It will be called "The Thinker's Tide Mill," and, like all of his stories, while neither are unusual nor overdrawn, will be vivid in style and exciting in incident. A few days ago Mr. Robert Innes, the well known and skillful tanner, shipped to Chicago from one of the best of leather. On his return he sharpened a knife carefully and stole toward the bedroom, or into the bedroom where his two children were sleeping and was about to offer them up for a sacrifice when he was seized and bound. He is the father of the two notorious Claffin girls, Mrs. Victoria Woodhull and Tennessee Claffin, both of whom are living with him in London. The board of directors of the Lehigh Valley Railroad last Tuesday declared their usual quarterly dividend and they have increased the rate from 2 1/2 per cent. This is a great surprise to those who know that the Lehigh Valley was earning enormous sums of money, but it will be an agreeable one to the stockholders who are largely scattered over the Lehigh Valley, and who consist largely of women and guardians of orphans, who have invested in the stock of the Lehigh Valley. The Lehigh Valley is one of the most prosperous of American railroads, and under its wise management bids fair to continue right along in that prosperity.—Mauch Chunk Gazette.

A game of base ball between the College Nine and Lehigh School Nine, on Tuesday last week, resulted in a victory for the Lehigh School boys by a score of 20 to 13 in seven innings. On the Wednesday morning following the boys composing the G. S. Nine were out for a game of ball on the nine of the handsome young ladies in the school pinned button-hole bouquets on the laps of the victors coats. After that the college nine must never again "tackle" the Lehigh School boys unless they want to be defeated by a score of about seven hundred to nothing. For when beauty comes to the aid of strength, it is a matchless force for her scepter. Already the hollers are brimmed with amber hair and the hill tops crowned with blue smoke. The sun looks languidly through dream-clouds; a yellow fall falls here and there, and some proud birds fly southward over the first frost making the red berries and the hazelnuts in the hedges, or yet the same catches some blood-drops from the heart-wound of fainting summer, and the aster looks with blue and wistful eyes from the woodland path.

On Wednesday Sept. 20th, Rev. Myron Rockwell completed his 78th year. He is the only surviving member of the family of brothers and sisters. He was next to the youngest. For several years the Rockwell family has made the Elder's birthday a time to come together for a days enjoyment. So on this occasion they met at the Elder's house in Blossburg, on Monday, Sept. 18th, and were present. Among them were: Rev. Myron Rockwell, the Elder (7) and the family of his children. Then Daniel Watson, Esq., who had been the officiating minister at the wedding of the late Elder, was followed by Elder Amos Mansfield (82 years of age) who had been acquainted with Elder R. for 40 years. He said he had served Christ over 70 years and could now sincerely recommend Him as a good Master. Of Elder R. he said he is "not" in his way (Elder R. is a Methodist, Elder R. is a Baptist) and he was quite sure that he was "not" in his heavenly way from that of the devil could not turn him from it.

Hon. Delos Rockwell was then called upon, he said the ministers had stolen his speech yet he made a very pleasant and well received speech, which was read by Rev. Myron Rockwell. He paid a glowing tribute through his address to the fact that in his calling 3 generations were represented. Of the families of the 10 children all are accounted for except that of Hiram who went to Ohio, when it was West, and there is no one left. He is bringing the family back to a high standard.—Athens Gazette.

His friends will, if necessary, have him placed under proper treatment. L. Edward Manley went to New York Monday to begin his second term term of lectures at a medical college. Rockwell held a public address at friends in this vicinity, after an absence of several years.

—The fair of the Troy Farmers' Club for the year 1882 was the most successful one in the history of the society. The exhibits and arrangements were decidedly better than in former years, and the interest of the public seemed to be on the increase. If anything can be judged by the attendance and the satisfaction generally expressed we may say that the fair has entered upon a new era of prosperity, and it is reasonable to hope for a more enthusiastic meeting next year than even the present.

RINGHANT & WILLIAMSPORT. Let the following telegram in the daily papers of Saturday last: ALBANY, N. Y., Sept. 22.—Among the companies which filed certificates of incorporation in the Secretary of State's office, outside of New York, were the Ringhant & WilliamSPORT, a corporation with a capital of \$100,000. The length of the railroad is to be twenty miles, and it is to run from Ringhant to a point on the division line between New York and WilliamSPORT, and thence by the most feasible route to WilliamSPORT.

This looks like a revival in a tangible form of the project of building a railroad from Ringhant to WilliamSPORT, via WYXOC creek, crossing the Susquehanna at Towanda, thence by the valley of the Towanda creek to Canton, thence to WilliamSPORT.
