THE CAYOTE.—The cayote is about two-thirds the size of a yellow dog and looks like a second-hand wolfe in straitened circumstances. He bears about the same relation to the genuine wolf that the buzzard does to the eagle or that a chicken thief does to a modern bank cashier. He has a perpetual air of being ashamed of himself or of something he has done. As you catch a glimpse of him, trotting away from one mott of timber to another, looking back a newly varnished carriage every spot over his ears, and with his tail farled aroundhis left leg, he looks as if he was varnish should be washed with clean aware that the police had a clew to his water and a sponge, and dried with a soft whereabouts and were working up his cloth and rubbed with a chamois leather. case. No one ever saw a fat cayote. You may catch a young one, civilize varnish. But it is best to wash off the him as much as you can, feed him on mud before it is dry. Water should canned groceries, and put a brass collar never be allowed to dryupon the varnish; on him, but his ribs will still be his it should be dried off with a soft cloth, most prominent feature, and at the sponge and leather.

shadows are not at all dangerous. ed by a full-grown texture of muscle and There is no fight in them. They are sinews to support them they are liable fatal to sheep when the cayote majority to become strained, causing spavins or is forty to a minority of one sick sheep, hone enlargements that will destroy but otherwise they are quite harmless. their future value and usefulness. Any What they lack in courage they make imbecile can break down the colt, but it up in craftiness. They will twist them- requires good sense to build it up after selves into all manner of grotesque it has been crippled by ignorant taskpostures, and tumble around in the masters. It is not worth while to risk long grass, that the rabbit or young the experiment of converting sound colts fawns may, by curiosity, be induced to into invalids, when they will live longer come within reach of their sharp fangs. and perfore more service if suffered to COMPRISING This last playful characteristic of the ripen into the fully-matured horse becayote was described to us by a friend fore being put to hard work. who was a New York newspaper reporter, and acquainted with a cayote that resided in a cage in Central park. His cayote has a small head and fox-like built the capitol of the nation, the ears, but the biggest end of him is his place was little more than a wilderness voice. The mellifluous, silver-toned of forest and swamp. FARM NOTES.

Poor shelter, care and feed will, in few generations, make ecrubs of the finest thoroughbred stock. Thoroughbred scrubs are little better than native scrubs, and the farmer who raises either will always be poor. Breeding the best stock and keeping it in the best possible manner pays the largest profits.

THE KING FORTUNE-MAKER.

ZONE

A New Process for Preserving all Perishable Articles, Animal and Vegetable, from Fermentation and Putrefaction, retaining their Odor and Flavor.

"OZONE--Purified air, active state of oxygen."--Webster. This Preservative is not a liquid, pickle, or any of the old and exploded processes, but is simply and purely OZONE, as produced and applied by an entirely a new process. Ozone is the antiseptic principle of every substance, and possesses the power to preserve animal and vegetable structures from decay. There is nothing on the face of the earth liable to decay or spoil which OZONE,

the new Preservative, will not preserve for all time in a perfectly fresh and palatable condition. The value of OZONE as a natural preserver has been known to our abler chemists for years but until now no means of producing it in a practical, inexpensive, and simple manner have been discovered.

Carter, a raftsman. The weather was very cold, with a keen, northwest wind. While going along the street Carter met a poorly-clad little boy, who was running along, crying bitterly. Carter asked him what was the matter, and the little lad sobbed out: "I'm cold." "Come with me," said Carter, and the limits, and when the wives of the early bought him a suit of clothes and a pair of mittens. He then asked the boy his name. "Aaron Dunlap," was the reply. Carter was thunderstruck. "Aaron Dunlap," his method, can be shipped to Europe, subjected to atmospheric there would not the place of the world. The place of the worl

the boy replied. "Well take me to your mother, then, as quickly as you spite of its mud, had some claims to spite of its mud, had spite of i can," said Carter. The boy took him consideration as the capital of a great to his humble home, and when Carter nation. The war over, Washington of Ozone to undertakers.

entered the house the boy's mother began to grow. Improved methods of There is no change in the slightest particular in the appearance of any article thus preserved, and There is no change in the signiest particular in the process for first of the process is so simple that a child can operate it as well and as successfully as a man. There is no expensive apparatus or machinery required.

A room filled with different articles, such as eggs, meat, fish, efc., can be treated at one time, with-A room filled with different articles, such as eggs, meat, usu, etc., can be treated at one time, without additional trouble or expense.

Sorin fact, there is noting that throne will not preserve. Think of everything you can that is liable to sour, decay, or spoil, and then remember that we guarantee that Ozone will preserve it in exactly the condition you want it for any length of time. If you will remember this, it will save asking questions as to whether Ozone will preserve this er that article—it, will preserve any thing and every thing you can think of.

