Washing Daohine Patented Sept. 9, 1856. BY RILEY SMITH

THE WASHBOARD AND BEATER are L the two first and most natural implements ever used in Washing Clothes. Notwithstanding it has been the study of inventors to do them away, and for that purpose several hundred patents have been issued, yet it has been of no effect. They have failed in their attempt. Their machines have been condemned and thrown away, and the Wash Board and

Beater again used in their stead.

This machine combines them together, at tached to a progressive lever in such a manner as gives great power to the Beater, while either may be used as the operator may desire. The motion of the Beater is quick and easy he pressure gentle and powerful, which gives it the advantage over all other machines, and

so decided by competent judges.

RARE OPPORTUNITY IN A DELIGHT-FUL AND HEALTHY CLIMATE 25 MILES SOUTHEAST OF PHILA-DELPHIA, ON THE CAMDEN AND ATLANTIC RAILROAD

NEW JERSEY.

An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchasers. A population of some Fifteen hundred, from various parts of the middle States and New England have settled there the past year, improved their places, and raised excellent crops. The price of the land is at the low sum of from 15 to \$20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards planted, and a large number of other improvements, making its description. ments, making it a desirable and active place

of business. THE MARKET, LADIES' CHALLI & LAWN as the reader may perceive from its location, is

THE BEST IN THE UNION. Produce bringing double the price than in locations away from the city, and more than double the price at the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of Millions.
