These Parties have now been in general use a numbe of yeas, and give better satislaction than phy other, and are recommended as

TTE BEST!

by Capt Erricson, and other eminent Engineers We can refer to thousands using them, and guarantee that all will recommend them. They are more simple in construction, and work eac er, and cost less than all others.

Our readers will find the double acting im proved Pump of J. D. West & Co., one of the best in the market. It is very simple, works to a charm, so that any child may use it; throws a steady continuous stream, and does not freeze in the coldest exposures, and is unusually cheap. We say this knowingly, and give the testimony of our own accord, without the knowledge of request of the proprietors."-N-Y. Evening Part, July 1st, d863.

This may certify that I have been using, atmy manufactory, for the last four years, West's Improved Pumps.? I now have in use three of said numps, one of which is kept constantly at work; 24 hours each day (except Sundays) and pronunce them, unbesitatingly, the best pumps that have been brought to my notice, having used many others previously. They are sim-ple in their construction, and not easily disar-ranged. New York, Oct. 40, 1859.

J. D. WEST & Co. :- We are pleased to state that the Pumps we had of you; about a year ago have been in constant use, 12 hours each day, and raise for the use of our Woolen Factory, about 130 gallons per minute. They work with but little power, compared with pumps we have used before, and do not get out of repair, and are satisfactory in all resyects. Yours, &c., DUNLAP MANUFATURING COMPANY.

Soton Robinson to the farmers Club, Jan. 23: No larmer who owns a well or cistern can possibly afford to be without an iron pump. It should be at once a suction and force pump-a perfect little fire engine-such a one known as West's Improved Pump? I speak of this pump because I happen to know it to be very simple; durable, powerful any cheap, and it don't freeze. up, nor get out of order once a year. I know this, and think I may be doing the farmers good by speaking of it. A boy 10 years old ean work it, and throw a continuous inch-anda quarter stream. It can be made to work in deep wells as well in as in shallow ones."

#### From the New York Observer.

We have had in use for months past one of West's Pumps, which has given us more satisfaction as a force and lifting pump than any we have ever used. It is one of great power, and well adapted for ship's decks, mines, factories, green houses, grapeties, &c., &c. The Mining Chronicle and railway Journal says: It is recommended for its extreme simplicity of

construction, great strength, and consequent durability and cheapness of repair. There is no stuffing box-the pressure beidg held by a cup packing, like that upod the working piston, orking in a cylinder, fitted for the purpos within the upper air chamber-which we think argreat improvement, as stuffing is so liable to be deranged, and leak under strong pressure, to say nothing of the loss by friction incident thereto. It has also two air chambers; thus the action of the valve is cushioned upon both sides by air-preventing water hammer, and vacum thump. The valves are very accessible, and simply and cheaply repaired. They work much easier than any pump we have ever seen; the 4 inch cylinder being worked by children in wells 100 feet deep, and they are extremely chesp as well as simple and strong, we freely recommend them.

Gt. Neck L. I., 1860. Lhave used this pump for one summer and winter, exposed to the North West wind com-ing over Long Jeland sound, being the coldest

STOMACH BITTERS.

A Pure and powerful Tonic, corrective and alrtenative of wonderful efficacy in disease of the

## STOMACH, LIVER AND BOWELS.

Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousnes, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Cramps and Spasms, and all Com-

plaints of either Sex, arising from Bodily Weakness whether, inherent in the system or produced by special. causes.

Fothing that is not wholesome, genial and re storative in its nature enters into the composi tion of HOSTETTER'S STOMACH BITTERS This popular preparation contains no mineral of any kind, no deadly botanical element: no fiery excitant: but it is a combination of the extracts of rare balsamic herbs and plants with

he purest and mildest of all diffusive stimulants. It is well to be forearmed against disease, and, so far as the human system can be protected by human means against maledies engendered by un unwholesome atmosphere, impure wa ter and other external causes, HOSTETTER'S BITTERS may be relied on as a safeguard. In districts infested with Eever and Ague, has been found infallible as a preventive and irresistible as a remedy and thousands who resort to it under annrehension of an attack escape the soourge; and thousands who neglect. to avail themselves of its protective qualities such as Urethral and Vaginal Discharges, Gleet, in advance, are cured by a very briel course of thir marvelous medicine. Fever and Ague patients, after being plied with guinine for months, in vain, until fairly saturated with that dangerous alkaloid, are not unfrequently restored to health within a few days by the use HOSTETTER'S BITTERS.

The weak stomach is rapidly invigorated and the appetite restorned by this agreeable. Tonic, and hence it works wonders in cases of Dispepsia and in less confirmed forms of Indigestion. Acting as a gentle and painles apperient, as well as upon the liver, it also invariably relieves the Constinutation superinduced by irregular action of the digestive and secretive or gans.

Persons of feeble habit, liable to Neruous Attacks, Lowness of Spirits and Fits of Languor, find prompt and permanent relief from. Bitters The testimony on this point is most conclusive and from both sexes. The agony of Billious Colic is immediately

assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the

complaint may be prevented. As a General Tonic, HOSTETTER'S BIT-TERS produce effects which must be experienceil or witnessed before they can be fully appreciated. In cases of Constitutional Weakness Premature Decay and Debility and Devreptiude arising from Old Age, it exercices the electric influence. In the convalencent steges of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed,
