of pine knots. He looked as if he might be tough, but he did not seem strong. Nevertheless he was among the knowing ones, reputed to be as agile as "a cat;" and in addition, was by no means deficient in knowledge of the "noble science of self defence." Besides he was cool as a cucumber: Well, in the Freshman class of a certain year, was a burley beef mountaineer of 18 or 19. This genius conceived a great contempt for old Bolus' physical dimensions, and his soul was horrified that one so deficient in muscle, should be so penitential able stock of in his rule.

Poor Jones-that's what we'll call him-had no idea of moral force. At any rate he was not inclined to knock under, and be controlled despotically by a man that he imagined he could tie and whip. He at length determined to give the gentleman a genteel private thrashing some night in the College Campus, pretending to mistake him for some fellow-student.

Shortly after, on a dark and rainy night Jones met the doctor crossing the Campus. Walking up to him abruptly

"Hello, Smith I you rascal is this you?" And with that he struck the old gentleman blow on the side of the face that nearly felled HATS

Old Bolus said nothing but squared himself, and at it they went. Jones' youth, weight and muscle made him an augly customer," but after a round or two, the doctor's science began to tell, and in a short time he had knocked his beefy antagonist down, and was astraddle on his chest, with one hand on his throat, and the other dealing vigorous cuffs on the side of his

alternately. "It makes no difference; for all present purposes consider me Smith."

And it is said that old Bolus gave Jones such a pounding then and there, as probably prevented his ever making another mistake as to personal identity, at least on the College Cam-

ONE OF THE OLD CONTINENTALS. - Col. John Johnson, a veteran of '76 who stood by Washington and his compatriots in the Revolution who can appreciate the worth of a constitutional Government, like this, by knowing how much suffering and blood it cost to establish it, and the ceaseless vigilance it has required to maintaie it against tories at home and enemies abroad-the same gentleman, and, we believe, now the sole survivor of the immortal few who bore upon their shoulders the remains of Washington to his tomb-was stopping at the American in this city last night, on his way to West Point.

A committee of Black Republicans immediately called upon him, supposing that he was among the distinguished guests who had come among the distinguished guests who had come to take part in the Oberlin demonstration to day. They found him a sturdy, hale and fine appearing old Continental—a model of a man physically; and as perpendicular in his political opinions as he was in his physical stature.—Allusion was made to the music in the streets, the crowds of people, and other foreshadow ings of the great Republican carnival in the city-when the old gentleman drawing himself up to his full beight, his eyes flashing fire, said:

eYes, a disgrateful, a treasonable demon-stration, and was Andrew Jackson in the Pres-idential chair, he would hang every one of

Washing Machine Patented Sept. 9, 1856. BY RILEY SMITH

THE WASHBOARD AND BEATER are the two first and most natural implements ever used in Washing Clothes. Notwithstanding it has been the study of inventors to do them away, and for that purpose several hundred patents have been issued, yet it has been of no effect. They have failed in their attempt. Their machines have been condemned and thrown away, and the Wash Board and Beater again used in their stead.

This machine combines them together, attached to a progressive lever in such a manner. as gives great power to the Beater, while either may be used as the operator may desire. The motion of the Beater is quick and easy, the pressure gentle and powerful, which gives it the advantage over all other machines, and

is to decided by competent judges.

DR. COGGSWELL'S NEW MEDICAL SALT.

FOR INFLAMMATORY DISEASES ONLY. New Medical Salt! New Medical Salt! IT IS NOT A CURE ALL!

no For Inflammatory Diseases Only. DR. COGGSWELL'S NEW MEDICAL SALT, instead of being a remedy for all ills, has control over but one ill, has but one aim and accomplishes but one thing, to wit: sombutes in locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that without the useless loss of blood and strength, it effectually cures Inflammatory Diseases, (no others) by producing an equilibrium of all the fluids in the body, the want of which is the sole cause of inflamation!

NOTICE TO INVALIDS!! The following form which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as easily subdued by the New Medical Salt, as fire is ex-tinguished by water, to wit: Brain Fever, Headache, Rush of Blood to the Head and Heart, Fits, Inflamed eyes, ears, nose, lungs and liver, Neuralgia, Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Coughs, Dyspepsia, Venercal Diseases, Rheumatism, Gout, Scroffula, and all itching and other cutaneous eruptions, Colds, and Female Diseases.

R. Coggswell's New Medical Salt ex-erts, like the vacine matter, an extraordi-nary influence over the veins and arteries, re-sulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes its narural state, as the heat, pain and fever dis-
