The big gentleman was lolling in a big chair tilted back against the front of a big. hotel. He glowered at the little boy, and grabbed him by the arm: [6]

"Look here, you little rascal, what do you speak in that kittenish way for? That won't sell papers. That won't sell anything Why don't you speak right up and sing it out, 'Hero's your penny paper!' Yell it.
Then people will think you've got something. Your sneaking little 'please, sir,' won't catch on in this loud world. Perhaps you are half-starved at home. Maybe you are kicked. But don't bring that out into the streets. It won't help you any. Be brave and cheerful. Rustle round, little fellow, and chirp it bold, and sometime you will be a man with a sheep farm or a silver mine, or strike it in Congress. Here, how many have you got? Three, eh? Well, here's a half dollar for 'em; and don't you over mew round any more. Mewing don't catch mice."-Cineinnati Saturday night.

hove been deceived by worthless nostrums. Parker's Ginger Tonic has cured many in this section of enervous disorders, and we recommend it heartily to such sufferers .-

CAUSE OF CHILLS AND FEVER.

Speaking of the prevalence of malaria, the correspondent of the Hartford Times says: Professor Chandler, the head of our New York Board of Health, long ago undertook to find out exactly what produced chills and what remedies could be applied at the root of the disease—quinine was all very well, but the sight of a whole people dosing themselves for a trouble unknown forty years 924 CHESTNUT STREET, ago and evidently due to some error of modern life, was not pleasant. So letters were sent to physicians all around New York and the united wisdom of the profession brought into play. The verdict was, on the part of the City men, sewer gas coming into houses through imperfect drains and pipes. The country doctors found the chief cause of evil in the proximity of cess-pools and wells. The result of the wide publication in New York of reports upon malaria and the sudden fashion among physicians of attributing almost every ailment from birth to death to malaria, has given rise to a new profession -that of Sanitary Engineer-and added a business to the City's industry, before the peculiarities of which the plumber turns pale with envy.

A Varied Performance. Many wonder how Parker's Ginger Tonic can perform such varied cures, thinking it essence of ginger, when in fact it is made from valuable medicines, which act beneficially on every diseased organ.

THE "JOHNNY SLAUGHTEB" COACH.-Among the coaches being brought up into Montana from the Black Hills country by Gilmer & Salisbury, there is one built on the old Concord style and lined with plate iron, which was used to carry the treasury box in. On one side of this coach there are ten buckthe Spring of 1867. The coach has been named "Johnny Slaughter," the name of the driver who was shot from a box at that time and killed. The robbers failed how ever, to recover the treasure, as the driver fell from the seat, and the horses, which were going fast, ran into the station before stopping. If this coach could talk it could tell many interesting adventures during the early mining days of the Black Hills.—Salt

THE RIGHTS OF TRAVELERS. The decision, just reported, of the New York Court of Appeals in the Auerbach case is full of interest for those travelers by rail

who avail themselves, as so many do in summer, of "limited" or excursion tickets. The plaintiff, Mr. Auerbach, of St. Louis, bought coupon ticket to New York which bore upon its face the condition that the purchaser hould "use it on or before September 26, 1877." In the course of his journeying Mr. Auerbach used up one coupon after another until he found himself, on the afternoon of the 26th, on the New York Central train at Rochester with the coupon from that city to New York. The coupon was accepted and punched by the conductor as the several stations were passed where that duty is perormed, until the train reached Hudson hortly after midnight. The conductor then leclared that the ticket was no longer valid, demanded fare for the rest of the trip, and upon Auerbach's refusal, put him off. Thereupon he brought suit for damages, and it is the final decision in his favor the report of which has just been published. The court holds that the "use" of the ticket on the afternoon of the 26th, when he offered it to the conductor, was the "use" contemplated by the restriction. When this evience that he had paid his fare was presented the ticket had performed its office If the company meant by its limitation that the passenger must finish his journey before

the expiration of the day fixed, they should have said so. The chief interest in this decision is. of course, that it settles the law—so far, at least, as New York is concerned—and apprises ticket buyers what their rights are. t is interesting, however, in another aspect. It tends to revive the confidence of the people in the old-fashioned theory, concerning which they have been driven into doubt. that "the law is the perfection of common sense." The decision is so palpably a common sense one that it is not easy to see how an intelligent railroad conductor could have created any occasion for making it.

Piles are frequently preceded by a sense f weight in the back, loins and lower part of the abdomen, causing the patient to sup-pose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, as flatuency, uneasiness of the stomach, etc. A moisture, like/perspiration, producing a very disa-greeable itching, particularly at night after getting warm in bed, is a very common at-tendant. Internal, External and Itching Piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the Tumors, allaying the intense itching, and effective approximation of the continuous and approximation of the continuous and affective approximation of the continuous and approximation of the continuous and approximation and approximation of the continuous and approximation and ap fecting a permanent cure where all other remedies have failed. OLD TIMES IN NEW ORLEANS.

