OUR ENDORSERS.
The One Price Regulator.

This immense establishment in our village, under the auspices of Messrs. S. H. Butler and C. H. Thing, which is, and for some time has been attracting marked attention, for the extent of their stock, the quality of their goods and the reasonableness of their prices. Our business relations with these gentlemen have been pleasant and satisfactory. We have always found them. We have always found them courteous, obliging and honorable. One great secret of the large trade the Regulator secures from the country for many miles around, and the very many firm friends in this vicinity, is their strict integrity in business. Olean cannot spare the Regulator. We give a third broadside from their battery this week, to which we refer our readers.—*Olean Advertiser.*

THE ONE PRICE REGULATOR, Olean, is in the field with a new stock of Dry Goods, Boots, Groceries, &c. Everything they offer is worth the money asked; and as for their winning way, they have the secret somehow, of doing double the business of any other House we know of. Their agencies for the sale of Cotton Goods gives them *great advantages* over others. Our friends from this place, who have traded with them need not signify their opinion of us to induce them to *signify* their favor; we ask you, for your own sakes, to give them a call and their goods an examination.—*Cattaraugus Democrat.*

BUTLER and THING, at the One Price Regulator, Olean, are truly benefactors of their race. They buy for cash; sell for cash, practice no deception in business; have but one price, and that extremely low, and we think do a much larger business than any other Dry Goods House in this County.—*South Western New Yorker.*

JEFFREY'S DOUBLE-ACTING SUCTION & FORCE PUMP
WITH
India Rubber Ball Valves.

THE SUBSCRIBER having purchased the right to make and sell this New Pump, feels a confidence that his efforts to bring it into general use, in this county, will be seconded by all who see its construction and operation.
Among the many advantages secured by the use of this Pump; the following may be enumerated:
1. A double action, by which twice the water can be raised at the same time.
2. Great ease in working, thus adapting the *Force Principle* to common wells.
3. The transformation, in a moment, of the Pump into an efficient FIRE ENGINE, thus rendering the loss of dwellings by fire, totally unnecessary.
4. Capability of watering gardens, Lawns, or sprinkling walks, washing windows, &c., with the utmost ease and thoroughness.
5. Power to raise water with slight labor to any reasonable height, as in supplying chambers &c.
6. The convenience of having the Pump in a kitchen, or other rooms of your dwelling, without regard to the location of the Well or Cistern.
7. The easy protection of the instrument against Frost.
8. The ease with which it may be mounted on wheels, or in other ways be made portable.
9. A simplicity which ensures great durability, protects it from being thrown out of cost.
10. Great Cheapness: for the first time bringing the cost of the Force Pump into the neighborhood of the common Section and Chain Pumps, while it is immeasurably superior to both.
Manufactured and for sale by the subscriber, only, at his shop in Mechanicsburg.
A. WOLTERS.
