

The Case of McLeod. The newspapers and the Washington letter-writers have been prolific with speculations and surmises during the last ten days, touching the character of the despatches brought to Mr. Fox by the steamship President, in regard to the case of McLeod.

Such, doubtless is the fact, and the despatches received by Mr. Fox unquestionably relate in chief to this matter. The next point of consideration is the tone of these despatches. Rumor has made that tone lofty and belligerent; and such is the commendable circumspection with which cabinet discussions are now conducted, that although the writer has been an attentive observer of men and things at Washington for the month past, he has been able to obtain no hint, even of a semi-official character, either to sustain or invalidate the rumor.

From the American cabinet, the public may rely upon it, there will be no premature disclosures; but we nevertheless entertain no doubt that whenever those disclosures do come to light, it will appear, first, that the British Government avows the capture and destruction of the Caroline as its own act. It demands the release of McLeod. The demand, though peremptory, is made in terms perfectly courteous.

Such, we doubt not, is the tenor, in brief, of the despatch from Mr. Fox, which, for several days past, has been the subject of earnest cabinet consideration at Washington. Meantime we feel no hesitation in expressing our belief that Mr. Fox has already in his possession the order of his Government to demand his passports and withdraw from the seat of Government, whenever the demand shall be refused.

Fortunately the destinies of the nation are now in the hands of men in all respects adequate to any crisis that can arise either in our foreign or domestic relations. Meantime, with excellent forecast, the distinguished pacificator, General Scott, has been ordered to the frontier, to remain during the forthcoming trial of McLeod, and it is suggested that Mr. Crittenden, the new Attorney General, will be on the spot, to speak the voice of the American cabinet, should occasion require.

The grand jury have found a bill for fraudulent insolvency against Theodore M. Moore, late cashier of the Philadelphia Loan Company.

SOMETHING NEW.—The Utica Observer says that a new article for stuffing cushions, sofas, mattresses, &c., has been lately manufactured in that city. It is made of common bass wood cut into fine threads and appropriately curled for the purpose. It is light and soft and resembles a fleece of coarse wool, can be produced with great rapidity, and at a less cost than the cheapest of other articles now in use.

SMALL POX.—Vaccination.—In London during the eight weeks ending January 16, 540 died of small pox.—Of these 6 had previously had an attack of natural small pox; 4 had been inoculated, 80 vaccinated, and 488 not vaccinated. Of the 80 who had been vaccinated, 6 died between the ages of 2 and 6 months; 11 between the ages of 6 and 12 months; 16 from 1 to 3 years; 13 from 3 to 5; 11 from 5 to 10; 2 from 10 to 15; 7 from 15 to 20; 4 from 20 to 25; 5 from 25 to 30; 3 from 30 to 35; and 2 from 35 to 40. This statement, while it goes to corroborate the opinion of many physicians that vaccination is not a permanent protection against the small pox, shows that the danger of imbibing the disease diminishes every year. Between the ages of 1 and 3, it will be seen that the deaths were 16, while between the ages of 20 and 40 but 14 died.

Sudden Death in a Ball Room.—At the large Ball given in Portland, in the Exchange Hall, before the dancing had begun, Mr. Wm. Parker, having led his partner to the floor for the purpose of taking part in the first dance, fell suddenly to the floor, and was carried out of the room. A surgeon was immediately called, and he was found lifeless.—His death was occasioned by an organic disease of the heart. The appalling event was not generally known in the hall, and the entertainments of the evening were not interrupted.

