FIFTY DOLLARS FORFEIT.

DR. HUNTER WILL FORFEIT $50 IF failing to cure any case of secret disease that may come under his care, no matter how long standing or afflicting. Either sex are invited to his Private Rooms, 44 North SEVENTH St., Philad'a, without fear of interruption from other patients. Strangers and others who have been unfortunate in the selection of a Physician are invited to call.

IMPOTENCY.—Through unrestrained indulgence of the passions, by excess or self abuse, the evils are numerous. Premature impotency, involuntary seminal discharges, wasting of the organs, loss of memory, a distaste for female society, general debility, or constitutional derangement, are sure to follow. If necessary, consult the Doctor with confidence he offers a perfect cure.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health and happiness, and in many cases their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to. Every respectable physician has his peculiar branch, in which he is more successful than his brother professors, and to that he devotes most of his time and study.

YEARS OF PRACTICE, exclusively devoted to the study and treatment of diseases of the sexual organs, together with ulcers upon the body, throat, nose, or legs, pains in the head, or bones, mercurial rheumatism, strictures, gravel, irregularities, diseases arising from youthful excesses, or impurities of the blood; whereby the constitution has become enfeebled, enables the Doctor to offer speedy relief to all who may place themselves under his care.

☞Medicine forwarded to any part of the United States.—Price Ten Dollars per Package.

For sale, DR. DICKINSON'S CELEBRATED MAGNETO-ELECTRIC MACHINE.—No acid or other ingredient required; its power being obtained from a permanent magnet. No family should be without one. Price only $10.

DR. CULVERWELL ON MANHOOD

A MEDICAL ESSAY ON THE NEW, CERTAIN AND RADICAL CURE OF SPERMATORRHŒA, &c., WITHOUT THE USE OF INTERNAL MEDICINES, CAUTERIZATION, OR ANY MECHANICAL APPLIANCES.

JUST PUBLISHED, the 6th edition, in a sealed envelope, gratis and mailed to any address, post-paid, on receipt of two stamps.

THIS little work, emanating from a celebrated member of the medical profession, gives the most important information ever published to all persons entertaining doubts of their physical condition, or who are conscious of having hazarded their health and happiness—containing the particulars of an entirely new and perfect remedy for Spermatorrhœa or Seminal Weakness, Debility, Nervousness, Depression of Spirits, Loss of Energy, Lassitude, Timidity, Involuntary Seminal Discharges, Impaired Sight and Memory, Blotches and Pimples on the face, Piles, Indigestion, Palpitation of the heart, and Bodily Prostration of the whole system, inducing impotency and mental and physical incapacity—by means of which every one may cure himself privately, and at a trifling expense.

Being an original and popular Treatise on

MAN AND WOMAN;

Their Physiology: Functions and Sexual Disorders of every kind, with never-failing remedies for the speedy cure of diseases of a private and delicate character, incident to the violation of the Laws of Nature and of Nature's God.

PRICE TWENTY-FIVE CENTS.

The author of the above volume is a graduate, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compress into vade mecum compass the very quintessence of medical science on this important subject; and as the result of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the city of Philadelphia alone.

Testimony of the Professor Obstetrics in Penna. College, Phila.

"DR. HUNTER'S MEDICAL MANUAL." The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats, is a *graduate* of one of the best colleges in the United States. It affords me pleasure to recommend him to the *unfortunate*, or to the *victim of malpractice*, as a *successful and experienced* practitioner, in whose honor and integrity they may place the greatest confidence. JOS. S. LONGSHORE, M. D.

From A. Woodward, M. D., of Penn. University, Phila.

It gives me pleasure to add my testimony to the professional ability of the Author of the "*Medical Manual.*" Numerous cases of diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by *Self-abuse*, or *Excess* of venery, I do not know, his *superior* in the profession. I have been acquainted with the Author some thirty years, and deem it, no more than justice to him as well as a kindness to the unfortunate victims of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves.

BRANDRETH'S PILLS

PURIFY THE BLOOD.

CONTINUED pain or uneasiness in any organ is generally cured by one or more doses of Brandreth's Pills. Thirty years' personal experience by the undersigned fully justify this assertion.

Dr. James Lull, of Potsdam, N. Y., says:—I have cured the most deplorable costiveness of the bowels with Brandreth's pills, when every other remedy had failed, and the patient was given up to die. Skin diseases of an inveterate and painful character, such as erysipelas, salt rheum, tetter and summer-heat, I have seen eradicated by their use. I have cured the rheumatic, epileptic, the paralytic and the consumptive with these excellent pills alone."

