DR. HUNTER'S MEDICAL MANUAL,
Being an original and popular Treatise on
MAN AND WOMAN.
The author of the above volume is a graduate, and having devoted a quarter of a century to the study and treatment of Syphilis and kindred disorders, he has become possessed of most valuable information in regard to the same, and he is able to compress into a few pages the very quintessence of medical science on this important subject; and as the result of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in many thousands of cases in the city of Philadelphia alone.
Testimony of the Prof. of Obstetrics in Pennsylvania, Phila.
"Dr. HUNTER'S MEDICAL MANUAL." The author of this work, unlike the majority of those who advertise to cure the disease of which it treats, is a graduate of one of the best colleges in the United States. It affords me pleasure to recommend it to the profession, as a successful and capricious practitioner, in whose honor and integrity they may place the greatest confidence.
JOS. S. LONGSHORE, M. D.,
Fram A. Woodward, M. D., of Penn. University, Phila.
It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid, in the treatment of Seminal weakness, or disarrangement of its functions produced by Syphilis, or Excess of venery. I do not know his superior in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victims of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves.

PROSPECTUS FOR 1858-59.
THE PENNSYLVANIAN,
DAILY, TRI-WEEKLY, AND WEEKLY.
The great events of the immediate future, so largely depending upon the boldness and energy of the Democratic party of the country, call for the widest dissemination among the people of all facts and arguments elucidating and sustaining the Democratic National policy; and the duty of an independent Democratic journal in such a crisis of our history can only be fully and advantageously discharged by the active co-operation of all who desire Democratic success, in extending the sphere of its usefulness. The *Pennsylvanian* has for over twenty-five years occupied the position of a central organ in Pennsylvania, winning by its boldness and ability, the confidence and warm regard of the Democracy of every state in the Union, and the Proprietor appeals with confidence to the Democracy of the country, in desiring now to extend still more widely its influence. He invites attention to the ability with which his paper is conducted, and the care exercised in all its departments. Aside from its high and unquestioned political character, no paper enjoys in a larger degree the confidence of the business community. Its Commercial and Monetary reports are full and comprehensive; its Marine List unsurpassed. The Proprietor trusts to commend *THE PENNSYLVANIAN* to the business and reading community for its ability and excellence; and solicits a critical examination of its merits. It is his aim to make it a necessary visitor in the counting-house, an honest counselor in the bank parlor, an exponent of every trading and business interest, while as a news journal, it shall be unsurpassed for reliability; and he would also commend it to business men as a medium of advertising. Its Daily, Tri-Weekly and Weekly issues go in large numbers into every State in the Union. No paper, either in Philadelphia or New York, is so largely circulated and generally read in those sections from which Philadelphia derives her chief trade and where it is especially important that our business houses and interests should be known and appreciated.
THE TRI-WEEKLY PENNSYLVANIAN is printed every Tuesday, Thursday and Saturday, and contains all the reading matter of the DAILY editions. **THE WEEKLY PENNSYLVANIAN**, is printed every Saturday, and is wholly devoted to News, Literature, Politics, Agriculture and Trade.

JEFFREY'S DOUBLE-ACTING SUCTION & FORCE PUMP
with
India Rubber Ball Valves.
THE SUBSCRIBER having purchased the right to make and sell this New Pump, feels a confidence that his efforts to bring it into general use, in this county, will be seconded by all who see its construction and operation.
Among the many advantages secured by the use of this Pump, the following may be enumerated:
1. A double action, by which twice the water can be raised at the same time.
2. Great ease in working, thus adapting the Force Principle to common wells.
3. The transformation, in a moment, of the Pump into an efficient *vacua*, thus rendering the loss of dwellings by fire, totally unnecessary.
4. Capability of watering gardens, lawns, or sprinkling walks, washing windows, &c., with the utmost ease and thoroughness.
5. Power to raise water with slight labor to any reasonable height, as in supplying chambers &c.
6. The convenience of having the Pump in a kitchen, or other rooms of your dwelling, without regard to the location of the Well or Cistern.
7. The easy protection of the instrument against Frost.
8. The ease with which it may be mounted on wheels, or in other ways be made portable.
9. A simplicity which ensures great durability, protects it from being thrown out of order, and makes any repairs easy and of little cost.
10. Great *Chapman's* for the first time bringing the cost of the Force Pump into the neighborhood of the common Suction and Chain Pumps, while it is immeasurably superior to both.
Manufactured and for sale by the subscriber, only, at his shop in Mechanicsburg.

