

del's ten-inch pistols, as the other had a gun loaded with shot only. John, for that was his name, fired the pistol at the bear's head, and she then went up a tree where her cubs were. The old bear turned to come down and give battle; the boys then fired again, and the bear came down and took for the boys. John took the gun from the other boy and mangled her over the head until he beat it badly, and the dog made such inroads upon her right flank at the same time, that she was forced to give battle to him—the dog—which enabled the boys to put an end to the bear. They then killed two cubs, went home with one live one to their mother (being the only person in the house) with as much honor of victory as General Scott or Taylor in the Mexican war.—*Piscataquis (Mo.) Observer.*

"An Anti-Cursing Club" has been formed at Grass Valley, Cal., the members of which are fined twenty-five cents for every oath, the money to be appropriated to some worthy purpose from time to time. At last accounts, the club had cursed enough to buy a pew, and there was a balance on hand.

To Those Interested in Mining and Mineral Lands:
W. H. BARNES offers his services for the examination of Mineral Lands in Michigan and Wisconsin, and will give his opinion as to the VALUE OF MINES, &c. Those engaging his services will receive all necessary and reliable information. Residence at the Banker Hill Mine.
 Sargent, McKean Co., June 30, 1859.

DE GRAT OFFICE.

HAMMONTON LANDS
 NEW ENGLAND SETTLEMENT.
RARE OPPORTUNITY—TO ALL WANTED TO SETTLE in a healthy place twenty miles from Philadelphia, on the Camden and Atlantic railroad, New Jersey. The old estate has recently been opened for sale and the first division of 10,000 acres divided into farms of twenty acres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$12 to \$20 per acre, payable in easy quarterly yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months, Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent; and no such thing as fever is known. The soil is a sandy or clay loam, with a clay bottom and retentive of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapted to its market.

The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land besides being accessible in every way for fertilizers, has an abundant supply of the best quality of muck manure.

THE OLDS OF FASHION
