

JEFFERSONIAN REPUBLICAN

Stroudsburg, Pa. Dec. 11, 1840.

Terms, \$2.00 in advance; \$2.25, half yearly; and \$2.50 if not paid before the end of the year.

DEMOCRATIC CANDIDATE FOR GOVERNOR.

JOHN BANKS,

Subject to the decision of the State Convention.

We this week hoist the name of the Hon. JOHN BANKS as the candidate of our choice for the gubernatorial chair. We have long been of the opinion that he is the man best calculated to unite the party in this State, and we have delayed placing his name at the head of our columns, only because we wished to consult our friends, whose sentiments we are happy to say accord with our own. John Banks is not the choice of one section of the State alone; he is, although now an eastern man, also well known in the west, and several of the western papers have declared their preference for him. His early life was spent among the people of the west, who honored him with their confidence, and elected him to represent them in Congress; and since his residence in this section, he has acquired the friendship and esteem of all who know him.

The following papers in addition to our own have declared in his favour. The Whig and Journal, Northampton; Lehigh Patriot, (German,) Berks & Schuylkill Journal; Juniata Aurora; Crawford Statesman; at Meadville; Mercer Luminary, at Mercer; Erie Gazette, at Erie; Western Argus, at Beaver; and Indiana Register, at Indiana.

Our readers will perceive by referring to the advertisement in another column, that Thomas McElrath, Esq. will offer at public sale, on Tuesday the 29th of December inst., a number of building and pasture lots in the Borough of Stroudsburg. An excellent opportunity will then be afforded to all who may be desirous of owning real estate in this beautiful and flourishing place.

Almost an Accident.

Extract of a letter to the Editor, dated,

TOBYHANNA, Nov. 28th 1840.

On Wednesday last, a young lady accompanied by a small boy 8 years old, went about half a mile into the woods to bring home some cattle which had strayed out during the night. They had driven the cattle but a short distance when they heard a rattling in the brush behind them, and on turning round beheld to their great terror a large Buck in full speed after them and to all appearance determined on making battle. The party being unarmed, could of course make but little defence. The Buck came up, attacked the boy and knocked him down with his horns; the girl endeavored to defend the boy and was in turn knocked down by the Buck, which immediately fell to goring her. She with remarkable presence of mind caught hold of both horns, and in this manner prevented him in some degree from doing her serious injury. The boy improved this opportunity and began to pelt him with stones. The "antler'd monarch" did not appear to relish this fun, and the girl relinquishing her hold, he made tracks again for the forest.

An Old Fashioned Snow Storm.

We mention for the information of our readers at a distance, that we have, for the last two days, been visited with a snow storm of greater severity and longer duration than has marked this section of the Country for a number of years. The snow commenced falling about three o'clock on Friday afternoon, and continued with little interruption throughout the night. On Saturday morning, the ground was covered to the depth of about six or eight inches, and the sleigh-bells were heard ringing merrily in our streets. But the storm had only paused apparently, to commence with greater violence. Thus, about eleven o'clock on Saturday night, the flakes commenced falling, accompanied with a most terrific wind from the N. E. From that time until the present morning, Sunday evening, we have been in the midst of a snow-storm of extraordinary violence. The ground on a level, is covered to the depth of from a foot to eighteen inches, while in some places, the snow has drifted; and presents huge piles to the depth of many feet. To the South and West, we are informed, the case is still worse. The rail-roads are completely buried to the extent of a long distance at some points, while the ordinary roads are blocked up, and rendered almost impassable. The river Delaware throughout Saturday night and Sunday morning, was lashed into unusual fury, so that the steamboats were tossed about, as if they had been on a stormy lake. We fear that we

shall hear of sad tales of suffering on the coast; while the immense quantity of snow that has fallen, will, should we now be visited by very cold weather, not only at once close up our Canals and freeze up the Schuylkill, but also make large quantities of ice in the Delaware. We repeat a hope that our affluent citizens will, at a moment like the present, remember the necessities of the poor. The storm has been so sudden and so severe in its character, that many of the indigent must have been altogether unprepared for it.—Pa. Inq.

Ex-Gov. Shulze.

On motion of Thos. P. Cope, Esq. a vote of thanks to Gov. Shulze, was adopted by the Electoral College of Pennsylvania, in relation to the manner in which he discharged the duties of presiding officer—whereupon the Ex-Governor rose and delivered the following neat and appropriate address:—

"Gentlemen of the Electoral College:

"Allow me to detain you, but for a few moments, before our final adjournment, while I express my satisfaction at the successful close of the duties assigned to us. The cause of our assemblage here, is indeed calculated to warm the heart of every patriot—it is the cause of the people—the consummation of a triumph over error, and achieved by those who well know how to appreciate every success obtained in a struggle for liberty. True it is, that at times, we slumber—the people are indulgent, and submit to evident wrongs, in expectation of a change, which may eventuate in the happiness of our common country. But when protracted sufferings are endured without executive relief, the people step forward in their sovereignty and call for Reform. This has recently been exemplified in a manner, not to be mistaken; and every patriot must rejoice in the success of a cause, so glorious to our country, so fraught with national blessings.

