THE WASHBOARD AND BEATER are the two first and most natural implements ever used in Washing Clothes. Notwithstandthem away, and for that purpose several hundred patents have been issued, vet it has been of no effect. They have failed in their atand thrown away, and the Wash Board and

Beater again used in their stead.

This machine combines them together, attached to a progressive lever in such a manner as gives great power to the Beater, while either may be used as the operator may desire. The motion of the Beater is quick and only, the pressure gentle and powerful, which gives it the advantage over all other machines, and

is so decided by competent judges.
