Youngstown, Ohio, May 10th, 1880.
Dn. B. J. RENDALL & Co:—I had a very simble Hambletonian colt which I prized very highly, he had a large bone spavin on one lontant a small one on the other which made him very lame; I had him under the charge of two veternary surgeons which failed to cure him. I was one day reading the advertisement of Kendal's Spavin Cure in the Chicago Express. I determined at once to try it, and got our druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thought in the lumps have disappeared. I used but one, buttle and the colts limbs are as free from lumps and as smooth as any horse in the state. He is else tirely cured. The cure—was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it.

Very Respectfully.
