HENRY R. COSTAR.—All the summer I
have been troubled with Roaches and Mice. I
was actually ashamed of the house, for the
Roaches were everywhere. I purchased a box
of your "Exterminator" and tried it, and in one
week there was not a Roach or Mouse in the
house. **JOHN B. GIVENS, No. 94 Elm St.**
HOUSEKEEPERS—troubled with vermin,
need be no longer, if they use "COSTAR'S"
Exterminators. We have used it to our satis-
faction, and if a box cost \$5, we would have
it. We had tried poisons, but they effected
nothing; but "COSTAR'S" article knocks the breath
out of Rats, Mice, and Bed Bugs, quicker than
we can write it. It is in great demand all over
the country. **Medina (O.) Gazette.**
MORE GRAIN AND PROVISIONS are destroyed
annually in Great County by vermin, than
would pay for tons of this Rat and Insect Kil-
ler. **Lebanon (Wis.) Herald.**
HENRY R. COSTAR.—Your Exterminator
is received; used, and pronounced a decided
success. We used a box of it, and the way the
Rats and Mice around our premises "raised
Nod," that night was a caution to sleepers. Since
then not a Rat or Mouse has been heard in
kitchen or cellar. **Magregor (Iowa) Times.**
I HAVE BEEN SELLING—Your Exterminator
for the last year, and find it a sure snare
every time.

ately. **Excess & Strouven, Druggists, New

COURT PROCLAMATION.
WHEREAS the Hon. Robert G. White
President Judge, and the Hon. J. Dar-
ling and N. Peabody, Associate Judges of the
Courts of Oyer & Terminer and General Jail
Delivery, Quarter Sessions of the Peace, Or-
phans' Court and Court of Common Pleas for
the County of McKean have issued their precept,
bearing date Friday, the seventh day of
March in the year of our Lord one thou-
sand eight hundred and sixty-two, and to me
directed, for holding a Court of Oyer and
Terminer and General Jail Delivery, Quarter
Sessions of the Peace, Orphans' Court, and
Court of Common Pleas, in the Borough of
Smethport, on Monday, the 30th day of June
next, and to continue one week.
Notice is therefore hereby given to the Cor-
oners, Justices of the Peace and Constables
within the county, that they be then and there
in their proper persons, at 10 o'clock A. M. of
said day, with their rolls, records, inquisitions,
examinations, and other remembrances, to do
those things which their offices appertain to be
done. And those who are bound by their re-
cognizances to prosecute the prisoners that are
held in the jail of said county of McKean, are
to be then and there to prosecute against
them as will be just.
Dated at Smethport, this 7th day of March
1862, and the 86th year of the Independence
of the United States of America.

PROSPECTUS
OF THE
SCIENTIFIC AMERICAN.
THE BEST MECHANICAL PAPER IN THE WORLD
SEVENTEENTH YEAR.
Volume VI.—New Series.
A new volume of this widely circulated pa-
per commences on the 4th of January. Every
number contains sixteen pages of useful infor-
mation and from five to ten original engravings
of new inventions and discoveries, all of which
are prepared expressly for its columns.
THE SCIENTIFIC AMERICAN is devoted to
the interests of Popular Science, the Mechanic
Arts, Manufactures, Inventions, Agriculture,
Commerce and the Industrial Pursuits gener-
ally, and is valuable and instructive, not only
in the Workshop and Manufactory, but also in
the Household, the Library and the Reading
Room.
To the Mechanic and Manufacturer!
No person engaged in any of the mechanic
pursuits should think of doing without the
SCIENTIFIC AMERICAN. It costs but four cents
per week; every number contains from six to
ten engravings of new machines and inven-
tions, which cannot be found in any other pub-
lication. It is an established rule of the pub-
lishers to insert none but original engravings,
and those of the first class in the art, drawn
and engraved by experienced persons under
their own supervision.
To the Inventor!
The SCIENTIFIC AMERICAN is indis-
pensable to every inventor, as it not only con-
tains illustrated descriptions of nearly all the
best inventions as they come out, but each
number contains an Official List of the Claims
of all the Patents issued from the United States
Patent Office during the week previous; thus
giving a correct history of the progress of in-
ventions in this country. We are also receiv-
ing every week, the best scientific journals of
Great Britain, France, and Germany, thus
placing in our possession all that is transpiring
in mechanical science and art in these old
countries. We shall continue to transfer to
our columns copious extracts from these jour-
nals of whatever we may deem of interest to
our readers.
Chemists, Architects, Millwrights, and
FARMERS!
The SCIENTIFIC AMERICAN will be
found a most useful Journal to them. All the
new discoveries of science of chemistry are

given in its columns, and the interests of the
architect and carpenter are not overlooked; all
the new inventions and discoveries appertain-
ing to these pursuits being published from
week to week. Useful and practical infor-
mation pertaining to the interests of millwrights
and mill-owners will be found published in the
SCIENTIFIC AMERICAN which information they
cannot possibly obtain from any other source.
Subjects in which planters and farmers are in-
terested will be found discussed in the SCIENTIFIC
AMERICAN; most of the improvements in
agricultural implements being illustrated in its
columns.
TERMS.
To mail subscribers—Two Dollars a Year,
or One Dollar for six months. One Dollar
pays for one complete volume of 416 pages;
two volumes comprise one year. The vol-
umes commence on the first of January and
July.

stamps taken at par for subscriptions. Cana-
dian subscribers will please to remit 25 cents
extra on each year's subscription to pre-pay
postage.
MUNN & CO., Publishers,
No 37 Park-row New York.

