INPECTINE,

The Persian Fever Charm. For the prevention and cure of Fever and Ague and Bilious Fevers. This wonderful remedy was brought to the knowledge of the present proprietors by a friend who has been a great traveler in Persia and the Holy Land.

While going down the river. Euphrates, he experienced a severe attack of Fever and Ague. On discovering his condition, one of the Boatmen took from his person an Amulet, saying, "Wear this and no Fever will touch you." Although incredulous as to its virtues; he complied, and experienced immediate relief, and has since always found it an effectual protection from all malarious complaints.

On further investigation he found that the boatman attributed to it miraculous powers, and said it could only be obtained from the Priests of the Sun. Sometime afterwards, the gentleman in conversing with a Priest obtained from him the secret of its preparation, and ascertained where the medicinal herbs were found, of which it was compounded. The wonderful virtues of this article have induced a full belief in the minds of the natives in the miraculous healing powers of their Priests.

Since his return to America, it has been tried with the happiest effect by several Ladies and Gentlemen of high character, who have given it the most unqualified praise. This remedy having been a specific in Persia for hundreds of years, for the prevention and cure of Fever and Ague and Bilious Fevers—is now offered to the American people.

It will be sent by mail, prepaid, with full directions for use, on receipt of one dollar.

JEFFREY'S DOUBLE-ACTING SUCTION & FORCE PUMP

India Rubber Ball Valves.

THE SUBSCRIBER having purchased the right to make and sell this New Pump, feels a confidence that his efforts to bring it into general use, in this county, will be seconded by all who see its construction and operation.

Among the many advantages secured by the use of this Pump, the following may be enumerated:

1. A double action, by which twice the water can be raised at the same time.

2. Great ease in working, thus adapting the Force Principle to common wells.

3. The transformation, in a moment, of the Pump into an efficient fire engine, thus rendering the loss of dwellings by fire, totally unnecessary.

4. Capability of watering gardens, Lawns, or sprinkling walks, washing windows, &c., with the utmost ease and thoroughness.

5. Power to raise water with slight labor to any reasonable height, as in supplying chambers &c.

6. The convenience of having the Pump in a kitchen, or other rooms of your dwelling, without regard to the location of the Well or Cistern.

7. The easy protection of the instrument against Frost.

8. The ease with which it may be mounted on wheels, or in other ways be made portable.

9. A simplicity which ensures great durability; protects it from being thrown out of order, and makes any repairs easy and of little cost.

10. Great Cheapness: for the first time bringing the cost of the Force Pump into the neighborhood of the common Suction and Chain Pumps, while it is immeasurably superior to both.

Manufactured and for sale by the subscriber, only, at his shop in Mechanicsburg.

WASHING MACHINE.

Patented Sept. 9, 1856. BY RILEY SMITH

THE WASHBOARD AND BEATER are the two first and most natural implements ever used in Washing Clothes. Notwithstanding it has been the study of inventors to do them away, and for that purpose several hundred patents have been issued, yet it has been of no effect. They have failed in their attempt. Their machines have been condemned and thrown away, and the Wash Board and Beater again used in their stead.

This machine combines them together, attached to a progressive lever in such a manner as gives great power to the Beater, while either may be used as the operator may desire. The motion of the Beater is quick and easy, the pressure gentle and powerful, which gives it the advantage over all other machines; and is so decided by competent judges.

Manufactured and sold at Mechanicsburg, by A. WOLTERS, Mechanicsburg, March 18, 1858.