Far be it from us to denounce those who honestly differ from us in opinion—many worthy individuals entertain sentiments on political policy, inconsistent with our views. But we feel assured that before long, those who opposed our efforts, now so happily consummated by the action of this body, will find a cheering recompense for all their disappointments, in the return of our country to that happy policy, which distinguished the administrations of Thomas Jefferson and his immediate successor.

I shall only add, my cordial and sincere expression of thanks for the indulgence and respect, uniformly extended to me, while presiding over your important deliberations, and for your assistance to one unaccustomed to situations of similar responsibility, and unfamiliar with their rules. Permit me to wish each of you, individually, a safe and happy return to the cherished bosom of his family. May success ever attend our exertions in the glorious cause of political reform, and all be actuated by such high and patriotic views, that our country at large shall feel their benignant influences, and our children's children reap the blessed results."

Harrison and Tyler, the President and Vice President elect of the United States, were both born and 'raised' in Charles City County, Virginia, and in that county nearly all the voters cast their ballots for them. Gen. Harrison was born on a plantation then, and now called CABINET POINT, and it is a somewhat singular coincidence that he became the LOG CABIN candidate for the Presidency. John Tyler's birth place was in the same neighborhood. The parents of both were of the Old Virginia Stock, and were distinguished alike for wealth, patriotism and public services. The two counties of Harrison and Tyler, in Virginia, were named for these gentlemen; and what may now seem a curious coincidence, are conterminous.

The above facts we learn from the New York Journal of Commerce.

MARRIED.

On Thursday the 3d inst., by the Rev. Mr. Flannery, Mr. JOHN SMITH, of Lehigh township, Pike County, to Miss CATHERINE GRIFFIN, of Stroud township, Monroe County.

On Saturday the 5th inst., by Franklin Starbird, Esq. Mr. JOHN BUSER, and Miss ELIZABETH PUGH, all of Stroud township.

On Monday the 7th inst., by the Rev. Mr. Flannery, Mr. CHARLES WATERS, of Wilkesbarre, Luzerne County, to Miss MARY ANN DELONG, of Stroud township, Monroe County.

JOHN F. WOLLE.

Stroudsburg, Nov. 2, 1840.

THE CONSTITUTION.

What is that we call the Constitution? The constitution is evidently that which constitutes, and that which constitutes is the blood. We, therefore, know that the blood is the constitution, and that a good or bad constitution is neither more nor less than a good or bad state of the blood. There is no person who, having lost health, does not wish to have it restored. Use then the proper means. Expel with Purgative Medicine all corrupt humors from the body, and the blessing, Health, will be the certain result: for all pains or unpleasant feelings proceed from the presence of corrupt or vitiated humors, which are the real cause of every disease, and therefore the only disease to which the human frame is subject, because they clog up the veins and arteries, and prevent the free circulation of the blood.

Brandreth's Vegetable Universal Pills cure this disease: because they remove the corrupt or vitiated humors by the stomach and bowels, leaving the good humors to give life and health to the body. It is morally impossible that they can fail to cure, provided Nature is not entirely exhausted.

Dr. Brandreth's Office for the sale of his pills in Philadelphia, is No. 8, North Eighth street. Sold in Stroudsburg, by RICHARD S. STAPLES, in Milford, by J. H. BRODHEAD, and in Monroe and Pike counties, by the agents published in another part of this paper.

October 16, 1840.

TIMOTHY SEED,

For sale by the subscriber,

WM. EASTBURN.

Stroudsburg, Feb. 14, 1840.

KEEP IT BEFORE THE PEOPLE.**Doct. Joseph Priestly Peters'**

CELEBRATED VEGETABLE ANTIBILIOUS PILLS, are daily effecting some of the most astonishing and wonderful cures that have ever been known, the town and country are filled with their praise, the Palace and Poor-house alike echo with their virtues in all climates and under all temperatures they still retain their wonderful virtues.

PETERS' VEGETABLE PILLS.

Breathes there the man who may not be occasionally benefited by the use of Peters' Pills? No, assuredly not; for the human frame, like any other structure, will fall into confusion and ruin, if neglected; but, by the aid of medicine judiciously applied, it is enabled to preserve a healthy and even tone; and it is the first of well-tested public opinion, that Dr. Peters' pills are the medicine of medicines in the prevention or cure of the general diseases which the human tenement is incident to.