In jaundice and all affections of the liver, dyspepsia, dysentery and diarrhœa, pleurisy, sudden pains and inflamations, female obstructions, scorbutic and scrofulous, even gouty and neuralgic affections, have given way to the use of this medicine, and now, after twenty years' experience, my estimation of Brandreth's Pills continues to increase.

OBSTRUCTION.

A young lady, beautiful and healthy, took cold, which caused a serious obstruction for two years; her health was broken down and her beauty departed. At length Brandreth's Pills were tried; eleven doses, of from two to four, were taken in fifteen days preceeding the usual period. Regularity was restored, and her health and good looks recovered.

WORMS.

Brandreth's Pills are the best vermifuge; they are infallible. A little child, six years old, for some weeks was drooping; its mother gave it one of Brandreth's sugar coated pills; the next day there came away a worm sixteen inches long, and as large as a child's finger:—The child was well.

PLEURISY.

A gentleman, away from home, was taken with pleurisy; the inflamation was terrible; every breath made him writhe with agony.—Eight Brandreth's Pills were swallowed, and warm oil applied locally; the pills operated, and the pain was relieved; plenty of gruel was taken, and six more pills, and the second day the patient was cured.

These statements should have weight, and prevent the use of poisonous drugs, and stop the sad practice of bleeding.

B. BRANDRETH.

Brandreth's Pills are sold at the Principal Office, 294 Canal street, Brandreth Building, at 25 cents per box; and the same, sugar coated, 13 cents, warranted to keep as well as the plain. [n30-1m-in.]

PROSPECTUS FOR 1858—59.

THE PENNSYLVANIAN,

DAILY,
TRI-WEEKLY,
AND WEEKLY.

The great events of the immediate future, so largely depending upon the boldness and energy of the Democratic party of the country, call for the widest dissemination among the people of all facts and arguments elucidating and sustaining the Democratic National policy; and the duty of an independent Democratic journal in such a crisis of our history can only be fully and advantageously discharged by the active co-operation of all who desire Democratic success, in extending the sphere of its usefulness. The *Pennsylvanian* has for over twenty-five years occupied the position of a central organ in Pennsylvania, winning by its boldness and ability, the confidence and warm regard of the Democracy of every State in the Union; and the Proprietor appeals with confidence to the Democracy of the country, in desiring now to extend still more widely its influence. He invites attention to the ability with which his paper is conducted, and the care exercised in all its departments. Aside from its high and unquestioned political character, no paper enjoys in a larger degree the confidence of the business community. Its Commercial and Monetary reports are full and comprehensive; its Marine List unsurpassed.

The proprietor trusts to commend THE PENNSYLVANIAN to the business and leading community for its ability and excellence, and solicits a critical examination of its merits. It is his aim to make it a necessary visitor in the counting-house, an honest counsellor in the bank parlor, an exponent of every trading and business interest, while as a news journal, it shall be unsurpassed for reliability, and he would also commend it to business men as a medium of advertising. Its Daily, Tri-Weekly and Weekly issues go in large numbers in every State in the Union. No paper, either in Philadelphia or New York, is so largely circulated and generally read in those sections from which Philadelphia derives her chief trade and where it is specially important that our business houses and interests should be known and appreciated.

The TRI-WEEKLY PENNSYLVANIAN is printed every Tuesday, Thursday and Saturday, and contains all the reading matter of the DAILY editions. The WEEKLY PENNSYLVANIAN, is printed every Saturday, and is wholly devoted to News, Literature, Politics, Agriculture and Trade.

JEFFREY'S DOUBLE-ACTING SUCTION & FORCE PUMP

WITH

India Rubber Ball Valves.

THE SUBSCRIBER having purchased the right to make and sell this New Pump, feels a confidence that his efforts to bring it into general use, in this county, will be seconded by all who see its construction and operation.

Among the many advantages secured by the use of this Pump, the following may be enumerated:

1. A double action, by which twice the water can be raised at the same time.

2. Great ease in working, thus adapting the *Force Principle* to common wells.

3. The transformation, in a moment, of the Pump into an efficient FIRE ENGINE, thus rendering the loss of dwellings by fire, totally unnecessary.

4. Capability of watering gardens, Lawns, or sprinkling walks; washing windows, &c., with the utmost ease and thoroughness.

5. Power to raise water with slight labor to any reasonable height, as in supplying chambers &c.

6. The convenience of having the Pump in a kitchen, or other rooms of your dwelling, without regard to the location of the Well or Cistern.

7. The easy protection of the instrument against Frost.

8. The ease with which it may be moved on wheels, or in other ways be made portable.

9. A *simplicity* which ensures great durability, protects it from being thrown out of order, and makes any repairs easy and of little cost.

