Washing Machine Patented Sept. 9, 1856. BY RILEY SMITH

THE WASHBOARD AND BEATER are the two first and most natural implements ever used in Washing Clothes. Notwithstanding it has been the study of inventors to do them away, and for that purpose several hundred patents have been issued, yet it has been stock of Hardware, at prices that cannon fail of no effect. They have failed in their at- to sait the purchaser. tempt. Their machines have been condemned and thrown away, and the Wash Board and

Beater again used in their stead. This machine combines them together, at tached to a progressive lever in such a manne as gives great power to the Beater, while either may be used as the operator may desire. The motion of the Beater is quick and easy, the pressure gentle and powerful, which gives it the advantage over all other machines, and is so decided by competent judges.

Manufactured and sold at Mechanicsburg, by

A. WOLTERS.
Mechanicsburg, March 18, 1858.

FIFTY DOLLARS FORFEIT.

DR. HUNTER WILL FORFEIT \$50 IF failing to cure any case of secret disease that may come under his care, no matter how long standing or afflicting. Either sex are invited to his Private Rooms, 44 North SEV ENTH St., Philad'a, without fear of interruption from other patients. Strangers and others who have been unfortunate in the selection of Physician are invited to call.

IMPOTENCY .- Through unrestrained in lulgence of the passions, by excess or self abuse, the evils are numerous. Premature im potency, involuntary seminal discharges, wast ing of the organs, loss of memory, a distaste for female society, general debility, or consti tutional derangement, are sure to follow. I ecessary, consult the Doctor with confidnce

ne offers a perfect cure. READ AND REFLECT .- The afflicted would do well to reflect before trusting their health and happiness, and in many cases their ives, in the hands of physicians ignorant of If people will pay higher prices for no better ble for one man to understand all the ills the articles at other places, it shall be their own fault and not mine. ble physician has his peculiar branch, in which he is more successful than his brother profess-

ors, and to that he devotes most of his time YEARS OF PRACTICE, exclusively devoted to the study and treatment of diseases of the sexual organs, together with ulcers upon the body, throat, nose, or legs, pains in the head, or bones, mercurial rheumatism, strict-

E. VAN DYKE & S. A. WING.

August 9, 1859. NEW AGRICULTURAL SETTLEMENT.

TO ALL WANTING FARMS, RARE OPPORTUNITY IN A DELIGHT. FUL AND HEALTHY CLIMATE 25 MILES SOUTHEAST OF PHILA-DELPHIA, ON THE CAMDEN AND ATLANTIC RAILROAD

NEW JERSEY. An old estate consisting of several thousands f acres of productive soil has been divided into Farms of various sizes to suit the purchasers. A population of some Fifteen hundred, from various parts of the middle States and New England have settled there the past year, improved their places, and raised excellent crops.

The price of the land is at the low sum of from \$15 to \$20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT 18 CONSIDERED THE BEST. FRUIT SOIL IN. THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining, the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual im-provement. The result has been that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards planted, and a large number of other improve-ments, making it a desirable and active place

of business. THE MARKET,

as the reader may perceive from its location, is THE BEST IN THE UNION. Produce bringing double the price than in locations away from the city, and more than double the price at the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of Millions.

In locating here, the settler has many advan-tages. He is in a few. hours' ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement o comfort and civilization is at hand. buy every article he wants at the cheanest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, devine service, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of the change upon those from the North, has gener-

ally been to restore them to an excellent state In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article. can be procured in the place, good carpenters: are at hand, and there is no place in the Union where buildings and improvements can be

made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood, they will witness the improve-ments and can judge the character of the population. If they come with a view to settle they should come prepared to stay a day or two and be ready to purchase, as locations can

not be held on refusal. There are two daily trains to Philadelphia, and to all settlers who improve, THE RAILBAOD COMPANY GIVES A FREE TICKET FOR SIX MONTHS,

AND A HALF-PRICE TICKET FOR THREE YEARS. THE TOWN OF HAMMONTON.

In connection with the agricultural settle-ment, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufactories. The Shoe business could be carried on in this place and market to good advantage, also cotton business, and manufactories of agricultu-Fal implements or Founderies for casting small articles. The improvement has been so rapid as o insure a constant and permanent increase of business. Town lots of a good size, we do not sell, small ones as it would effect the improvement of the place, can be had at from \$100 and

upwards.
The Hammonton Farmer, a monthly literary and agricultural sheet, containing full information agricultural sheet contained at 25 cents tion of Hammonton, can be obtained at 25 cents

Title indisputable-warrantee deeds given, clear of all incumbrance when money is paid. Route to the land: leave Vine attreet wharf, Philadelphia, for Hammonton by Railroad, at 71 A.M., or 41 P.M. Fare 90 cents. When there inquire for Mr. Byrnes. Boarding conveniences on hand. Parties had better stop with M. Byrnes, a principal, until they have decided as to purchasing, as he will show them

ALL WANTING FARMS IN A DELIGHTsealed envelope by remitting (post paid) two ful climate, rich soil, and secure from frosts.—
