PRICE TWENTY-FIVE CENTS.

The author of the above volume is a graduate, and having devoted a quarter of a century to hunting the study and treatment

of Syphilis and kindred disorders as a speciality, he has become possessed of most invaluable information in regard to the same, and is able to compress into vade mecur compass the very quintescence of medical sci-ence on this important subject; and as the re-sult of the experience of the most eminent physicians in Europe and America is thoroughly demonstrated in his own highly successful practice in the treatment of secret diseases in

many thousands of cases in the city of Philadelphia alone. Testimony of the Prof. of Obstertrics in Penna College, Phila:

"DR. HUNTER'S MEDICAL MANUAL." The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats, is a graduate of one of the best colleges in the United States. It affords me pleasure to recommend him to the unfortunate or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence. JOS. S. LONGSHORE, M. D. fidence. Fram A. Woodward, M. D., of Penn. Univer-

sity, Phila.

It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by Self-abuse, or Excess of venery, I do not know his superior in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victims of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves.

It is known that he earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of Millions. In locating here, the settler has many advan-tages. He is in a few hours' ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in settled country where every improvement of comfort and civilization is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, divino servico, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of the change upon those from the North, has gener-

made cheaper.
The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market: and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvements and can judge the character of the nonulation. If they come with a view to settle they should come prepared to stay a day or two and be ready to purchase, as locations can not be held on refusal.
