

HIGHLY IMPORTANT FROM EUROPE. GREAT BATTLE—GREAT VICTORY.

The three days later advices from Europe, by the *Vigo*, off Cape Race, and the *Adelaide*, at St. John's, is of the highest importance. Probably ere this, the great battle of the war has been fought, and the indications are that it must have been a decisive conflict. The news of the battle—received by telegraph from London just before the *Adelaide* sailed from Cork—is only definite enough to stimulate the public curiosity for more. Doubtless it is authentic in stating that a great battle was in progress, inasmuch as the report of a few days previous was, that the Austrian and Allied forces were face to face on the banks of the Mincio, and it is not likely that they remained thus long inactive. The Austrian force was then reported at two hundred and eighty thousand men, and the despatch from Napoleon to the Emperor relative to the fight reports the Austrian line of battle to have been *five leagues in length*. Doubtless this has been one of the most terrific encounters in the world's history, both from the immense forces engaged in it, and the duration of the conflict. For the brief account states that the fighting lasted sixteen hours, and as the Emperor says nothing of retreat, or victory, (though indicating partial success in the capture of cannon, provisions, &c.) it is fair to infer that the fight did not end in one day. Further and fuller news will therefore be looked for with much anxiety.

MARRIED:

In Sergeant township, July 3d, by T. Fall, Esq., Jacob HAYNER to Miss CHRISTIANA HIGHTMAN; all of Sergeant.

LIST OF LETTERS.

REMAINING in the Post Office at Smethport, July 1st, 1859.

S. SARTWELL, P. M.

CIRCULAR.

A Man whose name is said to be Oliver HANNAH, and supposed to be "one of 'em," passed into Smethport from Buena Vista, on Thursday last, June 30, and upon being pursued left a horse, bright bay, 15 hands high, about 10 years old, both hind feet white, and left fore foot white below the fetterlock joint, a small bone spavin on each hind leg, a small white saddle-mark on right side of back, heavy tail, and considerable white in right eye, large white stripe on right side of nose; also a Saddle-horn, and a nearly new, plain Bridle. Said property can be found by calling at the "Bennett House, in Smethport."

D. R. BENNETT.

Smethport, July 2, 1859.

To Those Interested in Mining and Mineral Lands:

W. H. DARNES offers his services for the examination of Mineral Lands in McKean and Elk counties, and will give his opinion as to the VALUE OF MINES, &c. Those engaging his services will receive all necessary and reliable information. Residence at the Banker Hill Mine.

Sergeant, McKean Co., June 30, 1859.

THE best 50c Tea in town at the ASTOR HOUSE STORE.

Inventors, Manufacturers, Farmers and Millwrights.

The Scientific American.

TO BE ENLARGED!

A NEW VOLUME—NEW SERIES.

To Commence on July 2d, 1859.

Instead of 116 pages, the Yearly Volume, Enlarged Series, will contain EIGHT HUNDRED AND THIRTY-TWO PAGES of valuable, readable matter, useful and instructive to all classes.

THE SCIENTIFIC AMERICAN is published weekly in quarto form, suitable for binding, and the numbers for a single year contain information in regard to NEW INVENTIONS, all branches of MANUFACTURING PROCESSES, AGRICULTURAL IMPLEMENTS, ENGINEERING, MILLWRIGHTING, IRON MANUFACTURE, CHEMISTRY, &c. In fact, almost every industrial pursuit receives more or less attention in its columns.

All Patent Claims officially published every week, as reported from the Patent Office, and for

INVENTORS AND PATENTEES

it contains information not to be obtained elsewhere, and which no mechanic, inventor, or patentee can well do without.

As a Family Journal it has no superior for real practical utility, since in its columns will be found useful practical Receipts.

Careful attention will be given from time to time, to reports of the Metal, Lumber, and other markets.

Every number contains sixteen pages and forty-eight columns of matter, with several illustrations of patented machines, and other engravings, comprising in a single year about

SIX HUNDRED ORIGINAL ENGRAVINGS.

With the Enlarged Series is presented an opportunity to subscribe not likely to occur again for many years. It will be like commencing a new work—Vol. 1, No. 1, New Series.

Terms \$2 a Year—One Dollar for Six Months.

Southern, Western, and Canadian money or Post Office stamps taken in part for subscriptions. Canadian subscribers will please to remit twenty-six cents extra on each year's subscription to pre-pay postage.