Do men in robust health require medicine? Certainly, for the very excess of health begets certain diseases unless duly regulated. If the blood is suffered to run riot without correcting laxatives, costiveness, megrim, biles, scurvy, pimples, furred tongue, or offensive breath, are the inevitable consequences; for exuberance of health, like over-rich soil, becomes rank, and prone to the production of weeds, if care is not taken to have it judiciously moderated.

But healthy men have an antipathy to the very name of medicine! And no wonder, for nineteen-twentieths of all the medicines in the world, commence operations by making the people very sick, whom it was intended they should make very well; and thus in most cases the cure is considered rather worse than the disease. But Dr. Peters' Pills is the celebrated and particular exception to this almost universal rule. In them there is no griping, no nausea, no sickness of any kind; nay, they are absolutely very pleasant to the taste, and rest as quietly on the stomach as so many confts of green peas, even when their operations are as sudden and effective, as if they were as disagreeable and as sickening as an old fashioned bolus. Thus the man who uses Peters' Pills, [and where is the man that does not use them?] expels headaches, fevers, blue devils, blotches, pimples, &c. &c. and makes his blood course as limpid and as gently through his veins as a mountain rivulet, without having put himself to any more inconvenience in taking the medicine than he would have done in swallowing so many black currants.

Should ladies take Dr. Peters' Pills? Doubtless they should, for they not only assure them of health, complacency of spirits, and every bodily comfort, but through their miraculous agency in the purification of the blood, speedily remove every thing pertaining to harshness, pimples, or casual scurvy, from the flesh, animates the eye, and gives an elasticity and a vigor to the limbs, and the general carriage; and hence, when you see a lady with a cheek of velvet softness, a pure lily and carnation complexion, and an easy & graceful bearing, the general inference to be drawn is, that she is her own physician, and very particular in the choice of her medicine; and the especial one, that she is a patron of Peters' Pills.

Leaving health out of the question, should poets, novelists, editors, machinists, and men of genius and science in general, patronize Peters' Pills? Unquestionably, for the vigor which they impart to the frame, exercises a most wholesome influence upon the intellect: and the writer of this feels justified in saying, that any person about to carry out an idea, whether of composition or invention, will have a more lucid understanding of his subject, and think better and more to the point on it, after he has vivified his system by a dose of from one to four of Peters' pills. Persons in business, merchants, store keepers, clerks, speculators, &c. will derive great advantage from them on the same principle: for if the mind is not buoyant, no man can attend to the usual pursuits of life with due perspicuity, judgment, and pleasure and there is nothing in the world, at least that has been ever discovered, so efficient in brightening the faculties, and freeing them from participating in the languor, decay, and imperfection of their mortal abode as Dr. Peters' pills.

To what may be attributed these singular and wonderful effects? Why, to their mysterious and inevitable action upon the chyle, and that particular region of the system whence the living fluid is generated; for thus they do not only purify the blood, but create pure blood, the issue of which is healthy veins, arteries, and other functions, unobscured vision, firm and pulpy flesh, smooth and clear skin, and the consequent buoyancy of heart, feeling, and action. In short, whether we take them as a matter of health, business, feeling, or personal appearance, there is none of us should leave our houses without a regular supply of Peters' Pills.

More than six millions of boxes of these celebrated pills have been sold in the United States, Canada, Texas, Mexico, and the West Indies, since January 1835. The certificates that have been presented to the proprietor, exceed 20,000, upwards of 500 of which are from regular practicing physicians—who are the most competent judges of their merits.

TESTIMONIALS.**OPINIONS OF THE REGULAR FACULTY.**

The following are but a few taken at random, from a pile of complimentary epistles forwarded to Dr. Peters by regular physicians, touching the efficacy of his pills. He feels proud and grateful in being able to lay such documents before the public.

New Orleans, April 24, 1837.

Dear Sir—As an old classmate of yours in Yale college, I take the liberty of opening a correspondence.

I learn that you are making a fortune by the sale of your pills, which I trust is the case as I am fully aware that through them you are conferring a great blessing on the public.

I myself am among those who have been peculiarly benefited by their use. Since my arrival here I had been subject to severe bilious attacks, which had nearly brought me to the grave, but (and I acknowledge it with gratitude,) a few boxes of your pills have completely restored me. I would add that their effect upon Sick Headache and sour stomach is almost miraculous.

With sentiments of esteem,

H. M. SHEPHERD, M. D.

Clarksville, Mecklenburg Co., Va., Feb. 7, 1837. Dear Sir—I embrace this opportunity of expressing to you my pleasure at the unrivalled success of your pills in this section of the country. It is the general fault of those who vend patent medicines to say too much in their favor; but in

regard to your pills I am firmly persuaded that they deserve far more praise than you seem inclined to give them. Six months ago they were scarcely known here, and yet at present there is no other medicine that can compare with them in popularity. In Dyspepsia, Sick Headache, derangement of the Biliary organs, and obstinate constipation of the bowels, I know of no agent more prompt and efficacious; and I have had considerable experience in all these complaints.

