NEW AGRICULTURAL SETTLEMENT. TO ALL WANTING FARMS,

A RARE OPPORTUNITY IN A DELIGHT FUL AND HEALTHY CLIMATE 25 MILES SOUTHEAST OF PHILA-DELPHIA, ON THE CAMDEN AND ATLANTIC RAILROAD

NEW JERSEY. An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchasers. A population of some Fefteen kundred, from various parts of the middle States and New England have settled there the past year, im proved their places, and raised excellent crops. The price of the land is at the low sum of from \$15 to \$20 per acre, the soil is of the best quality for the production of Wheat, Clover, quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vigetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual im-provement. The result has been that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may perceive from its location, in THE BEST IN THE UNION. Produce bringing double the price than in locations away from the city, and more than double the price at the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of Millions.

In locating here, the settler has many advan-tages. He is in a few hours' ride of the great cities of New England and Middle States, he a settled country where every improvement of comfort and civilization is at hand. He can buy every article the wants of the control of the north, see buy every article the wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of the change upon those from the North, has generally been to restore them to an excellent state of health.

\$10 to \$15 per thousand. Bricks from the dred patents have been issued, yet it has been brick yard opened in the place, every article of no effect. They have failed in their ar-can be procured in the place, good carpenters tempt. Their machines have been condemned are at hand, and there is no place in the Union and thrown away, and the Wash Board and where buildings and improvements can be Beater again used in their stead. made cheaner.

The reader will at once be struck with, the reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle they should come prepared to stay a day or two and be ready to purchase, as locations can not be held on refusal.

There are two daily trains to Philadelphia. and to all settlers who improve, THE RAILRAOD COMPANY GIVES A FREE TICKET FOR SIX MONTHS, AND A HALF-PRICE TICKET FOR THREE YEARS. THE TOWN OF HAMMONTON.

In connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufactoies. The Shoe bus ness could be carried on in this place and market to good advantage; also cotton business, and manufactories of agricultural implements or Founderies for casting small ar ticles. The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell, small ones as it would effect the improvement of the place, can be had at from \$100 and stantly on hand all kinds of furniture, such as
