A Sad Case. We are concerned about our woodpile. As the cold weather comes on it is getting a sickly look. It seems to be going into a decline, which we fear will end in consumption.

Disinterested Advice. You had better subscribe for the Register. We will not say that this would be disinterested advice, coming from us; but if those who have read the paper since it came into our hands, and approve its character, would give such advice to their neighbors who do not read it, it might materially aid us.

New Publications. Putnam's Monthly. The October number of this magazine well sustains the position it has already acquired as the best original magazine published in the United States.

O. O. Conner, the refractory District Attorney of New York, still retains his place, and the Administration would rather not remove him, but hope he will remove himself.

A rolling stone gathers no moss. A very doubtful adage. We have just seen in a county paper the marriage of Peleg Rowlinstone to Miss Ophelia Moss.

The Rev. Sidney Smith observed that a railway which seemed to him to be something like the screen an attorney would give when first the devil caught hold of him.

At Camden, N. J., Nathaniel J. Bird, convicted of bigamy, and who acknowledged that he had married twenty wives, was sentenced to ten years hard labor in the penitentiary.

SALE INTO SLAVERY.—A singular instance of a colored man selling himself into slavery was brought out in the Mayor's Court, in Richmond, Va., last week. A man named Jones, a witness in a case of larceny, stated that he was the slave of a Mr. Corington, while the book of the Hustings Court showed him to be a free man.

ENGLISH OPINION OF AMERICAN STATE PAPERS.—The London Reviewer remarks: "From the time of Alexander Hamilton to that of Edward Everett, the reports and correspondence sent out by Congressional committees and heads of departments has been of such singular merit as to fix the attention of society in Europe, wherever the English language is familiarly read."

AMERICAN CUTLERY.—A recent dinner of the cutlers of Sheffield, England, at which some of the most distinguished men of Great Britain were present, the Master Cutler, who is also the Lord Mayor of the city, made the striking admission that, as a general thing, American manufacturers of cutlery more uniformly use good materials than those of Sheffield.

THE NATIONAL DEMOCRAT declares that the Washington Union has become the organ of a disorganizing abolition faction. One of the Union has for a long time been known at the North as a free-soiler; but that the other editor, and he a Southern man, should suddenly lend himself to a disorganizing abolition faction, has excited a surprise, a sorrow, and indignation, and a disgust, which have never been experienced in the history of the Republic.

A SUGGESTION.—M. Galliard, in his last letter from Paris to the Courier des Etats Unis, says that Mr. Soule has gone to Madrid with a court dress made of velvet, and embroidered with silk, but Mr. Belmont's taste being different he will sport a blue coat with American buttons at the Court of the Hague.

JUDICIAL ELECTORS.—Hon. James M. Porter has been elected Judge of the District composed of Carbon, Monroe, Pike, and Wayne counties, by a very large majority. Hon. M. M. Dimmick of Monroe county, was also nominated, and as his friends claimed for him was the regular nominee, but Judge Porter's eminent legal abilities were sufficient, it seems, to break the charm of a nomination. This judgment has long been a troublesome matter, and we are glad to see it settled, by placing a man in the position of the bench.

Silver at Lake Superior.

BRITISH FAITH IN AMERICA.—The European Times of a late date closes a leading article with this language: "The jaundiced politicians of England viewed, year ago, with alarm and terror the success of the Democratic principle on the Western shores of the Atlantic; but much of this fear of liberal institutions in their most expansive form has long since disappeared, and even the most stationary politicians in this country, so far from dread of America, have learned to respect her."