HAMMONTON LANDS
NEW ENGLAND SETTLEMENT.
RARE OPPORTUNITY—TO ALL WANTING FARMS.—In a healthy place twenty five miles from Philadelphia, on the Camden and Atlantic railroad, New Jersey, an old estate has recently been opened for sale and the first division of 10,000 acres divided up into farms of twenty acres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$12 to \$20 per acre, payable in easy quarterly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, an account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy or clay loam, with a clay bottom and retains its manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found out to be excellent anywhere in the production of crops most adapted to its market.
The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land beside being accessible every way for fertilizers, has an abundant supply of the best quality of manure.
Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyard being started on the ground. A person can purchase a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in. First-class carpenters and builders are on hand to put up houses at the best terms.
In settling here the emigrant has many advantages: He is within a few hours' ride of the great cities in the Middle States and New England; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of our countrymen in far off regions.
The *Hammonton Farmer*, a monthly Literary and Agricultural sheet, containing full information of Hammonton, will be sent to each inquirer, and can be obtained at 25 cents per annum.
Title indisputable. Warrants deeds given, clear of all incumbrances, when purchase money is paid. Route to the land—Leave Vinn street wharf, Philadelphia, for Hammonton by railroad at half past seven, A. M., and half past five P. M. when there inquire for Mr. Byrnes.
Boarding conveniences will be found. Letters and applications can be addressed to S. B. Conkling, 202 South FIFTH Street below Walnut, Philadelphia. Maps and information cheerfully furnished.
FARM LANDS FOR SALE 25 MILES from Philadelphia by Railroad in the State of New Jersey. Soil among the best for agricultural purposes, being a good loam soil, with a clay bottom. The land is a large tract, divided into small farms, and hundreds from all parts of the country are now settling and building. The crops can be seen growing. Terms, from \$15 to \$20 per acre, payable within four years by instalments. To visit the place—Leave Vinn St. Wharf at Phila. at half past 7, A. M., by Railroad for Hammonton, or address R. J. Byrnes, by letter. See full advertisement in another column.

HEADQUARTERS,
JULY, 12, 1853.
LATE AND IMPORTANT FROM THE BLOODY FIELDS OF KANSAS!
Once more on the lightning track of the far-reaching wires, comes the glad tidings of peace and contentment, instead of the shrill scream of the death dealing marauder, or the chilling tale of the midnight assassin, who has been imbruing his hands in the blood of the young, the beautiful, and the innocent. Now, instead of the wild cries of despair which but lately echoed from every hill and valley of our wide-spread land, our ears are filled with the glad shouts of old men and maidens, young men and matrons that are continually flocking to the HEADQUARTERS OF **TRADE** JUST OPENED BY **G. IRONS,** Under the supervision and care of the infatigable "MILES." **NOT ONLY TO'S BUT TO BUY** a portion of the **RICH, RARE, BEAUTIFUL** and unprecedentedly **CHEAP GOODS** Which he has just received from New York and Philadelphia. "MILES" WISHES IT **Distinctly Understood** That he does not intend to ape after some of his neighbors by boasting of the **FINESS,** **FIRMNESS, DURABILITY,** **AND CHEAPNESS** OF HIS **Goods,** All he asks is for Purchasers to **CALL AND LOOK AT THEM,** Well knowing that no one will leave the Store empty handed after once looking at and **Learning the Price** AT WHICH HE SELLS GOODS. **REMEMBER!** THE PLACE TO BUY **Ready-Made Clothing** Of every description, from common Overalls to the finest cloth Coat, **WARRANTED AS REPRESENTED.** **COME AND EXAMINE** For yourselves, as we can fit anything from a boy of four years to a man of 400 pounds. **DRY GOODS,** **AND GROCERIES,** **CROCKERY,** And in fact everything kept or sold in this section, is **AT IRONS' STORE,** Corner of Main and State Streets, Two doors west of the Baptist Church, SMETHPORT PA.

