The Scientific American  
TO BE ENLARGED!  
A NEW VOLUME—NEW SERIES,  
To commence on July 24, 1850.

Instead of 416 pages, this Yearly Enlarged Series, will contain SIX HUNDRED and THIRTY-TWO PAGES of Valuable Reading Matter, and thirty-two full pages of Engravings, and will be as instructive to all classes.

The Scientific American is published weekly in quarto form, suitable for binding, and the numbers for a single year contain information in regard to NEW MACHINES, ALL KINDS OF MANUFACTURING PROGRESS, AGRICULTURAL IMPLEMENTS, ENGINEERING, MILLS, &c. In fact, almost every industrial pursuit receives more or less attention in its columns.

SEVEN HUNDRED ORIGINAL ENGRAVINGS.—With the Enlarged Series is presented an opportunity to subscribe and likely to occur again for many years. It will be like commencing a new work—Vol. 1, No. 1. Now Terms \$8 a Year—One Dollar for Six Months.

**WASHING MACHINES.**  
Patented Sept. 9, 1856.  
**BY RILEY SMITH**  
THE WASHBOARD AND BEATER are the two first and most natural implements ever used in Washing Clothes. Notwithstanding it has been the study of inventors to do them away, and for that purpose several hundred patents have been issued, yet it has been of no effect. They have failed in their attempt. Their machines have been condemned and thrown away, and the Wash Board and Beater again used in their stead.  
This machine combines them together, attached to a progressive lever in such a manner as gives great power to the Beater, while either may be used as the operator may desire. The motion of the Beater is quick and easy, the pressure gentle and powerful, which gives it the advantage over all other machines, and is so decided by competent judges.  
Manufactured and sold at Mechanicburg, by A. WOLTERS.

**FIFTY DOLLARS FORFEIT.**  
DR. HUNTER WILL FORFEIT \$50 IF failing to cure any case of secret disease that may come under his care, no matter how long standing or afflicting. Either sex are invited to his Private Rooms, 44 North SEVENTH St., Philad., without fear of interruption from other patients. Strangers and others who have been unfortunate in the selection of a Physician are invited to call.  
IMPOTENCY.—Through unrestrained indulgence of the passions, by excess or self abuse, the evils are numerous. Premature potency, involuntary seminal discharges, wasting of the organs, loss of memory, a distaste for female society, general debility, or constitutional derangement, are sure to follow. If necessary, consult the Doctor with confidence; he offers a perfect cure.  
READ AND REFLECT.—The afflicted would do well to reflect before trusting their health and happiness, and in many cases their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ill the human family are subject to. Every respectable physician has his peculiar branch, in which he is more successful than his brother physicians, and to that he devotes most of his time and study.  
YEARS OF PRACTICE, exclusively devoted to the study and treatment of diseases of the sexual organs, together with ulcers upon the body, throat, nose, or legs, pains in the head, or bones, mercurial rheumatism, stricture, gravel, irregularities, diseases arising from youthful excesses, or impurities of the blood, whereby the constitution has become enfeebled, enables the Doctor to offer speedy relief to all who may place themselves under his care.  
Medicine forwarded to any part of the United States.—Price Ten Dollars per Package.  
For sale, DR. DICKINSON'S CELEBRATED MAGNETO-ELECTRIC MACHINE.—No acid or other ingredient required; its power being obtained from a permanent magnet. No family should be without one. Price only \$10.

**NEW AGRICULTURAL SETTLEMENT. TO ALL WANTING FARMS.**  
A RARE OPPORTUNITY IN A DELIGHTFUL and HEALTHY CLIMATE 25 MILES SOUTHWEST OF PHILADELPHIA, ON THE CAMDEN AND ATLANTIC RAILROAD NEW JERSEY.  
An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some Fifteen hundred, from various parts of the middle States and New England, have settled there the past year, improved their places, and raised excellent crops. The price of the land is at the low sum of from \$15 to \$20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET, as the reader may perceive from its location, is THE BEST IN THE UNION.  
Produce bringing double the price than in locations away from the city, and more than double the price at the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of Millions.  
In locating here, the settler has many advantages. He is in a few hours' ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of comfort and civilization is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest (in the West this is reversed); he has schools for his children, delicious scenery, and will enjoy an open winter and delightful climate, where winters are utterly unknown. The result of the change upon those from the North, has generally been to restore them to an excellent state of health.  
In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market, unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle they should come prepared to stay a day or two and be ready to purchase, as locations can not be held on refusal.  
There are two daily trains to Philadelphia, and to all settlers who improve, THE RAILROAD COMPANY GIVES A FREE TICKET FOR SIX MONTHS, AND A HALF-PRICE TICKET FOR THREE YEARS.  
**THE TOWN OF HAMMONTON.**  
In connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufacturing. The Shop business would be carried on in this place and market to good advantage, also cotton business, and manufactures of agricultural implements or Boundary for raising small ornamental plants. The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell, small ones as it would effect the improvement of the place, can be had at from \$100 and upwards.  
The Hammonton Farmer, a monthly literary and agricultural sheet, containing full information of Hammonton can be obtained at
