HOW TO SECURE A OZONE.

A test package of Ozone, containing a sufficient quantity to preserve one thousand dozon eggs, or other articles in proportion, will be sent to tny applicant on receipt of \$2. This package will enable the applicant to pursue any line of tests and experiments he desires, and thus satisfy himself as to the extraordinary merits of Ozone as a Preservative. After having thus satisfied himself, and had time to look the field over to determine what he wishes to do in the future—whether to sell the article to others, or to confine it to his own use, or any other line of policy which is best suited to him and to his township or county—we will enter into an arrangement with him that will make a fortune for him and give us good profits. We will give exclusive township or county privileges to the first responsible applicant who orders a test package and desires to control the business in his locality. THE WAN WHO -ECURES CONTROL O. ZON FOR ANY SPECIAL, TERRITORY WILL ENJ YA MONOPO Y WHICH WILL EXRELY ENRICH HIM. Don't let a day piese until you have ordered a Test Package, and if you desire to secure an exclusive privilege, we assure you that delay may deprive you of it, for the applications come in to us by scores every mail—many by telegraph. "First come first served" is our rule. If you do not care to send money in advance for the test package, we will send it 0. O. D.; but this will put you to the expense of charges for return of money. Our correspondence is very large; we have all we can do to attend to the shipping of orders and giving attention to our working agents. Therefore we cannot give attention to letters which do not order Ozone. If you think of any article that you are doubtful about Ozone preserving, remember we guarantee that it will preserve it, no watter what it is.
