The next day officers started in pursuit of the ruffians and succeedal in arresting them, but before they could be secured they were rescued by an armed mob and set at full liberty. This aroused the white citizens, who formed themselves into bands to assist in the punishment of the negroes. Recent accounts state that the citizene are determined upon arresting the murderous band who committed the outrages, and the negro population are disposed to protect them, and there is consequently great danger of a general disturbance. The whites and blacks in that and adjoining townships are about equally divided in numbers, and, while the latter are villainous, the former are determined to protect

themselves from outrage. By the Detroit Free Press we also learn that at Chatham, forty miles from Detroit, a gang prices to correspond with the times. The authorities were called upon, but dared not act. The mob was headed by one Shadd, a negro of desperate character.

The Commodore then draws a horrid picture of the evils which impend over the South, thus:

DEMOCRATIC CLUB.

Pursuant to adjournment the Democratic Central Club of M'Kean County met at the Court House, in Smethport, on Tuesday evening, the 7th instant, P. E. Scull presiding.

On motion. The Committee appointed to name suitable persons for permanent officers, prepare a Constitution and draft Resolutions, were requested to report; whereupon the com mittee, through their chairman reported as follows:

Your committee, in the discharge of their luty, present the names of the following per sons as permanent officers of this Club, viz: President, Hon. S. A. BACKUS; Vice Presilent, Guordis Conwin: Corresponding, Secre tary, J. C. Hamlin; Treasurer, W. S. Brown

ELL; Secretary, A. B. ARMSTRONG. The following preamble and Resolutions are also respectfully submitted:

WHEREAS: The political condition of the peonle of our common country at this eventful period would seem to demand a full and faithful expression of our opinions on the great politiical issues of the day, in order that all may understand the position of each partisan element of which our constitutional fabricis composed, to the end that a candid public may dispassionately judge between them and fearl ly decide for the right; therefore,-

Resolved, 1st. That the Democratic Central Club of M!Kean County assert tha unalterable attachment and devotion to the Union of these United States is the chief corner stone upon which our free institutions rest; firmly believing that were this corner stone broken or removed, our time-honored, blood-cemented, and world-renowned political edifice must fall, and in its fall crush out the last expiring ray of cope in the principles that a free people are capable if government, We therefore re-assert, that as a nation, we are one people, with one

Union, and have one common destiny. 2d. That the several States of the Union in eir individual capacity as parties to our constitutional compact, are sovereign and independent, and so long as each confines its action legitimately to the control of its own institutions, without in any way interfering with the domestic or other polity of sister States, there can be no possible danger of a collision beduty of each and every State so to conduct its policy, to the end that our bond of union shall be and remain peaceful and perpetual.

3d. That in our opinion the constant agitation of the Slave Question, kept up by the anti-slavery party of the Northern States, is peace and harmony of this great and growing amily of States. We truly believe it is a question with which the people of the North have nothing to do, and if that question were left out of the Presidential issue, or overshadowed by real questions of truly National importance, and be decided in accordance with a fair construction of the Kansas Nebraska Act, permiting the people of each Territory, when they come to adopt a Constitution for themselves, to decide whether they will reject or admit of Slavery in the New State, National harmony might once more be restored.

4th. That in our opinion the present and past action of the leaders and the press of the Republican party is sectional and aggressive toward the States of the south, that such action is contrary to the compromises of the Federal Constitution, and if persisted in must inevitably result in the disruption of our National compact, as no family of States can live in harmony while the acts of a portion of the family are deadly hostile to the settled policy and long-settled institutions of the others.

5th. That while we cheerfully concede that a large portion of the Republican party are acin attempting to benefit the colored race at the cost of disunion, and at the more fearful cost House, on Thursday evening, the 9th instant, of the blood and the atter desolation of our Southern white bretilren, against whom the

teachers of the Republican creed seek to inflame the passions and prejudices of their sectional friends. We ask them to stop and first estito ourselves and to the civilized nations of the world; let them reflect that the eyes of Christendom are upon us as the first great practical question, "will it pay?"

6th. That we look upon the attempted insurrection of John Brown, at Harper's Ferry. whatever his motives of philanthropy may have been, as none other than the deliberate acts of a traiter to the Constitution and to the best interests of the country that gave him birth. If those who sympathize with his traitorous conduct choose to make a pilgrimage to North Elba, we trust they will not, by their ncendiary teachings, so far incense our brehren of the South as to induce them to erect a barrier between the North and South, so that the friends of the Constitution and Union will not be Mount Vernon.

7th. That we have the charity to believe that a large portion of the Republican party do not sympathize with the John Brown movenent; but we do believe that the speeches and writings of the ultra Abolitionists of the North, would legitimately result in producing such inciendiary outbreaks; and we would rejoice, for the interests of our beloved country, and to me directed, I shall expose to public sale not affiliate with, but separate themselves from such revolutionary fanatics, and truly aid n restoring peace to our distracted country.

8th. That while we cannot sympathize with he proscriptive notions of the so-called American party, in their hostility to foreign emigrants, yet we do sympathize with and ommend them for their love of the Union and hostility to the ultra doctrine of the Antislavery party.

9th. That we sympathize with our brethren of the South in resisting the aggressive spirit of northern fanaticism which has been turned against them and their institutions, at by the Bingham Trustees to Hull & Morse, he same time we ask of them to rebuke the beginning, being part of said lot No. 190; contoo-hasty spirit of disunion which some of taining one hundred and eighty-five (185) acres their over-senstive partizans have promulgated, more or less with the usual allowance of six and in the language of one of our ex-Presi- per cent; about five acres improved; one frame dents, sawait the sober second thought of the and one new steam saw mill. people;" who will, we firmly believe, finally do them even-handed justice.

10th. That we consider the Territories of the United States the common property of the people thereof. IIth. That we are opposed to the re-opening of the African Slave trade, because its prohibition was one of the compromises of the Con. stitution, and because such inhibition is in ac. cordance with the best dictates of humanity.

12th. That a Congressional Slave Code for the Territories, whether Constitutional or not, would not be acceptable to the great mass of

14th. That we sincerely believe that the only way for the people of this Union to resitore harmony between the North and the South twenty-five (25) acres improved, and one is by cultivating a conciliatory and conservative feeling, granting mutual concessions between the two (at present contending) sections.