A number of gentlemen were discussing the Farland-Addison duel and trial in front of the Lindell last evening. One of the party was Mr. J. A. Lewis, an old gentleman, at present visiting this city, but who has lived most of his life in New Orleans and the vicinity. "I tell you," said Mr. Lewis, addressing the crowd in general, "I am an old Southerner, but you will never hear me prating about high-strung Southern chivalry. think that the practice of fixing a quarrel o a man and then killing him in a duel because the code says he must fight and you are in better shot than he is has as many elements of murder and as few of chivalry in it as any crime that I now recall. But this has been the principle upon which many of the duels which I remember have been run. New Orleans is not so lively now, but twenty-five years ago it was a pretty gay place. The House, was the fashionable resort for mon eyed men; cotton and sugar brokers, lawyers, politicians, and slave dealers, most of them professional duelists. In Winter nearly all the rich planters of Louisiana and Mississippi brought their families to New Orleans and lived at the St. Louis and St. Charles hotels. The French Opera House was packed every evening with beautiful women, resplendent with dress and diamonds, and accompanied by husbands. brothers, fathers, and lovers, a gay throng with an average of two duels to every opera night. Three evenings in the week, after the opera, an immense swinging floor was let down over the parquette, and dancing was kept up until dawn. Such was the state of society at the time that it was the universal custom at the most select balls and parties to require every gentleman to be searched for concealed weapons in the dressing-room before entering the ball room. St. Louis Post Despatch.

CONSUMPTION.

It is said that 50,000 people die annually a the United States alone from this disease In some sections of the country one death n every three is from Consumption. This can be, and should be avoided; our people are too careless about an ordinary cough or cold, and other symptoms of throat and lung affections that lead to this disease. You should arrest it while it is in the germ. Two or three doses of Dr. Bosanko's Cough and Lung Syrup will relieve an ordinary cough or cold. It does not dry up a cough like many preparations on the market and leave the disease behind it, but acts directly on the throat and bronchial tubes, remov ing all the phlegm and morbid matter that accumulates in the throat and lungs. It allays all irritation, and renders the voice clear and distinct. Sold by C. B. Porter's Ward House Drug Store. july271y.

STEALING BAGGAGE.

The American baggage system, admirable as it is, in comparison with the no system of against fraud. Some years ago there was much complaint among passengers bound for Saratoga, that checks were transferred from valuable to worthless trunks while they were being moved from the main line of the New York Central Railroad to the side track. Watchfulness on the part of the officials soon put an end to the fraud. Something of the same kind has been practiced in the White Mountain regions, where trunks lie around loose on platforms. The Dayton Journal says a Daytonian in the mountains lately heard the baggage people call out 411, assigning it to Boston. As this was the HORSE Send 25 cts. in stamp trunk to go there, he protested. His next discovery was that 411 was attached not to his biseases." THE MOST SUCCESSFUL REMEDY ever directed as it is certain in its effects and designed bloth. Also excellent for human fiesh READ PROOF BELOW. FROM COL. L. T. FOSTER FROM COL. L. T. FOSTER.

Youngstown, Ohio, May 10th, 1880.
DR. B. J. KENDALL & Co:—I had a very valuable Hambletonian colt which I prized very highly, he had a large bone spavin on one joint and a small one on the other which made him very lame; I had him under the charge of two veterinary surgeons which failed to cure him. I was one day reading the advertisement of Kendall's Spavin Cure in the Chicago Express, I determined at once to fry it, and got our druggists here to send for it, they ordered three bottles; I took them all and thought I would give it a thorough trial, I used it according to directions and the fourth day the colt ceased to be lame, and the fumps have disappeared. It used but one bottle and the colts limbs are as free from lumps and as smooth as any horse in the state, He is cutterly cured. The cura was so remarkable that I let two of my neighbors have the remaining two bottles, who are now using it.

Very Respectfully.

Very Respectfully, L. T. FOSTER. Kendali's Spavin Cure ON HUMAN FLESH.

Patten's Mille, Wash sen co. X. Y. Feb.21. N. Da. B. J. KENDALL, Dear Bir:—The particular case on which I used your Kendad's Spavin cure was a malignant ankle apraise of sixteen months standing. I had tried many things, but in vain. Your Spavin Cure put the foot to the ground again, and for the first time since burt, in a natural position. For a family liniment it excels anything we ever used.

\*\*Yours truly,

REV. M. P. BELL.