10. Great *Cheapness* for the first time bringing the cost of the Force Pump to the neighborhood of the common Suction and Chain Pumps, while it is immeasurably superior to both.

Manufactured and for sale by the subscriber only, at his shop in Mechanicsburg.

HAMMONTON LANDS

NEW ENGLAND SETTLEMENT.

RARE OPPORTUNITY.—*TO ALL WANTING FARMS*—in a healthy place *twenty-five miles* from Philadelphia, on the Camden and Atlantic railroad, New Jersey. An old estate has recently been opened for sale and the first division of 10,000 acres divided into farms of twenty acres and upwards. The soil is of *the best* quality for the production of fruits, grains, &c. The price is $12 to $20 per acres, payable in easy quarter yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling *every industrious man to buy a farm.* It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months; Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known.

The soil is a sandy or clay loam, with a *clay bottom* and *retentive* of manures. It is free of stone and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapted to its market.

The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land is rendering accessible in every way for fertilizing, has an abundant supply of the best quality of marsh manure.

Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at first. Carpenters and builders are on hand to put up houses on the best terms.

In settling here the emigrant has many advantages. He is within a few hours' ride of the great cities in the Middle States and New England; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of loosing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mild climate and an open winter. There are three trains daily to Philadelphia, and to all those who improve the railroad company gives a free ticket.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market, and unless the statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood if they will make some improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating, and localities are not held on refusal.

The Hammonton Farmer, a monthly Literary and Agricultural sheet, containing full information of Hammonton, will be sent to each inquirer, and can be obtained at 25 cents per annum.

Title indisputable. Warrantee deeds given, clear of all incumbrance, when purchase money is paid. Route to the land.—Leave Vine street wharf, Philadelphia, for Hammonton by railroad at half past seven, A. M., and half past five P. M.; when there inquire for Mr. Byrnes.

Boarding accommodations will be found. Letters and applications can be addressed to S. B. Congdon, 202 South FIFTH Street below Walnut, Philadelphia. Maps and information cheerfully furnished.

FARM LANDS FOR SALE 25 MILES from Philadelphia by Railroad in the State of New Jersey. Soil among the best for agricultural purposes, being a good loam soil, with a clay bottom. The land is a large tract divided into small farms, and hundreds from all parts of the country are now settling and building. The crops can be seen growing. Terms, from $15 to $20 per acre, payable within four years by instalments. To visit the place—Leave Vine St. Wharf at Phila., at half past 7, A. M., by Railroad for Hammonton, or address R. J. Byrnes, by letter. See full advertisement in another column.

Once more on the lightning track of the far-reaching wires, comes the glad tidings of peace and contentment, instead of the shrill scream of the death dealing marauder, or the chilling tale of the midnight assassin, who has been imbruing his hands in the blood of the young, the beautiful, and the innocent. Now, instead of the wild cries of despair which but lately echoed from every hill and valley of our wide-spread land, our ears are filled with the glad shouts of old men and maidens, young men and matrons that are continually

WASHING MACHINE.

Patented Sept. 9, 1856.

BY RILEY SMITH

THE WASHBOARD AND BEATER are the two first and most natural implements ever used in Washing Clothes. Notwithstanding it has been the study of inventors to do them away, and for that purpose several hundred patents have been issued, yet it has been of no effect. They have failed in their attempt. Their machines have been condemned and thrown away, and the Wash Board and Beater again used in their stead.

This machine combines them together, attached to a progressive lever in such a manner as gives great power to the Beater, while either may be used as the operator may desire. The motion of the Beater is quick and easy, the pressure gentle and powerful, which gives it the advantage over all other machines, and is so decided by competent judges.

HOWARD ASSOCIATION

PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

TO all persons afflicted with Sexual Diseases, such as SPERMATORRHŒA, SEMINAL WEAKNESS, IMPOTENCE, GONORRHŒA, GLEET, SYPHILIS, the vice of ONANISM, or SELF-ABUSE, &c., &c.

The Howard Association, in view of the awful destruction of human life, caused by Sexual Diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting surgeon, as a CHARITABLE ACT worthy of their name, to open a dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS to all who apply by letter, with a description of their condition, age, occupation, habits of life, &c.; and in case of extreme poverty to furnish medicines FREE OF CHARGE. It is needless to add that the association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors, on a review of the past, feel assured that the[illegible] labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves with renewed zeal to this very important much despised cause.

Just published by the Association, a Report on Spermatorrhœa or Seminal Weakness, the Vice of Onanism, Masturbation, or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed letter envelope) Free of charge, on receipt of two stamps for postage.