Harrison's Specific Ointment.
The great celebrity of this unrivalled Composition—especially in the *Northern States*—leaves the proprietor but little need to say any thing in its favor; for it has been generally conceded to it, that it is beyond all comparison the best remedy for external complaints that has ever been discovered. Indeed the speed and certainty of its operations have the appearance of miracles: as ulcers, wounds, corns, fever sores, chilblains, white swellings, bites, piles, spider and snake bites &c.—immediately yield to its apparently super human influence. Thus if properly applied it will remove an inveterate, corn or break and heal a bile in five days, will allay and perfectly cure an ulcer in two weeks; and the most desperate cases of white swelling that can be imagined, have been destroyed by it in less than two months. In the bites of poisonous reptiles its efficacy is truly surprising; and even in the bite of a rabid dog, for if applied in time, its powers of attraction are so wonderful that they will at once arrest the poison and thus prevent it from pervading the system. It is likewise greatly superior to any medicine heretofore discovered for the chafed backs and limbs of horses—for tetter, ring worms, chapped lips,—and in short for every external bodily evil that may fall to the lot of man or beast.

The proprietor has received at least a thousand certificates and other documents, in favor of his "Specific Ointment" upwards a hundred of which were written by respectable members of the Medical Faculty; and in selecting from this pile the following samples, he was governed more by their brevity, than their contents, as they all breathe the same spirit of eulogy and satisfaction.

CERTIFICATES.
Albany, July 9, 1837.
To, Dr Harrison, Sir: I use your Specific Ointment in my practice and cordially recommend it as a most efficient remedy for Tumors, Ulcers, White Swellings, Scrofula, Rheumatic Pains, Chapped Face, Lips and Hands; and for general and external complaints. I write this at the request of your agent here, who furnishes me with the article, and am pleased to have it in my power to award honor to merit.

RUFUS R. BEACH, M D
Extract of a Letter from Dr. J. W. Sanders, } of Louisville, Ky. October 8, 1837. }
"I am prepared to say, that for Rheumatic Pains and the Sore Breasts of females, Harrison's Specific Ointment has no superior, if indeed it has any equal, in the whole catalogue of external medicines, as known and prescribed in this country."

Extract of a letter from Dr. Potts, of Utica, N. Y. Dated July 28, 1838.
"Harrison's 'Specific Ointment' is, in my opinion, a most important discovery; and is particularly efficient in scrofulas, ulcers, sore legs, eruptions, and general outward complaints, speak of its merits from an experience of four years"

Cincinnati, Ohio, Oct. 4, 1838.
To Dr. Harrison, Dear Sir, I write to congratulate you on the extraordinary virtue of your 'Specific Ointment,' in the curing of burns. A little boy of mine, 4 years old, fell against the fire-place three weeks since, when his clothes became ignited, and he was instantly enveloped in flames. After some difficulty the fire was extinguished, but not before the poor little fellow's lower extremities were almost covered with a continual blister. Having much faith in your ointment, I immediately purchased three boxes, which I applied unsparingly, according to your directions in such cases; and it is with great pleasure and gratitude, that I am able to inform you that it allayed the pain in a few hours; and in ten days had effected a complete cure. I need scarcely add, that it ought to be in the possession of every family, as there is no telling when such accidents may occur.

Yours respectfully,
H. M. SHEPARD.

THE CONSTITUTION?
What is that we call the *Constitution?* The constitution is evidently that which constitutes, and that which constitutes is the *blood.* We, therefore, know that the *blood* is the *constitution,* and that a good or bad constitution is neither more nor less than a good or bad state of the *blood.* There is no person who, having lost health, does not wish to have it restored. Use then the *proper means.* Expel with *Purgative Medicine* all corrupt humors from the body, and the blessing, *Health,* will be the certain result: for all pains or unpleasant feelings proceed from the presence of corrupt or vitiated humors, which are the real cause of every disease, and therefore the *only disease* to which the human frame is subject, because they clog up the veins and arteries, and prevent the free circulation of the *blood.*

Dr. *Brandreth's Vegetable Universal Pills* cure this disease: because they remove the corrupt or vitiated humors by the stomach and bowels, leaving the good humors to give life and health to the body. It is morally impossible that they can fail to cure, provided *Nature* is not entirely exhausted.