There is not a township in the United States in which a live man cannot make any amount of money, from \$1,000 to \$10,000 a year, that he pleases. We desire to get a time man interested in each county in the United States, in whose hands we can place this Preservative, and through him secure the business which every county ought to produce.

A FORTUNE awaits any man who secures control of OZONE in any Township or County.

man, working at harness-making in Herkimer, N. Y. He practiced writing it hour after hour, and his old partner said a year or two ago that he had seen as much as 200 sheets of foolscap covered with the attempts. His signature looks like a piece of curled up cloths line.

A queer complaint, as Eastern readers will-look at it, it appears in a recent issue of the Santa Fe New Mexican. "A man who sends his son to one of the New York and who sends his son to one of the possible schools?" it seves illook conscious which we had seen anywhere on the continent. It is, in preserved any constitution of the santa feet package was his first investment. Which gan, has cleared \$2,000 in two months. \$2 for a test package was his first investment. Where the prescription of the proposition of the prescription of the proposition of the prescription of the proposition of the proposition

FORTUNE WITH OZONE. a specialty.

A test-package of Ozone, containing a sufficient quantity to preserve one thousand dozen eggs, or other articles in proportion, will be sent to tny applicant on reccipt of \$2. This package will enable the applicant to pursue any line of tests and experiments he desires, and thus satisfy himself as to the extraordinary merits of Ozone as a Preservative. After having thus satisfied himself, and had time to look the field over to determine what he wishes to do in the future—whether to sell the article to others, or to confine it to his own use, or any other line of policy which is best suited to him and to his township or county—we will enter into an arrangement with him that will make a fortune for him and give us good profits. We will give exclusive township or county privileges to the first responsible applicant who orders a test package and desires to control the business in his locality. THE MAN WHO SECUREN CONTROL OF "ZON" FOR ANY SPECIAL TERRITORY WILLENDY Y A MONOPPO Y WHICH WILL SURELY ENRICH HIM.

Don't let a day pass until you have ordered a Test Package, and if you desire to secure an exclusive privilege, we assure you that delay may deprive you of it, for the applications come in to us by scores every mail—many by telegraph. "Farst come first served" is our rule

If you do not care to send money in advance for the test package, we will send it C. O. D; but this will put you to the expense of charges for return of money. Our correspondence is very large; we have all we can do to attend to the shipping of orders and giving attention to our working agents. Therefore we cannot give attention: to letters which do not order Ozene. If you think of any article that you are doubtful about Ozons preserving, remember we quarantee that it will preserve u, no matter what it is.

REFERENCES: We desire to call your attention to a class of references which business success and highest commercial merit could secure.

Brefer, by permission, as to our integrity and to the value of the Prentiss Preservative, to the following gentlemen: Edward C. Boyce, Member Board of Public Works; E. O. Eshelby, City Comptroller; Amor Smith, Jr., Collector Intornal Revenue; Wulsin & Worthington, Attorneys; Mrith H. Harrell and B. F. Hopkins, County Commissioners; W. S. Cappeller, County Auditor; all of Cincinnati, Hamilton county, Ohio. These gentlemen are each familiar with the merits of our Preservative, and know from actual observation that we have without question

MAIN ST., TOWANDA. Towanda, Oct. 31st. 1891. KENDALL'S)

3 THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. Also excellent for human fiesh. READ PROOF BELOW.

FROM COL. L. T. FOSTER Voungstown, Ohio, May 10th, 1880.

Dr. B. J. Kendall & Co:—I had a very vanible Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a small one on the other which made him fery lame; I had him under the charge of two veterinary surgeous which failed to cure him. I was one day residing the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to try it, and got our druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I used it according to directions and the fourth day the colt ceased to be lame, and the lumps have disappeared. I used but one bottle and the colts limbs are as free from lumps and as smooth as any horse in the state. He is entirely cured. The cure was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it.

Very Respectfully,

Kendali's Spavin Cure ON HUMAN FLESH.

Patten's Mills, Wash'ton co., N.Y., Feb.21, Al.
DB: B. J. KENDALL, Dear Sir:—The particular
case on which I used your Kendall's Spavin Cure
was a malignant ankle sprain of sixteen ments
standing. I had tried many things, but in vainYour spavin Cure put the foot to the ground
again, and for the first time since hurt, in a
natural position. For a family liniment it excels anything we everused.

Yours truly,
REV. M. P. BELL.
Paster of M. F. Church, Patissa Mills, N.Y.
