YOU WANT IT.
YOUR WIFE WANTS IT.
YOUR CHILDREN WANT IT.
IT WILL CERTAINLY PAY.
AND YOU WOULD HAVE IT.
 You only knew how USEFUL, how INSTRUCTIVE, and how ENTERTAINING it is.
 We refer to that "first best" that "largest, most instructive, most beautiful, and yet cheapest journal in the world for the HOUSEHOLD, for the FARM, and for the GARDEN, viz., the
American Agriculturist
 YOU WANT IT, because it contains so very many new and useful directions, hints, and suggestions about all kinds of outdoor work, in the GARDEN, in the FIELD, in the ORCHARD, in the little plot of ground, about Domestic Animals, etc. etc. The Agriculturist is not a book of theoretical stuff, such as goes the rounds from one paper to another, but it is filled with useful and now practical information, every word of which is reliable, because prepared by honest, practical WORKING MEN, who know what they write about.
 Each volume contains many hundreds of useful hints, and it is certain that many of these hints will each be worth to you more than a dollar. As an example, a subscriber writes: "I obtained 5 bushels more per acre on a 20-acre field of wheat, (or in all 60 bushels) simply from a hint about preparing the seed given in my Agriculturist." Another says he obtained an extra yield of 11 bushels of corn per acre on a 10-acre field, and with no extra cost for culture, by applying one hint from the Agriculturist. Another, (a Miller), says he got \$13 1/4 worth extra pig-garden vegetables, which he attributes wholly to the timely hints in the Agriculturist, which told him from time to time, what to do, how to do it, and when to do it. Thousands of others have derived similar advantages. You are invited to try the paper a year, at a cost of only \$1. If you desire, you can have, free of charge, four or five parcels of choice seeds, which the Publisher will distribute among his subscribers the present winter.
 YOUR WIFE wants the Agriculturist because it has a large amount of valuable and useful information about all kinds of HOUSEHOLD WORK, from Garret to Cellar. Give her the benefit of this paper for a year. You will find your home made better and money saved.
 YOUR CHILDREN want the Agriculturist, for it contains a very interesting, useful, and entertaining department for Youth and Children, which will be of great value to their mind and hearts.
 The above are authentic statements, that will be cheerfully attested by nearly a hundred thousand of the present readers of the Agriculturist. You are invited to try a single volume of the Agriculturist, which will cost only \$1, and abundantly pay. Try it for 1861 (Vol. 20.) ORANGE JUDD, Publisher, 41 Park Row, New York.

WASHINGTON MACHINE
 Patented Sept. 9, 1856.
BY RILEY SMITH
 THE WASHBOARD AND BEATER are the two first and most natural implements ever used in Washing Clothes. Notwithstanding it has been the study of inventors to do them away, and for that purpose several hundred patents have been issued, yet it has been of no effect. They have failed in their attempts. Their machines have been condemned and thrown away, and the Wash Board and Beater again used in their stead.
 This machine combines them together, attached to a progressive lever in such a manner as gives great power to the Beater, while either may be used as the operator may desire. The motion of the Beater is quick and easy, the pressure gentle and powerful, which gives it the advantage over all other machines, and is so decided by competent judges.

JEFFREY'S DOUBLE-ACTING
SUCTION & FORCE PUMP
 WITH
India Rubber Ba Vaves.
 THE SUBSCRIBER having purchased the right to make and sell this New Pump, feels a confidence that his efforts to bring it into general use, in this county, will be seconded by all who see its construction and operation.
 Among the many advantages secured by the use of this Pump, the following may be enumerated:
 1. A double action, by which twice the water can be raised at the same time.
 2. Great ease in working, thus adapting the Force Principle to common wells.
 3. The transformation, in a moment, of the Pump into an efficient fire engine, thus rendering the loss of dwellings by fire, totally unnecessary.
 4. Capability of watering gardens, Lawns, or sprinkling walks, washing windows, &c., with the utmost ease and thoroughness.
 5. Power to raise water with slight labor to any reasonable height, as in supplying chambers &c.
 6. The convenience of having the Pump in a Kitchen, or other rooms of your dwelling, without regard to the location of the Well or Cistern.
 7. The easy protection of the instrument against Frost.
 8. The ease with which it may be mounted on wheels, or in other ways be made portable.
 9. A simplicity which ensures great durability, protects it from being thrown out of order, and makes any repairs easy and of little cost.
 10. Great cheapness for the first time bringing the cost of the Force Pump into the neighborhood of the common Suction and Chain Pumps, while it is immeasurably superior to both.
 Manufactured and for sale by the subscriber, only, at his shop in Mechanicsburg.