I would add that their mildness and certainty of action render them a safe and efficient purgative for weekly individuals; and that they may be given at all times without apprehension of any of those injurious consequences which so frequently attend the application of calomel, or blue pill. On the whole I consider your Vegetable Pills an invaluable discovery. Very respectfully,

S. H. HARRIS, M. D.

Charlotte, N. C., January 1, 1837.

Dear Sir—I have made frequent use of your pills in the incipient stage of Bilious Fever, and obstinate constipation of the bowels; also in the enlargement of the Spleen, Chronic Diseases of the Liver, Sick Headache, General Debility, and in all cases have found them to be very effective.

J. D. BOYD, M. D.

Mecklenburg Co., Va., February 7, 1837.

Having used Dr. Peters' Pills in my practice for the last twelve months, I take pleasure in giving my testimony of their good effects in cases of Dyspepsia, Sick Headache, Bilious Fevers, and other diseases, produced by inactivity of the liver. They are a safe and mild aperient, being the best article of the kind I have ever used.

GEORGE C. SCOTT, M. D.

Extract of a letter by Dr. Joseph Williams, of Burlington, Vt. July 9, 1837.

"I cordially recommend Peters' Pills as a mildly effective, and in no case dangerous family medicine. They are peculiarly influential in costiveness and all the usual diseases of the digestive organs."

Extract of a letter from Dr. Edward Smith, of Montreal, U. C. September, 29, 1836.

"I never knew a single patent medicine that I could put the slightest confidence in but Dr. Peters' Vegetable Pills, which are really a valuable discovery. I have no hesitation in having it known that I use them extensively in my practice, for all complaints, (and they are not a few,) which have their source in the impurity of the blood."

Extract of a letter from Dr. Pye, of Quebec, L. C., March 6, 1837.

"For bilious fevers, sick headaches, torpidity of the bowels, and enlargement of the spleen, Dr. Peters' pills are an excellent medicine."

Those who have used these valuable Pills in this State, give them the preference to all other kind. Prepared by Joseph Priestly Peters, M. D. inventor and sole proprietor, No. 129 Liberty street, New York.

These Valuable Pills can be obtained of Doct. Samuel Stokes and J. D. & C. Malvin's, Stroudsburg, only agents for Monroe county. Stroudsburg, October 23, 1840.

CURING PRACTICE.

The principle of purifying the body by purging with vegetable physic is becoming more and more understood as the only sensible method by which sound health can be established. Hundreds of individuals have become convinced of this doctrine, and are daily acknowledging the practice to be the best ever discovered. Now is the unhealthy season when our bodies are liable to be affected with disease; and now is the time the state of the stomach and bowels should be attended to, because on the healthy state of those organs depends the healthy state of the general system; and every one will see at once, if the general health be bad while that remains, local disease cannot be cured.

All the medicine that is requisite to restore the body to a state of health is Brandreth's Vegetable Universal Pills, which have performed cures upon thousands of helpless and hopeless persons, after the usual scientific skill of physicians have consorted them with the assurance that they could do no more. The properties of these Pills as anti-bilious and aperient medicine are unrivalled; all who use them recommend them, their virtues surpass all eulogy, and must be used to be appreciated. The weak and delicate will be strengthened by their use, not by bracing but by removing the cause of weakness, the gross and corrupt humors of the body. They require no change in diet or care of any kind. Plain directions accompany each box, so that every one is his own competent physician. Remember, none are genuine sold by druggists.

DR. BRANDRETH'S Office in Philadelphia for the sale of his Pills, is No. 8, North Eighth street.

Agents for Monroe and Pike Counties are at the following places:

MONROE COUNTY.

Stroudsburg, RICHARD S. STAPLES. New Marketville, TROXEL & SCHUCH. Duttsburg, LUKE BRODHEAD.

PIKE COUNTY.

Milford, JOHN H. BRODHEAD. Bushkill, PETERS & LABAR. Dingsman's Ferry, A. STOLL & Co.

Observe, no pills are genuine sold under the name of Brandreth's in Monroe or Pike counties, except those sold by the above agents.

B. BRANDRETH, M. D.

October 16, 1840.—ly.

CARDING AND FULLING.

The Carding and Fulling business, will be carried on by the subscriber at the above named stand and he would be pleased to receive the patronage of his old customers and the public generally. The price of wool carding will be 4 cents cash or 5 cents trust per pound. Wool or cloth will be taken away and returned when finished at J. D. & C. Malvin's store, Stroudsburg, on Saturday, every week, where those indebted to the late firm, can meet the subscriber and settle their accounts. Bushkill, June 1st. J. A. DIMMICK.
