Nebraska.

The following short history of Nebraska will serve to give our readers an idea of the extent of the territory, and the immense inroads which will be made upon the cause of freedom by the passage of the bill. We copy it from one of our exchanges.

The immense territory of Nebraska—the Indian name for the great river running through it under the French name of La Platte—has the States of Iowa and Missouri on its Eastern limit, and on its Western the Rocky Mountain Ridge, which separates it from Utah. On its Northern limit is what is known as the North Western territory, and a portion of Minesota—and its southern boundary is the same parallel of latitude as that of Missouri, 36 degrees, 30 minutes North. —The territory is at its eastern extremity, about 350 miles from North to South—at the Western end, about 200 miles, and having an average width of about 240 miles.

It is estimated that there are about 12,000 Indians in the country. They are the Cherokees, (in part) the Osages, the Cherokee Reservation, Wyandottes, Pottowatomies, Ottawas, and Chippewas, Peorias and Kaskaskias, Wears and Pinkashaws, Shawnees, Kansas, Delawares, Kickapoes, Iowas, Sack and Foxes, Half Breed, Ottoes and Missourias.

At Forth Leavensworth, on the western side of the Missouri river, there is a reservation of nine square miles belonging to the United States Government. Here is centered the entire white population of the territory, which varies according to the season of the year, and the demands of the army. It comprises officers, soldiers, civilians, in the service of the government, mechanics, farmers, teamsters, &c. The whole population varies from four to twelve hundred persons, and ordinarily the number does not exceed six hundred. About seventy votes were polled last year for a delegate to Congress. None of these votes came from Fort Leavensworth, and most of the white residents did not vote at all.

THE CONSOLIDATED CITY.—We learn from a report made to the Legislature in 1850, by Mr. Fernon, that the area of the old city proper is 1402½ acres; Southwark, 505¼ acres; Northern Liberties, 320 acres; Spring Garden, 1100 acres; Kensington, 1238 acres; Moyamensing, 1486 acres; seven boroughs, 5384 acres; twelve townships, 63,000; total, 74,239 acres. The estimates vary from this amount to 77,000 acres. The city extends from Darby creek on the south to Poquessing creek on the north, a distance of twenty-two miles, and up the Schuylkill measuring from Kensington about ten miles. It is estimated that there are one hundred and twenty square miles in the city. According to the calculation of the Consolidation Committee in November last, the debt of the city, county and districts, was $14,961,735. To this $4,500,000 since contracted, should be added—making the aggregate near nineteen millions and a half. The property of the various corporations in stocks, real estate, &c., is valued at about $14,000,000. This pays an annual interest on the amount. The actual burden is therefore about five millions and a half. The population at this time is probably 475,000. The whole of taxable property at last assessment was $155,260,000.—Philadelphia Register.

THE PRESIDENT'S POSITION.—The Richmond Enquirer says that:

We speak not without authority, when we assert that in respect to the proposition for the repeal of the Missouri restriction, the administration occupies no neutral or adverse ground. The amendment of the Nebraska bill, which restores to the South, the rights that were surrendered by the compromise of 1820, has the express and emphatic sanction of the President, and the whole power of his administration is pledged to its support.

CHANGE OF GAUGE OVERCOME—THE ERIE FOLKS IN AMAZEMENT.—By a new arrangement of car wheels, they can be accommodated to railroads of different gauges. The Cleveland *Herald* mentions the arrival in that city of a train of eleven cars, freighted with hogs, which were loaded at Indianapolis, and transported in the same cars from Indianapolis, and fifty-four miles over the four feet eight and a half inch gauge, to Muncie, and thence 227 miles over a four feet and ten inch gauge, to Cleveland.

THE PEOPLE'S MEETING.

To Protest Against Slavery in Nebraska.

The citizens of Susquehanna county who are opposed to the violation of the "Missuri Compromise" and the extension of Slave Territory, are invited to meet at the Court House in Montrose, on Wednesday the 8th day of March next, at one o'clock in the afternoon, to utter their STERN PROTEST against the threatened breach of Faith, and their determined hostility to any encroachment by the Slave power on the rights of Free labor in the Territories secured by that compact.

The Hon. David Wilmot has consented to be present and address the meeting. Judge Avery of Owego, and Hon. Henry M. Fuller of Wilkesbarre, have been invited, and are also expected to address the meeting.

"I Digest!" such is the true meaning of the word "Pepsin," or of the two Greek words from which it is derived. This is the significant and appropriate title of the true Digestive fluid or Gastric Juice, prepared by Dr. J. S. Houghton of Philadelphia, from the fourth stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is nature's own remedy for an unhealthy stomach. No art of man can equal its curative powers. It renders Good Eating perfectly consistent with health. See the figure of the ox in another part of this paper.

Fire! Fire!

TWO tremendous fires have broken out at the Steam Mill, where they have been rapidly burning more than two weeks, in spite of all efforts made by the down town fire company to extinguish or impede their progress. Though they have plied their machine with all their power and skill, the greater the effort made to stop the fires the more rapidly they burn, and we have not the least doubt that in spite of all opposition these fires will continue to burn for years, heating iron and steel to forge all kinds of edge tools, ox shoes, horse shoes, carriage irons, and job work of every description. And the proprietor of these fires would further inform the public that for the past year, ending the 1st of February, he has done the edge tool work in Hawley's shop on Main street. He now keeps a first rate stock of all kinds, and pledges himself to use no other. And for shoe corks, instead of the rotten American steel and Sweed's iron, he uses the best of German and English Blister and cast steel. The German and English Blister casts 16, and cast-steel 22 cts. per pound, and American steel only 7 cents; yet he charges no more for shoeing than those who use the American steel and Sweed's iron toe corks.—All work will be done with neatness, to order, and warranted. Now if you wish to save 20 per cent. call on D. H. HICKOK.

Poetry and Pictures.

"Lives of great men oft remind us
We can make our lives sublime,
And, departing, leave behind us
Pictures which will last some time!

"PICTURES, which perhaps another,
Sailing o'er life's stormy main,
Some forlorn and wayworn brother,
Seeing, *can go and get some more*
just like them!"

The above was sent us by a friend, and, being *right to the point*, we give our readers the benefit of it, hoping that they will heed the wise suggestion and "go and get some more just like 'em."

Our stock of cases, lockets, keys, pins, &c. is varied and complete, and we are anxious to set them all with "natural" pictures, and get the PAY for so doing.

Our motto is, "good work and fair prices."