HEALTH WITHOUT PHYSIC!
A Prize Essay on Nervous Diseases.
JUST published, the 25th thousand, in a sealed envelope, price 30 cents; or sent postpaid by the Publishers for 3 stamps.
A MEDICAL ESSAY ON THE PREVENTION, ESTIMATION AND DEFEAT OF THE FRAME FROM INDULGENCE IN MERECURY, WITH THE MODERN MEANS OF CURE.
By R. J. CULVERWELL, M. D.
Member of the Royal College of Surgeons, &c.
Spermatorrhoea, or Seminal Emissions, Nervous Debility, Impotency, Loss of Energy, Depression of Spirits, Timidity, Diseases of the Sexual Organs, and Impediments to Marriage generally, are promptly and effectually cured by the Author's novel and most successful mode of treatment, by means of which the invalid can regain pristine health without having recourse to dangerous and expensive medicines. From the London Lancet.—"The best treatise ever written on a subject of vital importance to all, well worthy the Author's exalted reputation."

FIFTY DOLLARS FORFEIT.
DR. HUNTER WILL FORFEIT \$50 IF failing to cure any case of secret disease that may come under his care, no matter how long standing or affecting. Either sex are invited to this Private Rooms, 44 North SEVENTH St., Philadelphia, without fear of interruption from their patients. Strangers and others who have been unfortunate in the selection of a Physician are invited to call.
IMPOTENCY—Through unrestrained indulgence of the passions, by excess of self-abuse, the evils are numerous. Premature impotency, involuntary seminal discharges, wastage of the organs, loss of memory, a distaste for female society, general debility, or constitutional derangement, are sure to follow. If necessary, consult the Doctor with confidence; he offers a perfect cure.
READ AND REFLECT.—The afflicted would do well to reflect before trusting their health and happiness, and in many cases their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to. Every respectable physician has his peculiar branch, in which he is more successful than his brother professors, and to that he devotes most of his time and study.
YEARS OF PRACTICE, exclusively devoted to the study and treatment of diseases of the sexual organs, together with ulcers upon the body, throat, nose, or legs, pains in the head, or bones, mercurial rheumatism, stricture, gravel, irregularities, diseases arising from youthful excesses, or impurities of the blood, whereby the constitution has become enfeebled, enables the Doctor to offer speedy relief to all who may place themselves under his care.
Medicine forwarded to any part of the United States—Price Ten Dollars per Package.
For sale, DR. DICKINSON'S CELEBRATED MAGNETO-ELECTRIC MACHINE.—No acid or other ingredient required; its power being obtained from a permanent magnet. No family should be without one. Price only \$10.
WASHING MACHINE.
Patented Sept. 9, 1856.
BY RILEY SMITH
THE WASHBOARD AND BEATER are the two first and most natural implements ever used in Washing Clothes. Notwithstanding it has been the study of inventors to do them away, and for that purpose several hundred patents have been issued; yet it has been of no effect. They have failed in their attempt. Their machines have been condemned and thrown away, and the Wash Board and Beater again used in their stead.
This machine combines them together, attached to a progressive lever in such a manner as gives great power to the Beater, while either may be used as the operator may desire. The motion of the Beater is quick and easy, the pressure gentle and powerful, which gives it the advantage over all other machines; and is so decided by competent judges.
