Shot Asia Winner Off. Troy, Pa., Nov. 25.—Another of those interesting accidents happened to a young man named "Kid" Benjamin, who resides with his mother in Armenia. An account of it is related as follows: While young Benjamin was returning from a hunting trip last Monday and when near his home, he discovered an owl in a tree and shot at it with his rifle. The owl was carried by a double barreled one, with one rifle barrel, shooting the owl with a lead shot, he dropped his gun and proceeded to reload. In doing so, however, his rifle-barrel caught on the hammer of the other barrel, and discharged the bullet through the barrel through the hand of his index finger, to his third phalanx, completely cutting the bones of each finger off. Amputation of the skin which served to hold them fast to the hand was found necessary. Dr. Smith, of Alba, did the surgical operation in a very skillful manner, and reports the recovery of the young man as very well. His disability will be a sad affliction to his mother, as also to himself.
