sticura OLD ENOUGH TO GET MARRIED I have been struck with the many old people we see in Bermuds. Whether the genial climate and the uneventful life many of them lead tend to prolong their days, I will leave for abler heads than mine to discuss. A few weeks since a colored woman died at the ripe age of one hundred and ten! Some

doubts having been thrown on this subject, spoke about it to the rector of the parish which she lived, Rev. George Tucker, who said that although he could not find Mr. Albert Kingsbury, Keene, N. H., troubled with bad humor on hands and neck, caused by lead poisoning. (He's a painter.) At times it would break out, crack open, and the skin separate from the flesh in large pieces, suffering great continual itching and stinging. Purchased your remedies; used Cuticura Resolvent internally, and Cuticura Soap externally, and in less than three months effected a complete cure, and has not been troubled since. Corroborated by Cullard & Foster, Druggists, Keene, N. H. any record of her birth or baptism, there sould be no question that she was very old, even if she had not attained the great age that had been accredited to her. She was born, of course, in slavery, and in her youth was nurse-maid to a little daughter of her master, who died two years ago at the age of 95. As, in the reminiscence of her life, she often spoke of carrying "little Missie" in her arms to school, she must of course have been several years the oldest. This same clergyman lately married a colored couple whose united ages were 171 years, the bridegroom being 96 years, the bride

SALT RHEUM.

CUTICURA Mormon wagons took sunflowers along with them on their way to Utah, and Iowa farmers have had a hard time fighting the pest. A single Scotch thistle planted in Victoria—the Scotchmen there had a con-

gratulatory dinner over it twenty years ago -has covered tens of thousands of acres and been the destruction of farms. The scattered grain emptied from the bags of German troop-ships in the Revolution knocked miltions off the value of our grain crop for all time to come by bringing the Hessian fly. A careless man set out a French grape-cutting a few years ago with phylloxers on it, and the pest is now sprinkled along the Pacific coast, creeping inland. Its ravages in France have cost \$400,000,000. A man with a taste for peppery greens planted wa-ter cress in New Zealand, and the little plant has spread so that the local legislature has to appropriate a round sum yearly to improve the water cress out of existence and the water courses. A kindly misguided man brought over to New York a basketful of sparrows, not twenty years ago, and the little wretches have already driven half our song birds into the woods. In South America the same thing was done, and the hirds are cleaning out the fruit crop. Natural selection is occasionally wiser in finding

KEEP IT TO YOURSELP You have trouble—your feelings are injured, your husband is unkind, your wife frets your home is not pleasant, your friends de not treat you fairly, and things in genera move unpleasantly. Well, what of it? Keep it to yourself. A smoldering fire can be found and extinguished; but when the coals are scattered who can nick them up? Bury your sorrow. The place for sad and distrusting things is under the ground. A cut finger is never benefited by pulling off the plaster and exposing it under somebody's eye. Tie it up and let it alone. It will get well sooner than you can cure it. Charity covereth a multitude of sins. Things thus covered are often cured without a scar; but once published and confided to meddling friends, there is no end to the trouble they may cause. Keep it to yourself. Troubles are transient, and when a sorrow is healed

and passed, what a comfort it is to say:

"BLOOD ATONEMENT."—The Mormon doc trine of "blood atonement" is one of the strangest features of that extraordinary religion. The law, under which so many murders have been committed, reads thus: "There are sins which men commit for which the blood of Christ cannot atone; but when the man's own blood is shed and the smoke thereof ascends as sweet incense to heaven, then they are remitted." "If we love our neighbor as ourselves we ought to be willing to shed his blood for salvation's sake." If these odious rascals were only willing to shed their own blood as freely as that of those for whom they would thus admit to the privilege of self atonement, it would be well, for it would help to solve the muchvexed problem of how to get rid of them. But they are cowards as well as bullies, and impostors, and always shed the blood of others rather than their own.
