette of the 16th ult., says the Indians were becoming decidedly hostile and daring in their depredations on the frontier.

A lawyer in Easton recently cowhided a Methodist minister at that place, for marrying a couple against whose union Blackstone had objected.

Why was Sampson the greatest actor that ever appeared on any stage? Because he "brought down the house" when the audience was composed entirely of enemies.

Of the one thousand men who formed the New York regiment in the Mexican war, only sixty are now alive, and but about forty are able to earn their living. This is a sad commentary on war.

The British House of Commons is now high up by a second ceiling of ground glass, through which the gas burners shed a milder light. The ground glass ceiling is ornamented with colored wreaths of flowers.

The Pope has presented the Emperor of Austria, through the Cardinal and Nuncio, a book taken from the blessed remains of the Apostle Peter by the hands of his holiness himself. What a magnificent piece of dentistry!

The Lead Mines which were discovered a few years ago below Conary, Pa., and which were at that time worked to some extent, have been purchased by a company of gentlemen, who intend going into the lead business.

Touching the office of the New York Collectors and its profits, the Providence Journal says, "we suppose that, one way and another, a man may get \$50,000 a year out of the office, and keep clear of the State prison."

The Inspectors of the Eastern Penitentiary have published their annual report, from which we learn, that out of the 153 prisoners discharged during the past year, no less than 25 were upon pardons granted by Gov. Bigler.

It is better to throw a guard about the baby's cradle, than to sing a psalm at the baby's death bed; to bring a horse to a stable, than to burn the barn; to burn the barn, than when the heat has scorched the heart of the aged bosom.—Theodore Parker.

During the last eleven years Boston has expended for school purposes \$2,810,892.50. Notwithstanding the excess of population in New York, Boston, during the last five years, has expended a large amount for educational purposes than that city.

A Catching Disease.—The Springfield Republican says: "Out of forty persons, male and female, employed in a single boot and shoe factory in this city, we are informed that twenty-five have been married within the last year. Think of that, old bachelors, and wives!"

At Barnstead, N.H., at the Presidential election, fourteen persons voted, whose names were more than twelve hundred years old. In the same town a lady was baptised by immersion in a pond, by a Baptist clergyman, on her one-hundredth birthday.

Henry S. Etch, Esq., of San Francisco, has offered a prize of ten thousand dollars for the most comprehensive treatise upon the construction of a railroad from the Atlantic to the Pacific ocean, together with collateral subjects—the future trade of the Pacific and East Indies, and the wealth of California.

A western editor says, if a cotemporary were faced at his sister again, he must make his mind to wear a slice of coat plaster over his nose for the next three months. It writes us that this is only a roundabout way of saying that "the party of the second part" must look out for what vulgar people would say "a lot over the smeller."

Keeping Boys In.—By the reports of the police courts of Louisville, Ky., it appears that Judge Jones has instructed the police to arrest all boys perambulating the streets at a late hour at night, unless they can show good cause for being out. His honor says that, if parents cannot keep their children at home, he will take care of them.

Spirit Rappings.—We understand that some of positive rappings have occurred recently in the villages of East and West Virginia in Walworth county, in consequence of excitement about the spirit rappings. One lady has been sent to an Eastern Lunatic Asylum, and two men are kept in chains. Sub-Paste, the Spiritual Banker at Chicago, has retired to his farm in McHenry county, with a spiritual wife, leaving his family at Chicago.

A girl seventeen years old was bitten by a rattlesnake on the left ankle. The wound was a half an inch deep. Dr. F. A. Acheison, who describes the case in the Southern Medical Journal, visited her and found her leg swollen, with her face swollen, and her mind wandering. He placed her in a hot bath, and administered whiskey and carminatives, until she had taken three courses of the first and eight grains of the latter; no intoxication followed, and she was cured.

The emigration from Europe to the United States, it is said, is likely to prove extraordinary within the coming six months. It is estimated that some 200,000 men, women, and children will leave England and Ireland, and that this vast army will be increasing to nearly half a million by adventurers from Germany and other portions of Europe. A full impulse is likely to be given to this living tide, by the strikes in the United States, and the extravagant reports that are published in foreign journals as to the demand for labor and the high rates of wages in this country.

The Detroit Tribune of the 12th inst., has the following in relation to the extent of the steam sailing business in that section: "The underground railroad is in active operation, running its trains regularly nearly every night. About three o'clock this morning a train arrived here with 28 goods and 200 passengers in the shape of men, women, and children. It is not being safe for them to remain in the city until daylight, in consequence of the great rewards offered for their capture, (about \$9,000) were taken from those who place them in safety in the free States, and the extravagant reports that are published in foreign journals as to the demand for labor and the high rates of wages in this country."

"I Don't" such is the true meaning of the word "Peppit," or of the two Greek words from which it is derived. This is the significant and appropriate title of the new Digest of the Digest of the Digest, prepared by Dr. J. S. Houghton, of Philadelphia, from the fourth stomach of the Ox, for the cure of indigestion and Dyspepsia. It is nature's own remedy for an unhealthy stomach. No part of man can equal its curative powers. It renders Good Eating perfectly consistent with health. See the figure of the ox in another part of this paper.

MAGIC!—ALMOST.

The cream being placed within the Chair, You see to give the crank a turn. When you see the crank a turn, 'Practical Change' behold the wonder! In sober prose, simply turning the crank of my Newly-Invented Chair, for a few minutes—whereby the two tasks there attached rise and fall alternately, speedily manufacturing your cream into Butter—is a very different thing from the old, tedious mode of butter-making. Such as desire to witness the action of this laboring Chair, can do so by calling at the store of I. L. POST & CO., at Montrose. The above Chair will be manufactured to order by Montrose, April 12, 1853. R. A. SMITH.

NEW MILFORD

Day and Boarding School.

THIS Institution is located in the village of New Milford on the Lackawanna a Western Railroad, and is a first-class building, situated at Great Bend. The situation is unusually pleasant, healthy, and in every respect favorable for a boarding school. A new building, now erecting, will accommodate the school, will furnish a number of suitable rooms for recreation and study. Students are required to attend one of the village churches on the Sabbath, and every proper effort will be made to bring their minds under the influence of religious truth, and guide them in the way of truth. Parents having children to educate from home are invited to visit our school, and in case they prefer to send their children to school, we are prepared to receive them in our care of fidelity upon our part in the work of the institution. The year is divided into two terms of twenty weeks each, commencing the first Wednesday in May and the second in September, and ending in the middle of the term. Tuition per Quarter of Ten Weeks. Primary Class, \$1.00 Common English Branches, \$2.50 Higher English, \$3.00 Mathematics and Languages, \$5.00 Instruction in Music at the usual charge. Bills payable the middle of the quarter.