Scrofula, or King's Evil,
is a constitutional disease, a corruption of the
blood, by which this fluid becomes vitiated,
weak and poor. Being in the circulation, it
permeates the whole body, and may burst out
in disease on any part of it. No organ is free
from its attacks, nor is there one which it may
not destroy. The scrofulous taint is variously
caused by mercurial disease, low living, dis-
ordered or unhealthy food, impure air, filth
and filthy habits, the depressing vices, and,
above all, by the venereal infection. What-
ever be its origin, it is hereditary in the con-
stitution, descending from parents to children
unto the third and fourth generation; indeed,
it seems to be the rod of Him who says, "I
will visit the iniquities of the fathers upon
their children."
Its effects commence by deposition from the
blood of corrupt or ulcerous matter, which, in
the lungs, liver, and internal organs, is termed
tubercles; in the glands, swellings; and on
the surface, eruptions or sores. This foul cor-
ruption, which renders the blood, depresses
the energies of life, so that scrofulous constitu-
tions can only suffer from scrofulous com-
plaints, but they have far less power to with-
stand the attacks of other diseases; conse-
quently, vast numbers perish by disorders
which, although not scrofulous in their nature,
are still rendered fatal by this taint in the
system. Most of the consumption which de-
cimates the human family has its origin direct-
ly in the scrofulous contamination; and many
destructive diseases of the liver, kidneys, brain,
and, indeed, of all the organs, arise from or
are aggravated by the same cause.
One quarter of all our people are scrofulous;
their persons are invaded by this lurking in-
fection, and their health is undermined by it.
To cleanse it from the system, must remove
the blood by an alterative medicine, and in-
vigorize it by healthy food and exercise.
Such a medicine we supply in
AYER'S
Compound Extract of Sarsaparilla,
the most effectual remedy which the medical
skill of our times can devise for this every
where prevailing and fatal malady. It is com-
bined from the most active remedies that have
been discovered for the expurgation of this foul
disorder from the blood, and the rescue of the
system from its destructive consequences.
Hence it should be employed for the cure of
not only scrofula, but also those other affec-
tions which arise from it, such as Eruptions
and Skin Diseases, St. Anthony's Fire,
Roses, or ERYTHRIAS, Eczema, Itch, Boils,
Blisters, Ulcers and Sores, Tumors, Tetter,
and Salt Rheum, Scald Head, Ringworm,
RHEUMATISM, SYPHILITIC and MERCURIAL Dis-
eases, Dropsy, DYSPEPSIA, DEBILITY, and,
indeed, ALL COMPLAINTS ARISING FROM VITIA-
TED OR IMPURE BLOOD. The popular belief
in "impurity of the blood" is founded in truth,
for scrofula is a degeneration of the human or-
ganism, correcting its diseased action, and im-
proving its purpose and virtue of this Sarsapa-
rilla is to purify and regenerate this vital fluid,
without which sound health is impossible in
contaminated constitutions.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC,
are so composed that disease within the range of
their action can rarely withstand or evade them.
Their penetrating properties search, and cleanse,
and invigorate every portion of the human or-
ganism, correcting its diseased action, and restoring
its healthy vitality. As a consequence of these
properties, the invalid who is bowed down with
pain or physical debility is astonished to find his
health or energy restored by a remedy at once so
simple and invigorating.
Not only do they cure the every-day complaints
of every body, but also many formidable and
dangerous diseases. The agent the world is im-
pelled to furnish gratis my American Almanac,
containing certificates of their cures and directions
for their use in the following complaints: *Coughs,*
Nervous Headaches arising from derangement of
Stomach, Nausea, Indigestion, Pain in and Morbid
*Inaction of the Bowels, Flatulency, Loss of Ap-
petite, Jaundice, and other kindred complaints,*
arising from a low state of the body or obstruction
of its functions.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness,
Croup, Bronchitis, Incipient Consump-
tion, and for the Relief of Consumptive
Patients in advanced stages of the
disease.
So wide is the field of its usefulness, and so nu-
merous are the cases of its cure, that almost
every section of a country abounds in persons pub-
licly known, who have been restored from alarming
and even desperate diseases of the lungs by its
use. When once tried, its superiority over every
other medicine of its kind is too apparent to escape
observation, and where its virtues are known, the
public no longer hesitate what antidote to employ
for the distressing and dangerous affections of the
pulmonary organs that are incident to our climate.
While many inferior remedies thrust upon the
community have failed and been discarded, this
has gained friends by every trial, conferred ben-
efits on the afflicted that can never be forgotten, and
produced cures too numerous and too remarkable to
be forgotten.
