Boston and Vanderlyn from New York. The latter was aided by Burr, and afterward painted that pair of portraits (Burr and Theodosia) which gave him permanent distinction. Alston, who name stands next in the list of voyagers, was the first that comnanded the admiration of foreign connoisseurs. He and Irving were in Europe at the same time, and each gave distinction to America, the one in art and the other in litrature. Church, however, has awakened greater admiration abroad than any other American painter, and Ruskin says of his Nisgara" that "in the rush of the waters and the fine atmospheric effect, it realizes he idea of sound as well as motion."

CONSUMPTION. It is said that 50,000 people die annuall a the United States alone from this disease

In some sections of the country one death in every three is from Consumption. This can be, and should be avoided; our people are too careless about an ordinary cough or are too careless about an ordinary cough or cold, and other symptoms of throat and lung affections that lead to this disease. You should arrest it while it is in the germ. Two or three doses of Dr. Bosanko's Cough and Lung Syrup will relieve an ordinary cough or cold. It does not dry up a cough it is not be in the cough. like many preparations on the market and leave the disease behind it, but acts directly on the throat and bronchial tubes, removing all the phiegm and morbid matter that accumulates in the throat and lungs. It allays all irritation, and renders the voice clear and distinct. Sold by C. B. Porter's Ward House Drug Store. july271y.

Da. B. J. Exemate, Dear Sir:—The particular case on which I used your Kendall's Spavin Cure was a malignant ankle aprain of sixteen months standing. I had tried many things, but in vain. Your Spavin Cure put the foot to the ground again, and for the draw time since burst, in matural position. For a family liniment it excels anything we ever used.
