SCIENTIFIC AMERICAN. THE BEST MECHANICAL PAPER IN THE WORLD SEVENTEENTH YEAR.

Volume VI .- New Series.

A new volume of this widely circulated paper commences on the 4th of January. Every number contains sixteen pages of useful information and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

The SCINTIFIC AMERICAN is devoted to the interests of Popular Science, the Merhanic Arts. Manufactures. Inventions, Agriculture. Commerce and the Industrial Pursuits generally, and is valuable and instructive not only in the Workshop and Manufactory, but also in the Household, the Library and the Reading

To The Mechanic and Manufactureit No person engaged in any of the mechanica pursuits should think of doing without the Scientific American. It costs but four cents per week; every number contains from six to ten engravings of new machines and inventions, which cannot be found in any other pub ication. It is an established rule of the publishers to insert none but original engravings, and those of the first class in the art, drawn and engraved by experienced persons under

their own supervision. To the Inventor!

The SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

Chemists, Architects, Millwrights, And FARMERS!

The SCENTIFIC AMERICAN will be found a most useful Journal to them. All the new discoveries of science of chemistry are arven in its columns, and the interests of the Architect and carpenter are not overlooked; all the new inventions and discoveries appeithining to these pursuits being published from 

tion pertaining to the interests of millwrights and mill-owners will be found published in the SCIENTIFIC AMERICAN Whiterintermation they cannot possibly obtain from thy other source Subjects in which planters and farmers are in terested will be found discussed in the Sesan-TIFIC AMERICAN; most of the improvements in agricultural implements being illusivated in its

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcors, Sorss, Eruptions, Plimples, Pustules, Hotches, Boils, Blains, and all Skin Discases. Plimples: Tustules, Hiotches, Boils, Blains, and all Skis Dischases.

Oakland, Ind., 6th June, 1869.

J. C. Avan & Co. Gonts: I feel: to my duty to acknowledge what your Sarraparilla has done for me. Having Inhelited a Scrohlous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned lower and distrissed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loath-some beyond description. I tried many medicines and several physicians, but wittout much rollof from any thing. In fact, the disorder grow worse. At length I was rediced to read in the stoppel Messenger that you had prepared an alterative (Saraparilla), for I show from your regutation that any string you made must be good. I sent to Cincinnati and got it, and used it till it cared in. I took it, as you advise, in small doese of a testpoonful over a month; and used almost three bottles. New and itselfity skin soon began to form under the scale which after a while fall off. By skin is now clour, and I knew by his feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I foull you to be one of the specifies of the keys and remain ever gratefully.

Syphilis and Morourial Disease.

New Orlsans, 20th August, 1859.

Dr. J. C. Arran, Sh., I cheefully comply with the regrees of your agent, and report to you some of the effects. I have realized with your Barraparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the dure of Pincest and Mercurial Disease. One of my patients had Syphistic ulcera in his throat, which were consuming his palate and the top of this month. Your Saissparilla, steadily taken, oured him in its weeks. Another was attacked by soondary symptoms in the mose, and the ulceration had eaton away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsajarilla: the ulcers healed, and he is well-again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by merciny was suffering from this polson in her bonest. They had become so sentended for the same disorder by merciny was suffered excruciating pain in her joints and bones. She, too, was cured entirely by your darreparilla in a few weeks. I know from its formula, which your agent gave see, that this Preparation from your laboratory must be a great restrictly; consequently, these truly regisarkable results with it have not surprised ins.

Pratornally yours.

Rhousmatism, Gout, Liver Complaint.

Independence, Presion Co., Val. 6th July, 1859.

DR. J. C. Aver. 8th; I have been addicted with a painful chronic Rhoundism for a long time, which baffed the skill of physiciam, and stuck to me in spite of all the remedies I could find, until I tried your Estasparilla. One bottle cured me in two weeks, and restored my general health sociunch that I am far better than before I was attacked. I think it a wonderful medicine, J. FireAm.

Jules Y. Octchell, of St. Louis, writes: "I have been affected for years with an affection of the Liver, which destroyed my health. I tried overy thing, and avery thing failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. Bly belowd pasier, Ris Rev. Mr. Espy, advised in tetry your Sarasparilla, because he said he knew you, and any thing you made was worth trying. By the bisseing of God it has cured me, and has so putilised my blood as to make a new man of me. I feel young again. The best that can be said to you is not half good enough."
