To Correspondents.

The communications of H. C. M. have been received. We would kindly recommend to our young friend not to hazard the publication of his pieces yet awhile; for although they manifest poetical talent, we do not consider them exactly of that high order of merit as to entitle them to a place in our columns .- With more practice and care, we doubt not but that his future efforts will reflect credit upon their au-

#### Close Calculation.

We were amused at the calculation of the probable result of the Presidential election in this State, made a few days since, as we are informed, by two loco foco ex-members of the Legislature not a thousand miles from this place. - One of them, gave it as his opinion, that Van Buren's majority in Pennsylvania would be about 1000 -the other, not quite so sanguine, thought that it would not be quite so much, but that it might reach 800. Don't quarrel gentlemen, the Tippecanoe boys will save you the trouble of calculating majorities.

An incident occurred at the town election in Hallowell yesterday, which is worthy of note. A Loco-foco, who has figured in the Brandon Bank transactions in Mississippi, but who now resides in this town, came up to the polls with a negro man, whom he had brought with him from Mississippi, and attempted to get in his vote for the Van Buren Governor.