Dr. *Brandreth's Office* for the sale of his pills in Philadelphia, is No. 8, North Eighth street.
Sold in Stroudsburg, by RICHARD S. STAPLES, in Milford, by J. H. BRODHEAD, and in Monroe and Pike counties, by the agents published in another part of this paper.

TO AVOID DISEASE AND ATTAIN HEALTH IS NOW IN THE POWER OF EVERY ONE.—DR. BENJAMIN BRANDRETH'S Vegetable Universal Pills,
Introduced into the United States, May 18, 1835.
There has never been an instance of these celebrated *Vegetable Universal Pills* not giving relief and perseverance in old, obstinate cases, is sure making a cure, provided nature is not entirely exhausted. They have cured since their introduction this country at least 20,000—*twenty thousand persons*—of diseases heretofore always considered incurable. It is only five years since I opened the first office for the exclusive sale of this medicine in New York; yet, in that time I have sold over *twelve millions* of boxes, and have now eighteen offices for their exclusive sale, at least one in every principal city in the Union, at an expense of nearly forty thousand dollars per year. And with the expenses of advertising, and other incidentals, the sum was a little over One Hundred and Thirty Thousand Dollars for the year 1839; some idea may be formed how the medicine is appreciated from these facts; they are indeed the greatest blessing that ever yet has been bestowed on man.

I have often found persons desirous to know how soon this medicine will cure them. It is impossible to say—it altogether depends upon the state of the blood and humors. One thing may be relied upon—that if the pills are persevered with according to the printed direction which accompanies each box, the cure will be effected much sooner than the patient could have expected. The many lingering chronic diseases we daily see, are owing either to mercury or bleeding, or to not having been properly purged in fevers, inflammations, colds, measles, small pox or lying in. It is utterly impossible for us to attain or keep health without sound purging. We may fasten up the disorder by barks and tonics, but if it be in the body, it must come out before health is enjoyed, and sooner or later it will break out of itself, worse than ever; if this method of purifying the body is delayed too long. No danger can arise from purging with *Brandreth's Pills.* It has been proved, beyond doubt, that these celebrated Pills and the human body are naturally adapted one for the other. By the use of this Glorious Medicine the contents of humors of the body, can be entirely evacuated, altered, and completely regenerated; and in a manner so simple as to give every day ease and pleasure.

Brandreth's Pills are no less a cure than a preventive of diseases. When we feel dull, pain in the head, back, or side—weariness on the least exertion—it is then we ought to take a dose of these Pills. This will always have a good effect, because it is impossible for pain to be in the body without the presence of those humors which produce it, and it is only by their being forced out with purging that health can be restored.

All that I have been able to ascertain, either by experience or from books has confirmed me in the opinion, that pain, every feeling contrary to health, is produced when the natural outlets of the body become incapable of discharging the corrupt humors generated in the body, as fast as nature requires their expulsion. And that to secure health, we have only to purge ourselves, until health is restored. A practice which experience has established, is fully able to produce this result, without the possibility of any injurious effects. They who have adopted this simple plan have secured the best state of health their bodies were capable of enjoying. The weak have become robust. The robust have become more so. All mankind would be benefitted by this practice, except physicians; and they would be bodily, though not professionally.

Let me now recommend two things, *never be bled, and never go to a Druggist for Brandreth's Pills.* The first weakens the principle of life, and long keeps the blessings of health from the body. And the last, to purchase a Pill called *Brandreth's* of a Druggist, is to insure the purchaser a base counterfeit, entirely incapable of producing the beneficial results of the genuine medicine. To insure this it must be purchased of the undermentioned Agents duly appointed by me, and who hold a regular certificate of agency, which is renewed yearly. There is an agent with one of these certificates in every town in the United States. Those purchasing at wholesale, must remember that all my travellers have a power of Attorney, regularly proved to be my act before the Clerk of the county of New York.

The following is a list of names of all the Agents in Monroe and Pike counties.
To purchase of any in these Counties not mentioned in this list will subject the purchaser to sure deception.