A liberal discount to clubs. A prospectus giving full particulars of the inducements for clubs, with specimen copies of the paper, and a pamphlet containing information concerning the procuring of Patents may be had gratis by addressing

HAMMONTON LANDS.

NEW ENGLAND SETTLEMENT.

RARE OPPORTUNITY.

TO ALL

WANTING FARMS—in a healthy place

Twenty-five miles from Philadelphia, on the

Camden and Atlantic railroad, New Jersey.

An old estate has recently been opened for sale

and the first division of 10,000 acres divided

into farms of twenty acres and upwards.

The soil is of the best quality for the production

of fruits, grains, &c. The price is \$12 to \$20

per acre, payable in easy quarterly yearly instalments, within a term of four years, with

interest. The terms are made easy, in order

to insure the rapid improvement of the land,

by enabling every industrious man to buy a farm.

It is now being extensively improved by good

roads, and some of the best citizens from New

England and the Middle States are erecting

large improvements. It is a section of the

greatest improvement out of Philadelphia,

Twenty-five houses have been built in four

months. Practical farmers and business men

from the length and breadth of the Union are

settling there. It is an important business

place, on account of its being in the midst of a

great market. Every article raised upon this

land finds an immediate sale. The water is

excellent, and no such thing as fever is known.

The soil is a sandy or clay loam, with a clay

bottom and retentive of manures. It is free of

stones and easily worked. It abounds largely

in the phosphates, and such is its fertility that

from the crops produced both upon this land

and the large area adjoining under cultivation,

it will be found not to be excelled anywhere in

the production of crops most adapted to its

market.

The reader may be well aware that the ear

liest and the best fruits and vegetables come

from New Jersey, which are annually exported

to the amount of millions of dollars. The land

beside being accessible in every way for fertilizers,

has an abundant supply of the best quality

of muck manure.

Lumber and building materials can be had on

the spot at a cheap price, from the mills. Other

mills are now being opened, and brickyards

are being started on the ground. A person can put

up a frame tenement for present convenience for

one hundred dollars. On account of the

extensive emigration, this is the best course to

pursue in order to get a place to live in at first.

Carpenters and builders are on hand to put up

houses on the best terms.

In settling here the emigrant has many advantages.

He is within a few hours' ride of the

great cities in the Middle States and New

England; he is in a settled country, where

every improvement and comfort of civilization

is at hand; he is in a healthy place; and is not

subject to the certainty of losing the greater

part of his family and his own health by those

malignant fevers which make the graves of so

many millions of the young and hardy in far

off regions away from home and friends. Be-

sides, he has a mild climate and an open winter.

There are three trains daily to Philadelphia,

and to all those who improve the railroad com-

pany gives a free ticket.

The reader will at once be struck with the

advantages here presented, and ask himself

why the property has not been taken up before.

The reason is, it was never thrown in the

market; and unless the statements were cor-

rect, no one would be invited to examine the

land before purchasing. This all are expected

to do. They will see the land under cultivation;

they will meet persons, no doubt, from their

own neighborhood; they will witness the im-

provements, and can judge of the character of

the population. Persons should come prepared

to purchase, as many are locating, and loca-

tions are not held on refusal.

The Hammonston Farmer, a monthly Literary

and Agricultural sheet, containing all information

of Hammonston, will be sent to each in-

dividual, and can be obtained at 25 cents per

annum.

Title indisputable: Warranted deeds given;

clear of all incumbrances, when purchase money is

paid. Route to the land: Leave New York

wharf, Philadelphia, for Hammonston by railroad

at half past seven, A. M., and half past five P. M.; when, these inquire for Mr. Byrnes.

GOODS

THE SECRET INFIRMITIES OF

YOUTH AND MATURITY,

Just Published, Gratis, 25th Thousand

FEW WORDS ON THE RATIONAL

TREATMENT, without Medicine, of Sper-

matorrhea, or Local Weakness, Nocturnal Emissions,

Genital and Nervous Debility, Premature

Decay of the system, Impotency, and Imped-

iments to Marriage generally.

BY B. DE LANEY, M. D.

The important fact that the many alarming

complaints, originating in the imprudence and

solitude of youth; may be easily removed with-

out Medicine, is in this small tract clearly de-

monstrated; and the entirely new and highly

successful treatment, as adopted by the Author,

fully explained, by means of which every one

is enabled to cure himself perfectly and at the

least possible cost, thereby avoiding all the ad-

vertised nostrums of the day.
