WASHING LIACHIND Patented Sept. 9, 1856. BY RILEY SMITH

THE WASHBOARD AND BEATER are the two first and most natural implements ever used in Washing Clothes. Notwithstand-ing it has been the study of inventors to do them away, and for that purpose several hundred patents have been issued, yet it has been of no effects. They have failed in their attempt. * Their machines have been condemned and thrown away, and the Wash Board and Bester again used in their stead.

This machine combines them together, attached to a progressive lever in such a manner as gives great power to the Beater, while either may be used as the operator may desired The motion of the Bester is quick and easy, the pressure gentle and powerful, which gives it the advantage over all other machines, and is so decided by competent judges.
