AGREEMENT FOR THE MILLION.
AND A
SPLENDID AND APPROPRIATE HOLIDAY PRESENT.
MME. DEMOREST'S
RUNNING STITCH
\$5 Sewing Machine.

The embodiment of practical utility, and a marvel of simplicity; makes the running stitch very rapidly and perfect, uses a common needle and will last a lifetime. At the New York State Fair, its simplicity, efficiency, and great practical utility, was confirmed by the award of the First Premium.

It will Gather, Ruffle, Shirr, Tuck, Run up Breadths, etc., with a single or double thread on any material adapted to the Running Stitch. The thinness, usually the most difficult to stitch by other sewing machines, being sewed by the "runner" for ladies' and children's apparel, and other articles made of light fabrics, it will therefore be found almost invaluable.

It is attached to the table like a sewing bird, and having no tension, and requiring no lubrication or change of sticfil, is always ready for operation, and such a marvel of simplicity that a child six or eight years can understand it, and use it successfully.

It is not at all liable to get out of order. Each machine is put up in a neat box, accompanied with full and explicit directions, and twenty five needles.

(Sent to any address in the United States on receipt of an order, enclosing the amount, or may be collected by Express on delivery of the machine.)

When the money is sent with the order and registered, we guarantee its safe receipt and the delivery of the machine, anywhere within 2000 miles free of any Express charges.

Very liberal arrangements for agencies.

See Mirror or Fashions, or for full particulars, specimen of sewing, etc., send a stamp for return postage.

Address, **MME. DEMOREST,**
 473 Broadway, N. Y.

Every lady, mother, milliner and dress-maker, should have one of these valuable sewing machines.

ILLUSTRATED
SCIENTIFIC AMERICAN.
 THE BEST MECHANICAL PAPER IN THE WORLD.
 EIGHTEENTH YEAR.
 Volume VIII.—New Series.

A new volume of this widely circulated paper commences on the 1st of January. Every number contains sixteen pages of useful information and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

To the Mechanic and Manufacturer.
 No person engaged in any of the mechanical pursuits should think of doing without the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which cannot be found in any other publication. It is an established rule the publishers insert none but original engravings, and those of the first class. In the art, drawn and engraved by experienced persons under their own supervision.

To the Inventor!
 The SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of progress of inventions in this country. We are also receiving; every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

Chemists, Architects, Millwrights, and FARMERS!

The SCIENTIFIC AMERICAN will be found a most useful Journal to them. All the new discoveries of science of chemistry are given in its columns, and the interests of the Architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners will be found published in the SCIENTIFIC AMERICAN which information they cannot possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the SCIENTIFIC AMERICAN; most of the improvements in agricultural implements being illustrated in its columns.

THE WEEKLY JOURNAL OF COMMERCE.
TO OUR SUBSCRIBERS.
 The commencement of a new year is a good time for renewing subscriptions and increasing the circulation of the Journal of Commerce.—We address ourselves to the old readers of the paper, with entire confidence to their willingness to aid us; and extend the influence of the sound conservative principle and morals, which have hitherto characterized and will hereafter characterize this paper. Every Subscriber to the Journal of Commerce might do a great service to these principles, and strengthen us in our ability to support and circulate them, by sending us the name of at least one new subscriber in his town.

Devoted firmly as we have been to our country's interests, and having long been called "Union Savers" as a term of reproach, we are and shall be the firm upholders of THE UNION AND THE CONSTITUTION opposing with heart and pen every man, South or North, who is an enemy to either. Every form of disorganization and revolution will find us ready for the combat. Among the foes of the American Union and American principles, we rank side by side **ABOLITIONISM AND SECESSIONISM,** and we propose with all our strength to defend the nation against the attacks of both.
